# 01 - Siu Sai Wan Promenade

## Quality

- Outdoor running and sitting-out area connected to the promenade.

## Siu Sai Wan Sports Ground

## Connectivity

- On the east side of the site, there is an entrance to the Leaping Dragon Walk.
- This connects the LCSD promenade to another section of walkable waterfront.

# Leaping Dragon Walk

## Design/Maintenance

# Greenery

- Some planted areas are in need of maintenance.
- Add more greenery and flowers to the gardens.

## Quality

# Obstructive Fence

- Fence along the lower walkway obstructs view of the harbour.
- Replace fence with one that does not obstruct view.
- Maintain fence.

## Connectivity

# Upper and Lower Promenades

- Upper seating area in front of mall and area below it not connected.
- Add stairs for better access to water.

## Quality

# Concrete Storage

- Concrete storage box blocks part of the lower promenade.
- Move this storage to another site and replace with a garden.
- If unable to move, surround with taller plants.

## Quality

# No Benches

- The lower walkway has no benches.
- Many benches along the upper walkway were in use.
- Add more benches to the lower promenade.

## Quality

# Restaurants

- Allow outdoor seating for restaurants along the upper promenade.

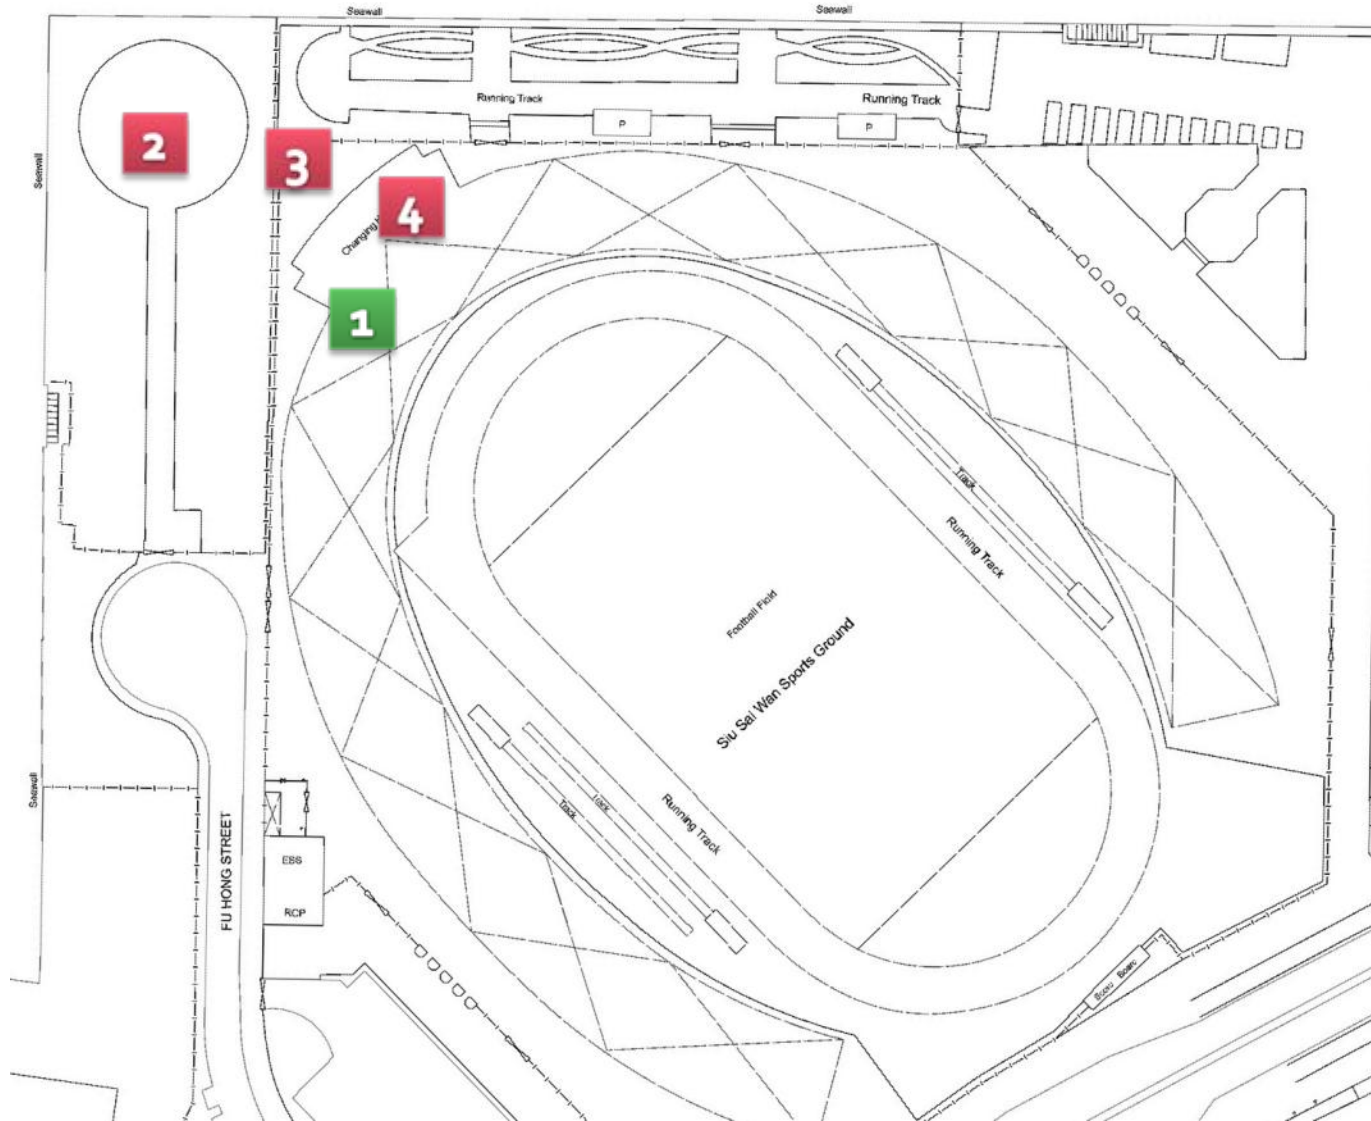

## Design/Maintenance

# Soccer Pitch

- Replace fence around soccer pitch with one matching the tall green fences at the corner of the field.
- Plant trees and add greenery around the pitch for shade.

# 02 - Siu Sai Wan Sports Ground

## Quality

## View from the Stands

- Unobstructed views of Victoria Harbour from the stands.

## Connectivity

- Construction blocks access from west side of sports centre to east side with promenade.
- Create connective promenade for easy access to water from either side of sports centre.

## Construction

## Design/Maintenance

# Rubbish Bins

- Remove giant pile of rubbish bins that can be seen from the stands.

## Quality

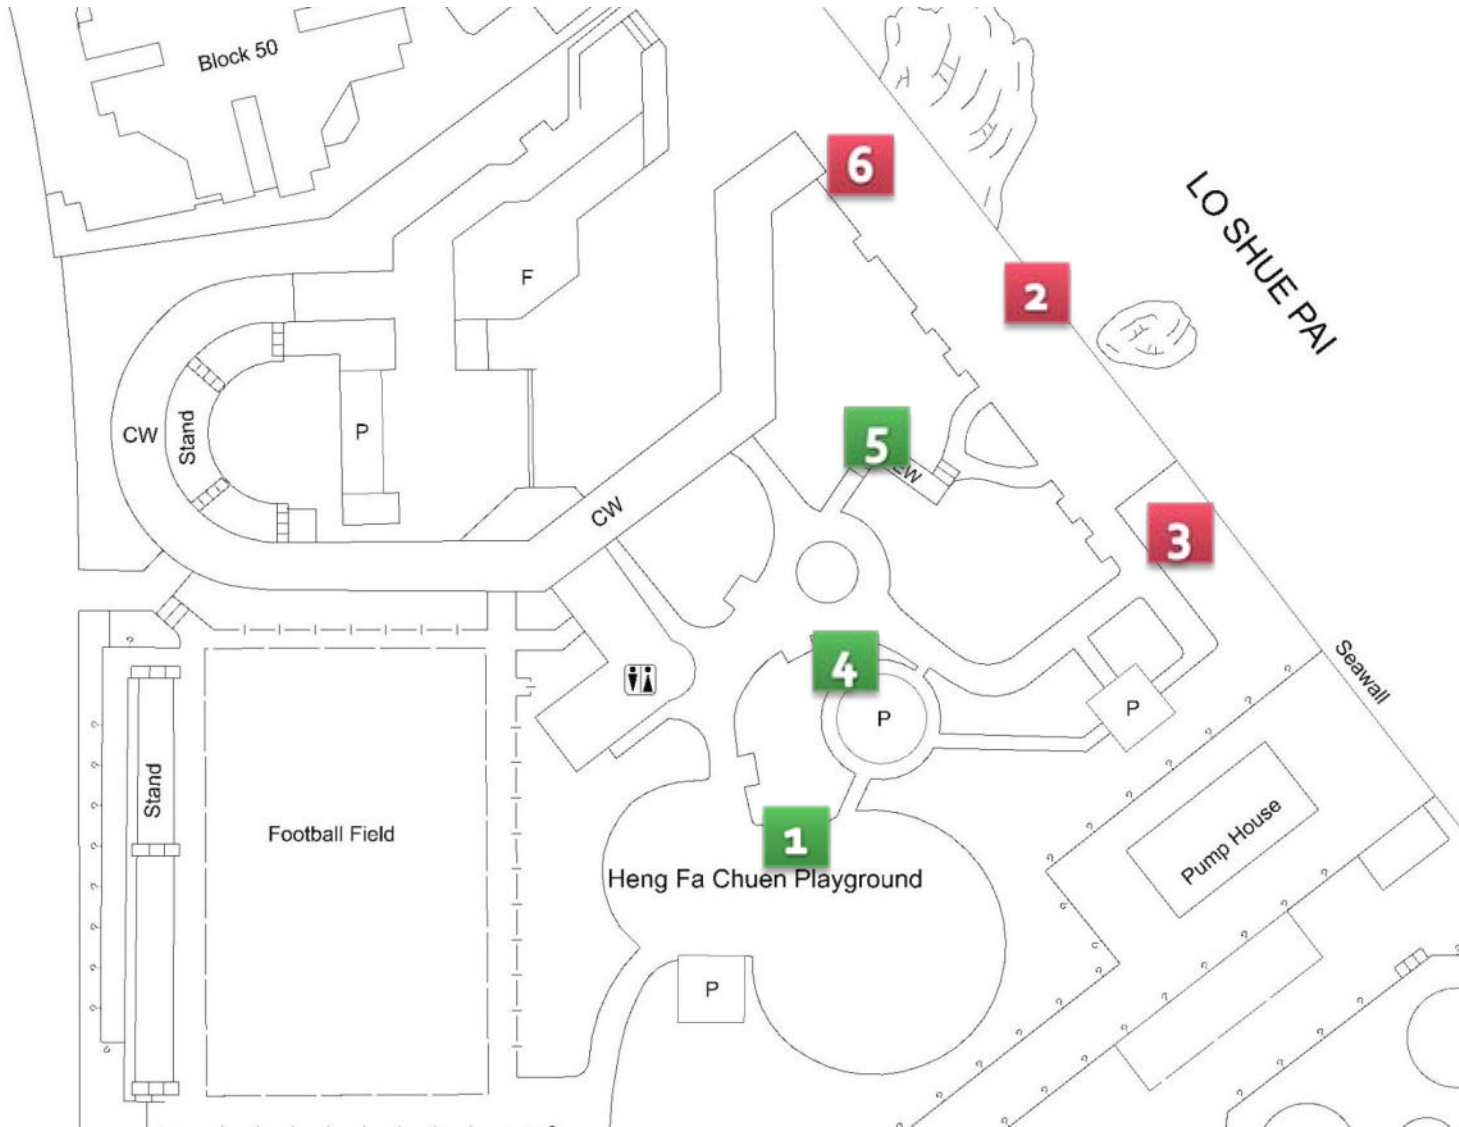

## Rooftop of Changing Rooms

- Rooftop of the changing rooms is unused and close to the top stands.
- Use the rooftop space as a viewing area connected to the stands.
- Add a food kiosk and sitting area for the enjoyment of the harbour views.

# 03 - Heng Fa Cheun Playground

## Design/Maintenance

# Playground

- Colorful playground with many children and parents/grandparents.

## Quality

- Unobstructed harbour views.
- Railings against water are unobstructive.

## Harbour Views

# Greenery

## Design/Maintenance

- East end of promenade area was not well planted.
- Add more greenery and replace gardens.

## Quality

## Game Tables

- Sheltered game tables.
- Use for both games and eating.

## Design/Maintenance

# Bridge

- Small bridge replacing a pathway from the park to the promenade.
- Adds interest to the park.

## Quality

# Shaded Seating

- Add shade to the seating along the promenade.
- Visitors tend to sit away from promenade due to lack of shade.

## Quality

# Outdoor Exhibits

- Historical area pivotal to the history of Hong Kong.
- Exhibits along waterfront with indoor and outdoor exhibitions.
- Well-maintained landscaping and exhibits.

# Toilets

## Quality

- Lacks permanent toilets at water level.
- Add toilets.

## Quality

# Non-obstructive Barriers

- Glass barriers do not obstruct view of water or surrounding landscaping and exhibits.

## Connectivity

# Continuous Promenade

- Continue the promenade from Heng Fa Chuen Playground along the water to the Museum.
- Add entrance booth to the waterfront path of the museum.

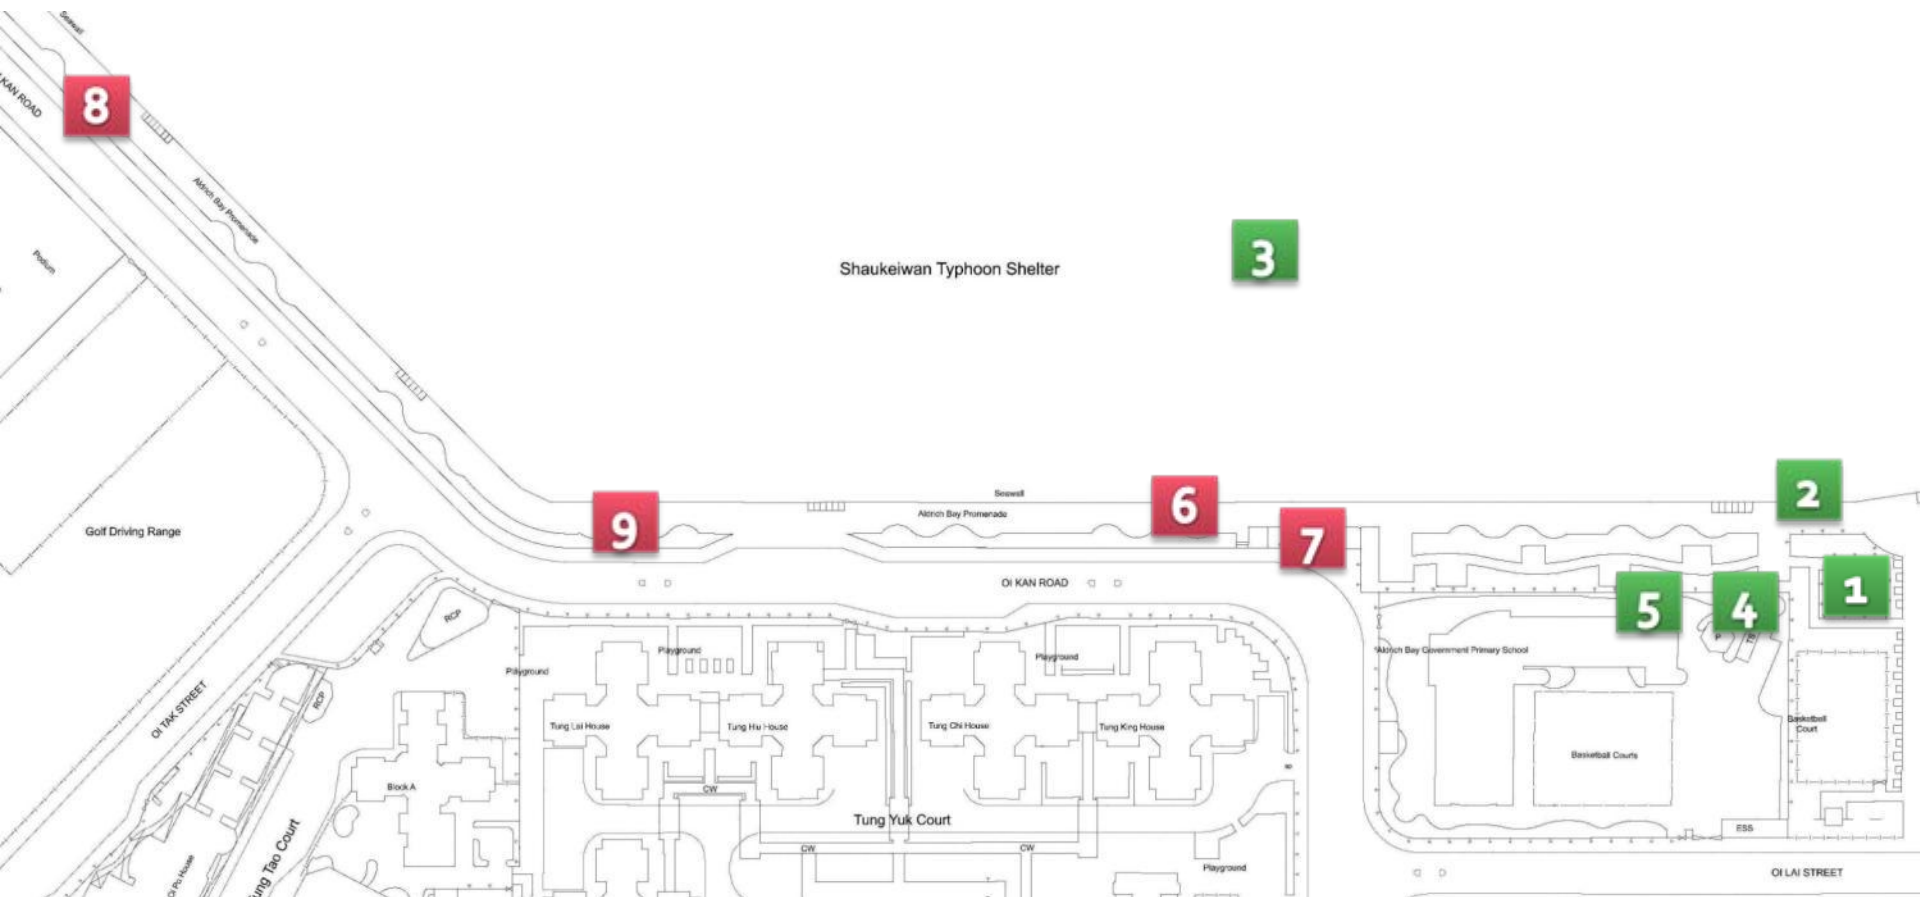

## Quality

- Add dual-language menu on top of cafe's counter, for easier communication.

# 05 - Aldrich Bay Promenade

## Design/Maintenance

# Rubbish Bins

- Unobtrusive rubbish bins.
- Silver bins around the park.
- Playground bin is an octopus.

## Quality

## History Plaques

- Informative plaques explain the history of the typhoon shelter.

## Connectivity

# Typhoon Shelter

- Typhoon shelter full of boats.
- This unique view not seen at many other promenades

## Quality

- Security guard for enforcement of the rules and answering enquiries.
- Some interviewees feel guards are helpful for the upkeep of the park and the safety of the visitors.

## Security

## Quality

# Basketball Benches

- Benches at basketball court face both courts and water.

## Connectivity

# Berthings

- Chains block berthing stairs from promenade.
- Lack of gates a possible hazard to children
- Add gates to these berthings.

## Design/Maintenance

# Unused Tiled Area

- Tiled area is covered by potted plants.
- Replace area with food kiosk or game tables.

## Connectivity

# Sai Wan Ho Harbour Park

- Sai Wan Ho Harbour Park is to the west of Aldrich Bay Promenade.
- Separated by a residential complex.
- Add more signage to connect the two sites.

## Quality

## Distance Markings

- Add distance markings along promenade for joggers, runners, walkers.
- Such markings are widely used in Belcher Bay Park.

# o6 - Sai Wan Ho Harbour Park

## Quality

# Restaurants

- Open air restaurants across the road with harbour views.
- Many people visit these restaurants during lunch and dinner, afterwards walking down the promenade.

## Connectivity

# Water Testing Area

- Large water-testing area blocked off from access.
- Obstructs main entrance of park.
- Replace large open space within fence with smaller area and smaller fence.

## Design/Maintenance

# Water Selling Kiosk

- Remove rusting fence from water kiosk.
- Fence seems unnecessary and is disliked by visitors.
- Add signage to water selling kiosk for its usage.
- And add small food kiosk (such as ice cream) to promenade side of building.

## Connectivity

# Aldrich Bay Promenade

- Aldrich Bay Promenade located to the east of Sai Wan Ho Harbour Park.
- Separated by a residential complex.
- Add signs from Sai Wan Ho to Aldrich Bay Promenade.

## Connectivity

# Quarry Bay Park

- West side of park is adjacent to the entrance of Quarry Bay Park.
- Remove the poorly maintained greenery between the sites to continue the promenade.

## Design/Maintenance

# Fitness Station

- Fitness station is under disrepair.
- Repaint as necessary, redesign and replace old tiles.

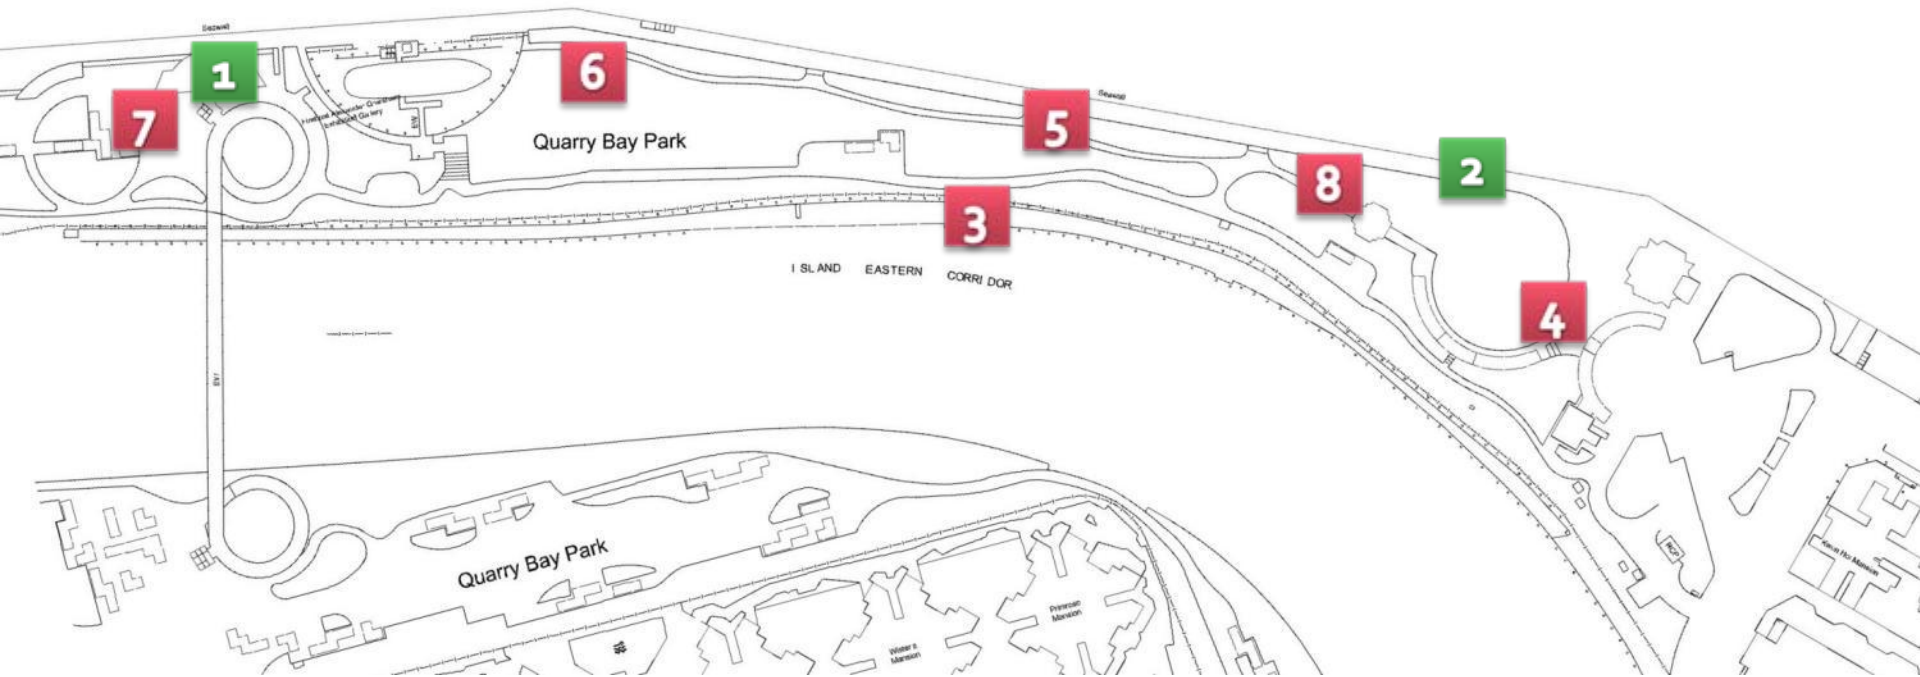

## Quality

- Many dog-owners walk dogs right outside boundaries of Sai Wan Ho Harbour Park.
- Create dog park area within the park.
- Make sure area is patrolled to keep area clean.

# 07 - Quarry Bay Park

## Quality

## Elevated Viewing

- Elevated viewing area with large panoramic informational plaque that gives explanation of the history of Victoria Harbour and points out certain buildings.
- Sitting areas all along the platform.

## Quality

# Lighting

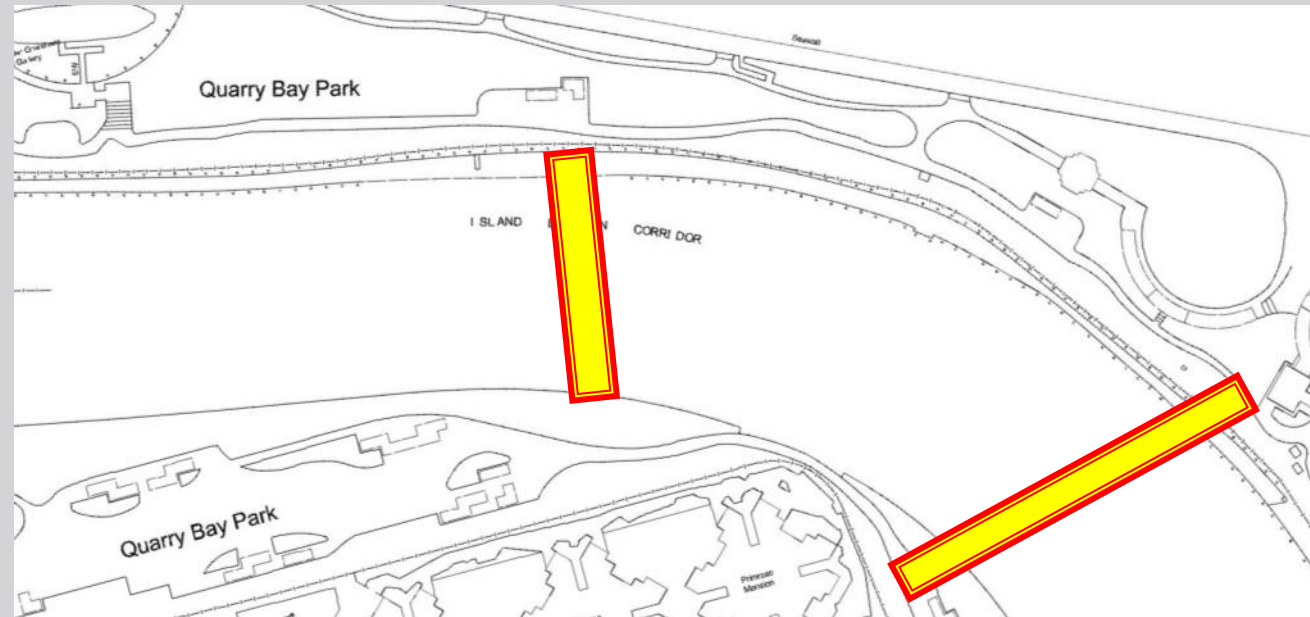

- Lighting throughout the park is unobtrusive.
- Gives enough light to wander the park at night.
- Does not limit view of Kowloon with light pollution.

## Connectivity

# Entrances

- Park has only two entrances.
- One entrance by a large overpass with steep ramp or many stairs.
- Add more entrances. Such as subways beneath the road.

## Quality

## Rule Signs

- Yellow rule signs at the entrance are hung between trees.
- Place signs at eye level for better viewing.

## Quality

# Waterfront Seating

- Very few benches along the waterside promenade.
- Promenade is narrow.
- Place benches on the grassy areas along the promenade to save room and add seating.

## Quality

## Waterfront Dining

- Allow waterfront restaurants, like those found in Lamma Island.

## Quality

# Game Tables

- People seen playing cards games and tabletop games on benches underneath the overpass.
- Place game tables in this area.

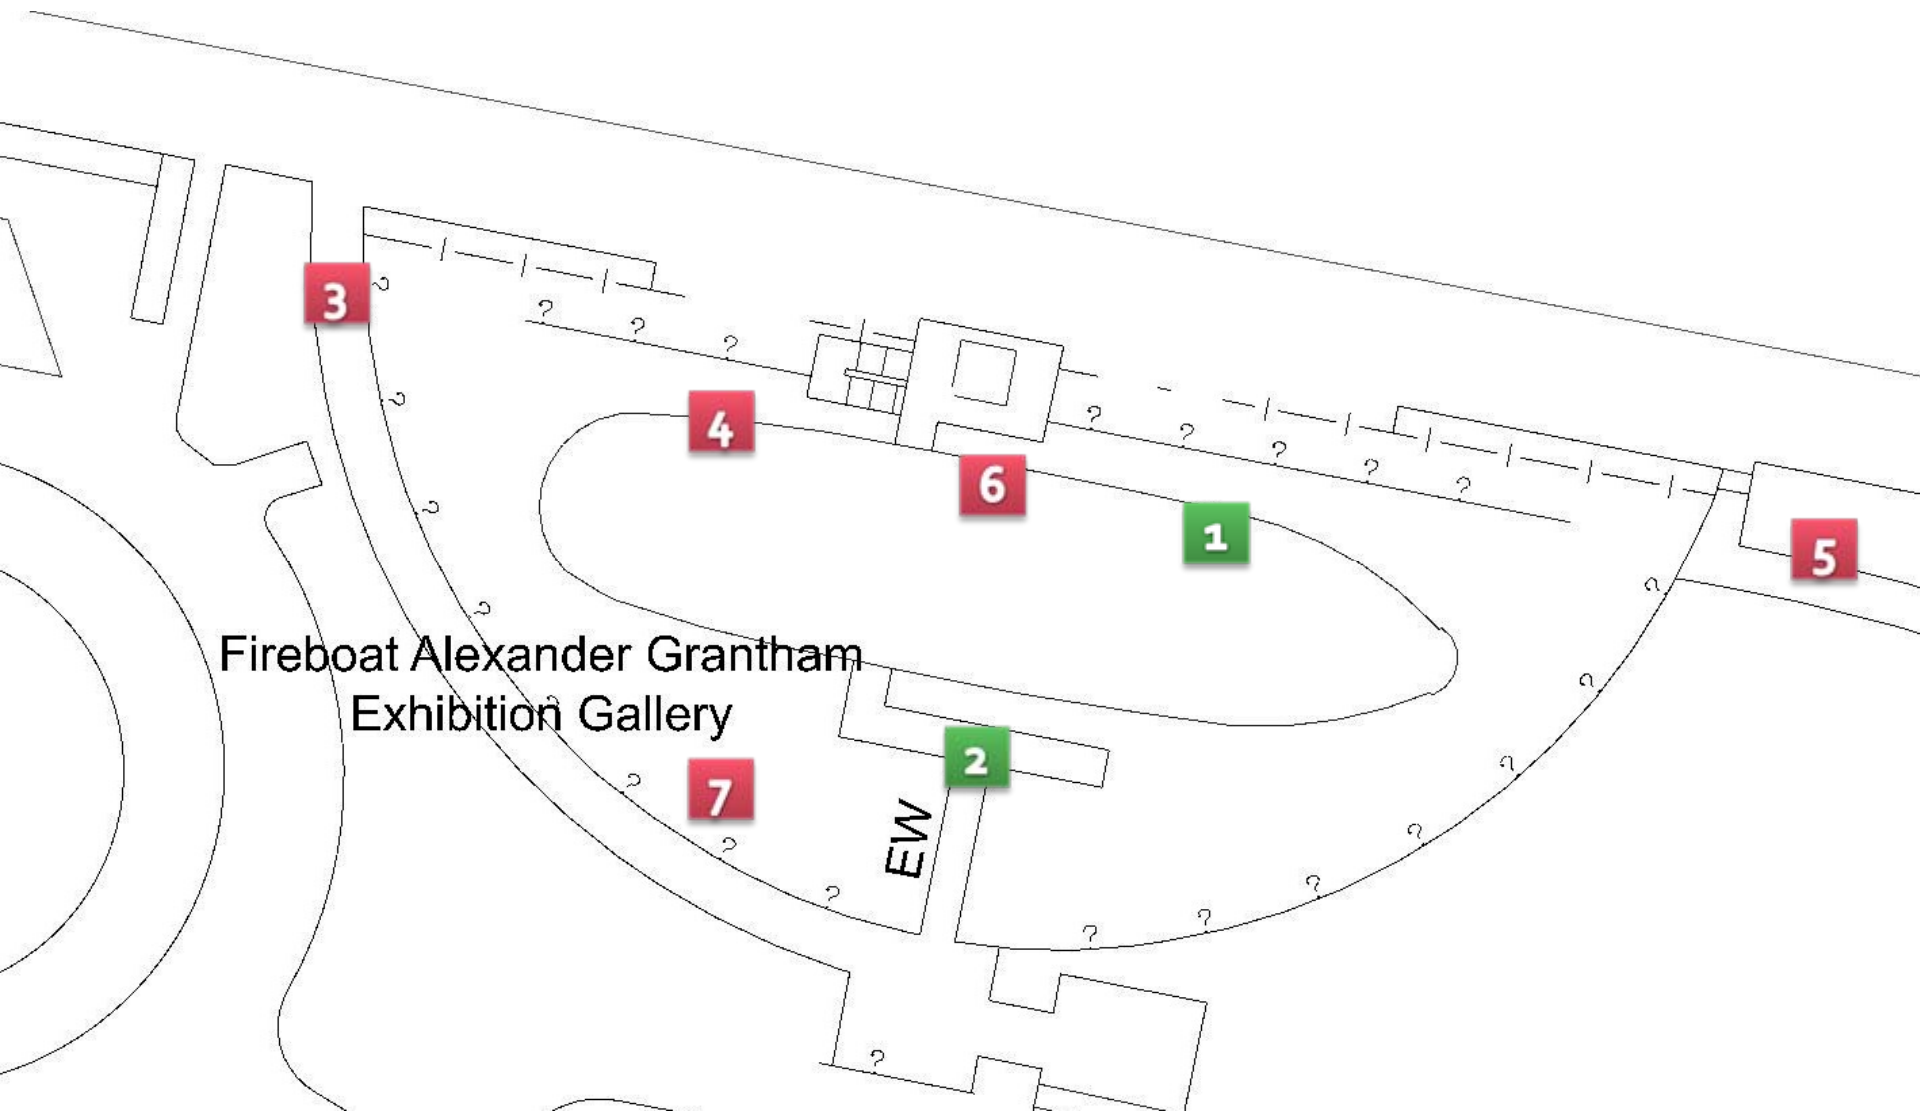

## Connectivity

# Dirt Paths

- Pathways can be seen of trodden grass areas between brick walking paths.
- Make these pathways official by laying them with matching brick.
- Connectivity between paths will increase.

# o8 - Fireboat Alexander Grantham

## Quality

# Trip Hazards

- Plastic coverings over trip-hazards.
- Can prevent stubbed toes.

## Connectivity

# Walkways

- Walkway above the boat out to Quarry Bay Park.
- Well connected to outside.

## Design/Maintenance

# White Surrounding Wall

- Abrupt stop along Quarry Bay paths to white wall around the Fireboat seen from the outside of the exhibit.
- Insert greenery, ivy, or paint a mural to mask the wall.

## Quality

# Lighting

- Lighting not seen at night, makes fireboat difficult to see.
- Leave lighting on at night.

## Quality

# Playground

- Many children visit the Fireboat and enjoy its exhibits.
- Add nautical themed playground near the exhibit.

## Quality

# Rubbish Bins

- Rubbish bins within the exhibit are unobtrusive to the point of not knowing they are there.
- Put a “Rubbish” sticker or an LCSD logo on the rubbish bins.

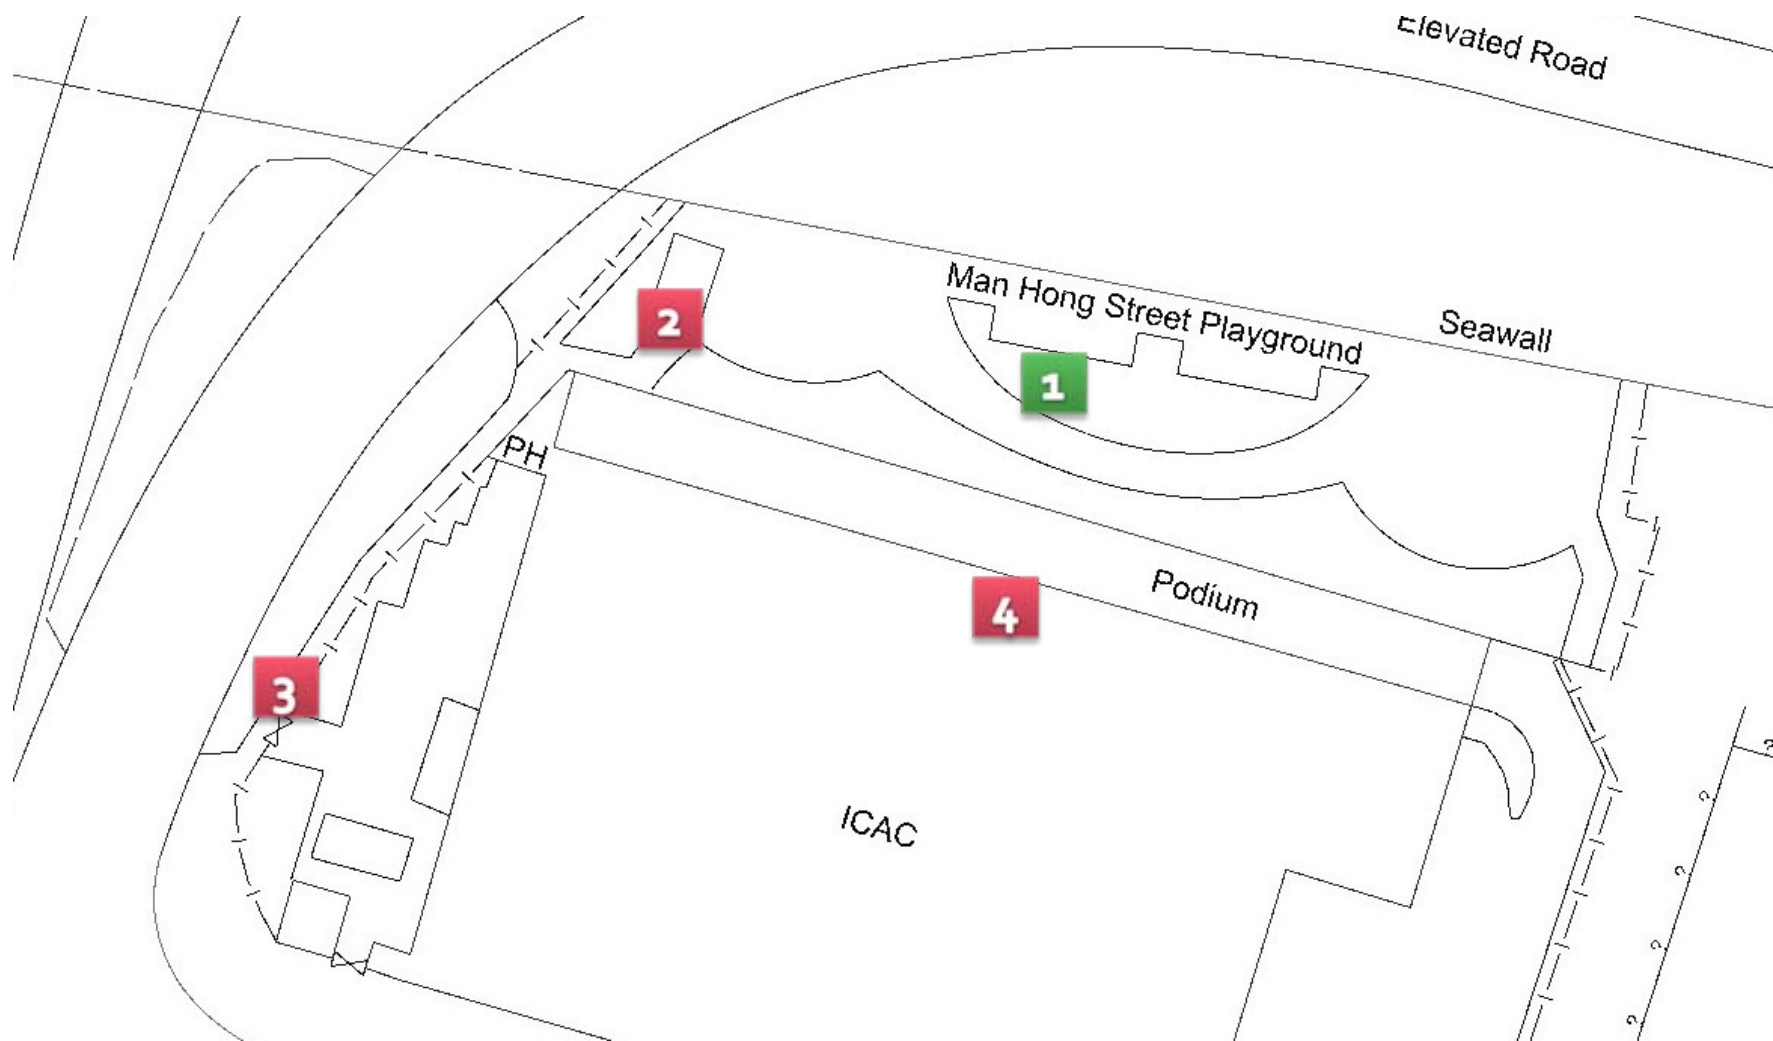

## Quality

# Fireboat Exhibits

- There are informative video exhibits.
- In the middle television area the rightmost TV is not lined up properly and the languages buttons do not give the correct language.
- Reprogram the touch screen.

# 09 - Man Hong Street Playground

## Design/Maintenance

# Landscaping

- Well landscaped park.
- Much greenery.
- Much shaded seating.

## Design/Maintenance

## Name of Site

- The site is not a playground.
- Could prove deceiving for visitors with children.
- Change name to "Man Hong Street Sitting-Out Area."

## Accessibility

# Hidden Park

- Narrow unmarked pathway leads to the site from the street.
- Widen pathway and add signage for easier access.

## Connectivity

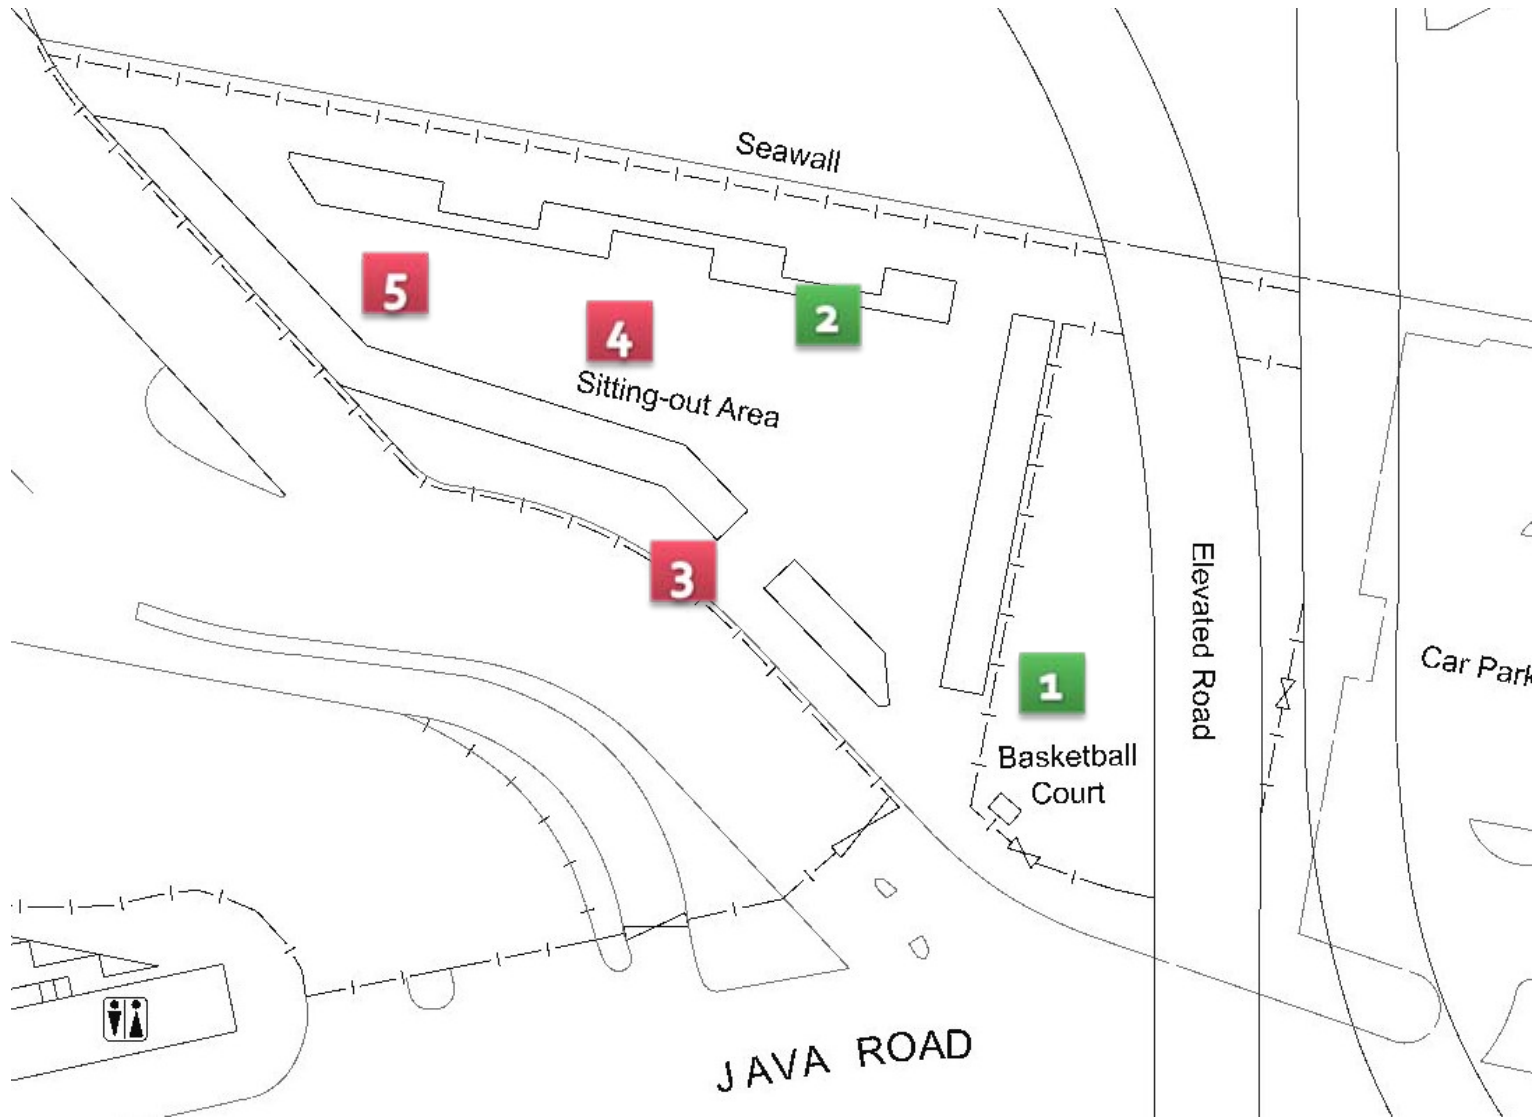

# ICAC Building

- Located behind the ICAC building.
- Perhaps collaborate with ICAC building to open their gated park for beautification of area.
- Create lunch area for employees

# 10 - North Point Ferry Concourse Promenade

## Quality

# Basketball Court

- Basketball court in use during visits.
- Technically a different LCSD site, however sites are connected.
- Adds activity to North Point Ferry Concourse Promenade.

## Quality

## Bench Cages

- Benches along the promenade had cages on the back.
- Keeps seated visitors safe from flyaway balls and other sports even though ball games are not allowed.

## Quality

# Fence

- Fence as a barrier to the road.
- Replace fence with a noise barrier wall and plant trees to make it more aesthetically pleasing.

## Quality

# Open Space

- Large open space at entrance of the site.
- Allow ball games in the open space or cycling for children.
- Place a playground within area.

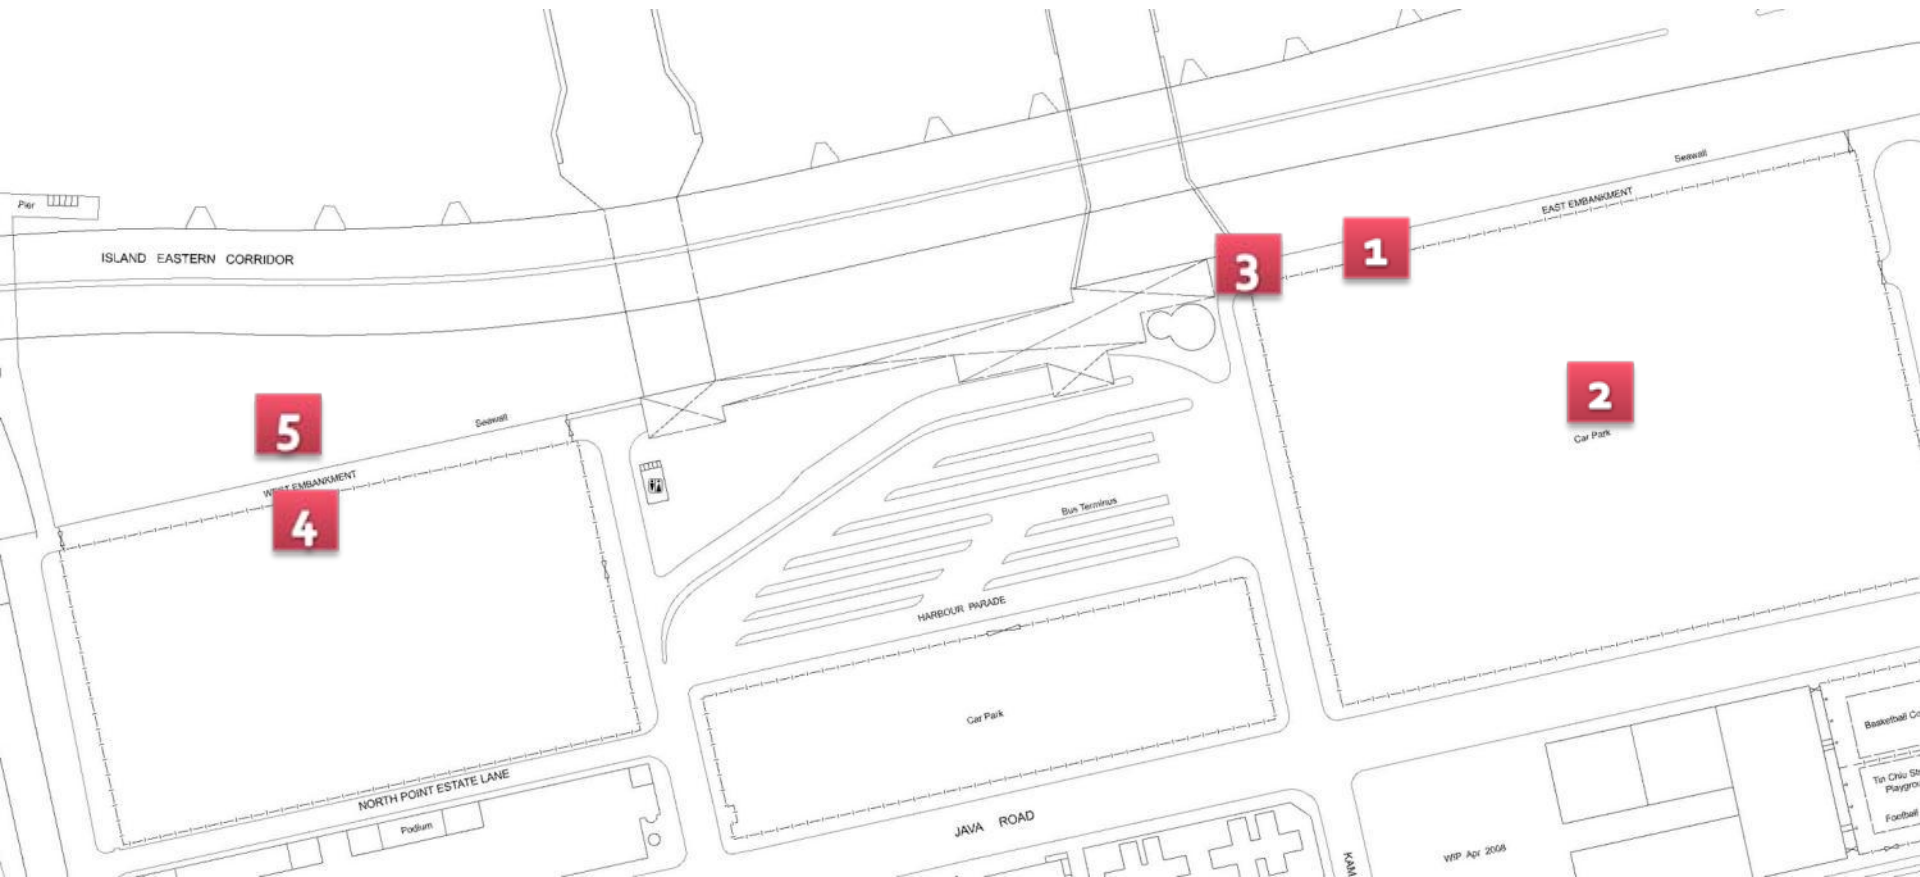

## Quality

- Few restaurants or food kiosks within the surrounding area.
- Add vending or food kiosk.

# 11 - North Point Promenade

## Quality

# Shaded Seating

- Every bench was filled along the promenade at the time of first visit, most filled at time of second visit.
- More shade with greenery and create more shaded seating as requested by interviewees.

## Connectivity

# Lots Behind Sites

- Very narrow promenades with parking lot or vacant lot behind.
- Use part of parking lot and vacant lot for the creation of larger parks.

## Connectivity

# Signage

- Little signage and no LCSD signs.
- Add LCSD signage: site name, map, rules, info, etc.

## Design/Maintenance

# Chain-link Fences

- Surrounded by chain link and barbed wire fences.
- Replace these fences with ones more inviting.

## Quality

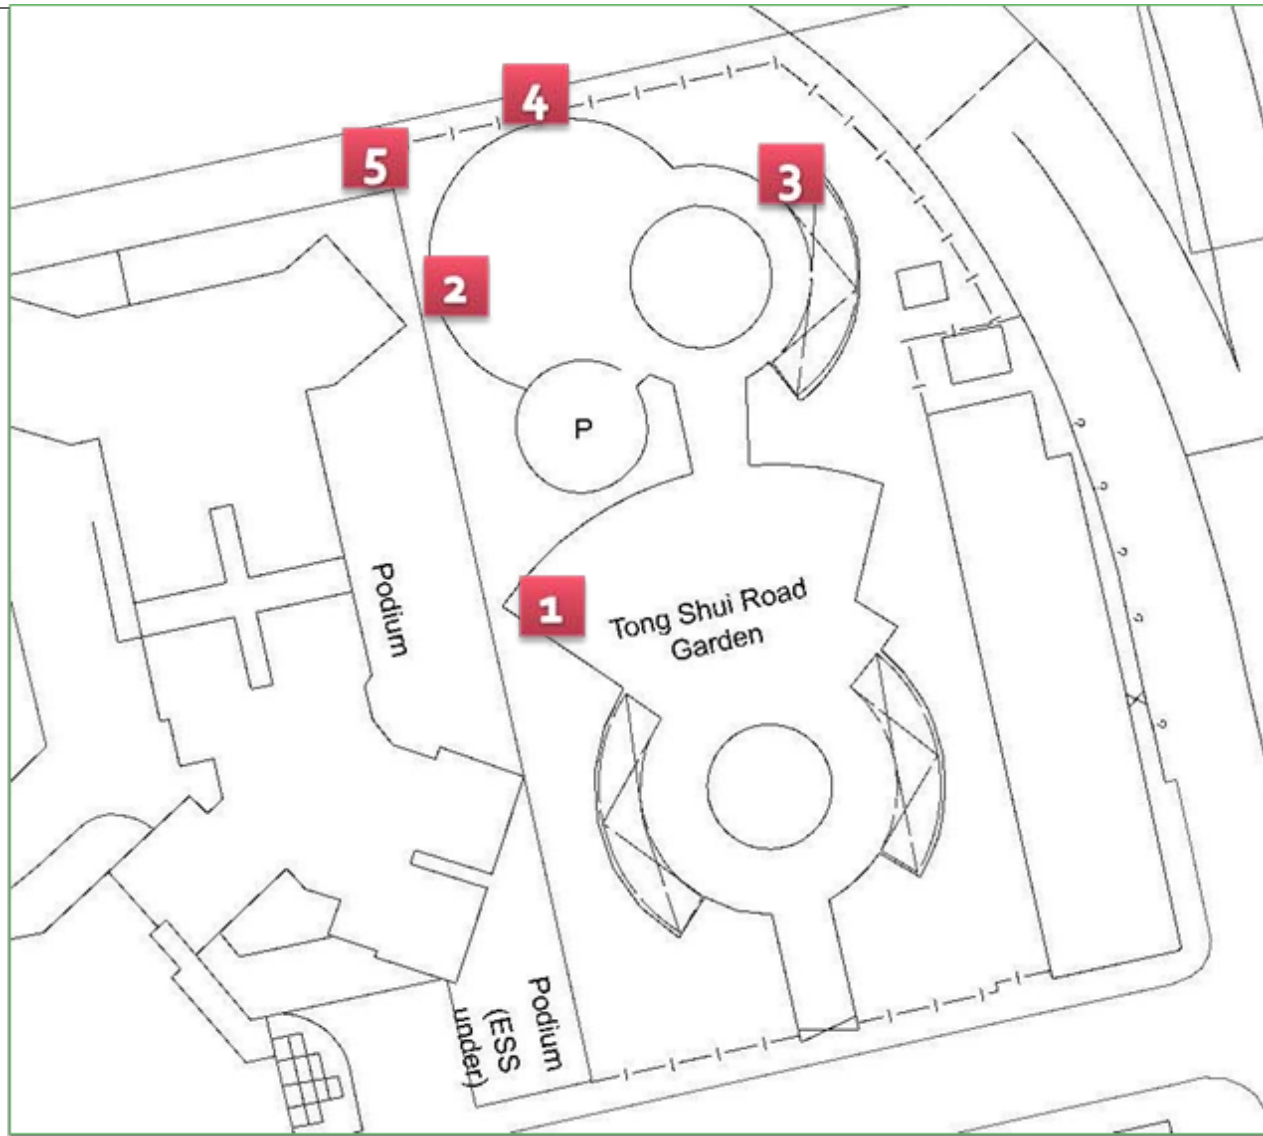

# Waterside Fence

- People seen fishing through the tall fence along the water.
- Replace with a lower fence, both removing obstruction from view and allowing for easier fishing.

# 12 - Tong Shui Road Garden

## Quality

# Broken Bench

- Benches near cement wall are not shaded and some are broken
- Repair broken benches and plant trees for shade

**Broken Bench**

## Design/Maintenance

# Paint Cement Wall

- Add color to the site by painting cement wall.
- Paint a harbour theme mural to match playground.

# Landscape

## Design/Maintenance

- Cement block on east side of playground.
- Remove structure.
- Move and build large playground above this area.

## Connectivity

# Barrier

- Black fence obstructs access to water.
- Replace on east side of garden with a noise barrier again the Island Eastern Corridor.
- Remove from west side of garden.

## Connectivity

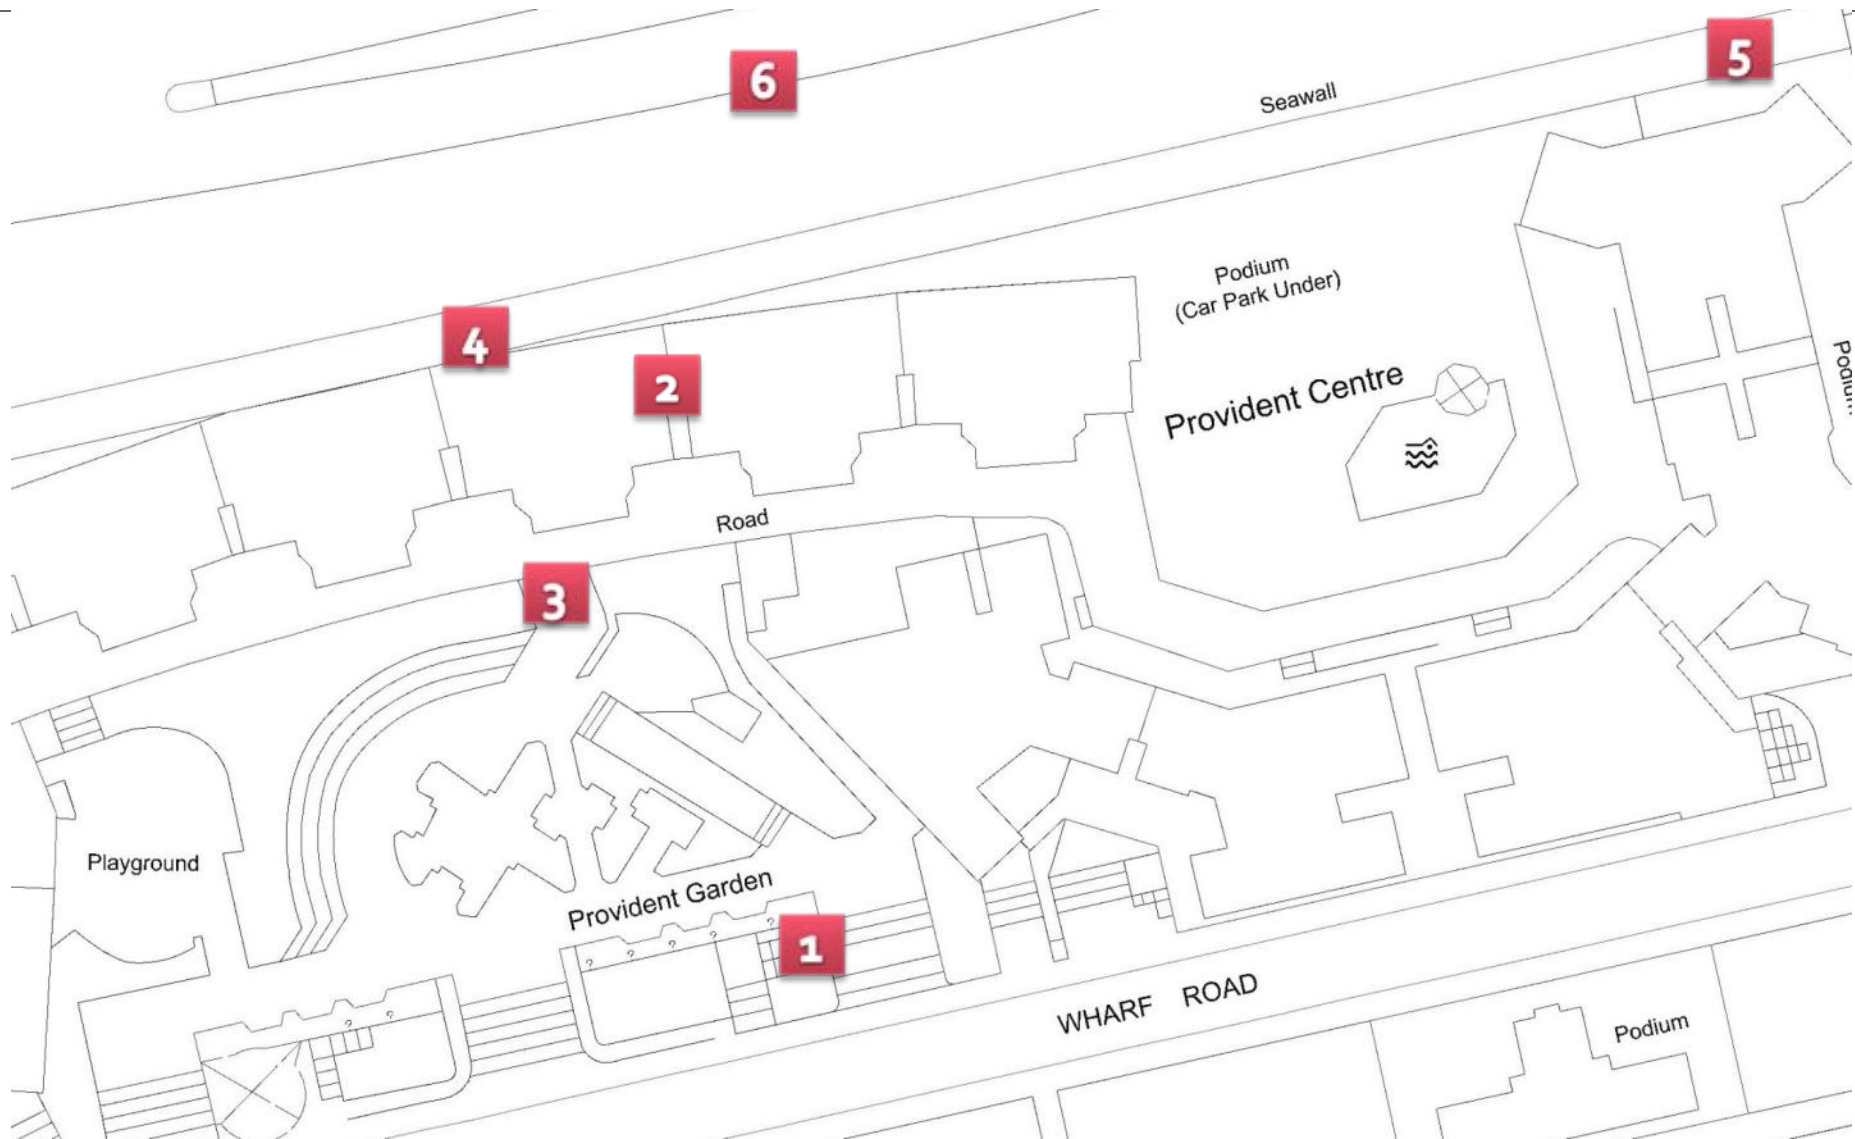

# Provident/Tong Shui Wall

- There is a wall separating these LCSD venues.
- Remove the wall and continue the promenade to connect.
- Move playground to east side of garden and extend its size.

# 13 - Provident Garden

## Connectivity

- Residents unaware garden is a public site.
- Add site signs to all entrances.
- Use LCSD symbol on signs to indicate that it is a public site.

## Quality

## Tunnels to promenade

- Tunnels under residential buildings lead to waterfront LCSD promenade.
- Tunnels are dark and lack colour.
- Add lighting in tunnel and paint concrete walls.

## Connectivity

- Plants block gate that leads to tunnel and promenade.
- Remove barriers to the entrance.

## Access to tunnel

## Quality

# Concrete wall

- Tall concrete wall secludes promenade.
- Promenade does not have lighting.
- Add lighting to promenade and add paintings, mural, or mosaic to concrete wall.

## Connectivity

# Provident/Tong Shui Wall

- There is a wall separating these LCSD venues.
- Remove the wall and continue the promenade to connect.

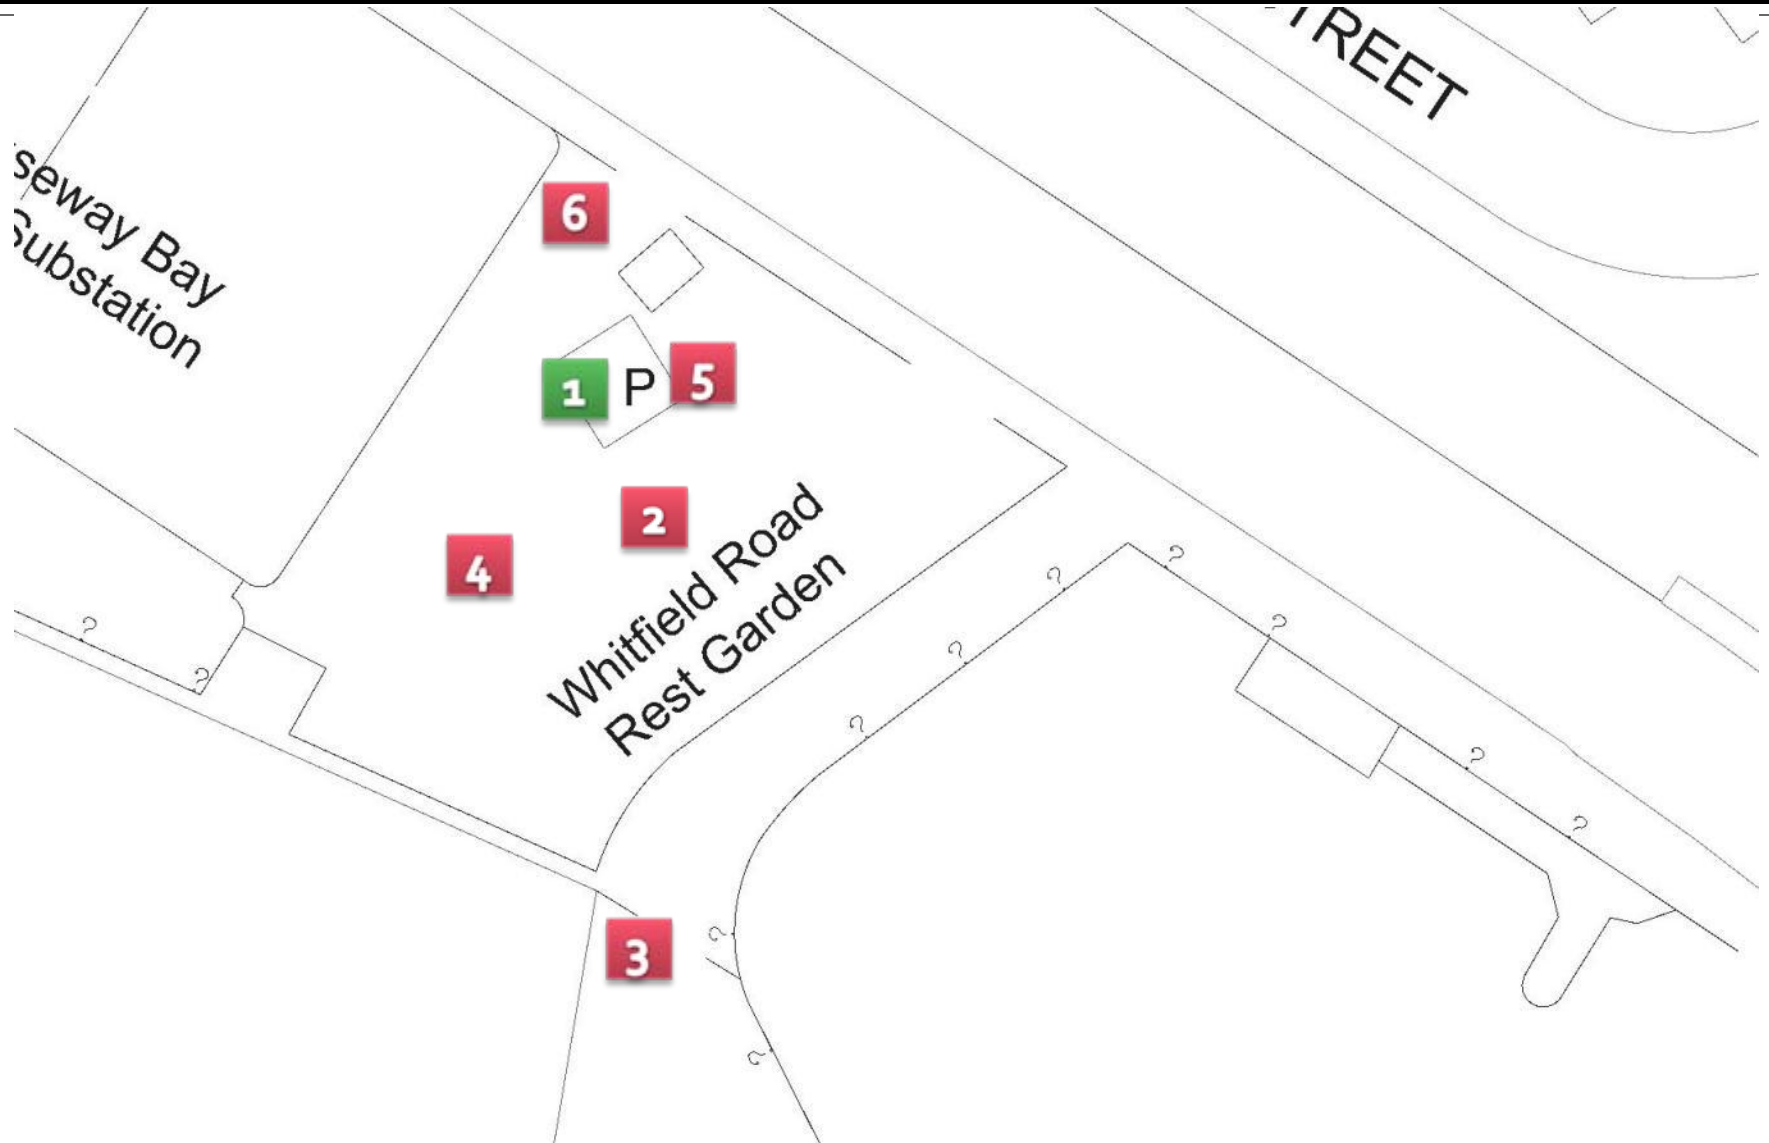

# Barrier

## Quality

- Island Eastern Corridor obstructs harbour view.
- Build underpass extending from promenade to highway and connecting to nearby playground.
- Idea also proposed by the Harbour Business Forum's study, "Sustainable Transport Opportunity for the Harbour-front" (2008)

# 14 - Whitfield Road Rest Garden

## Quality

# Gazebo

- The gazebo provides shaded seating and shelter for visitors to the site.

## Quality

# Wooden Fences

- Wood fences surrounding the gardens block the view of the plants.
- Remove them.

## Connectivity

- The area adjacent to the park appears unused.
- Expand the park and extend the promenade.

## Expansion

## Quality

## Seating

- Park contains few benches.
- Add more benches.

## Design/Maintenance

# Gazebo Roof

- Chipped paint on gazebo roof.
- Repaint gazebo.

## Quality

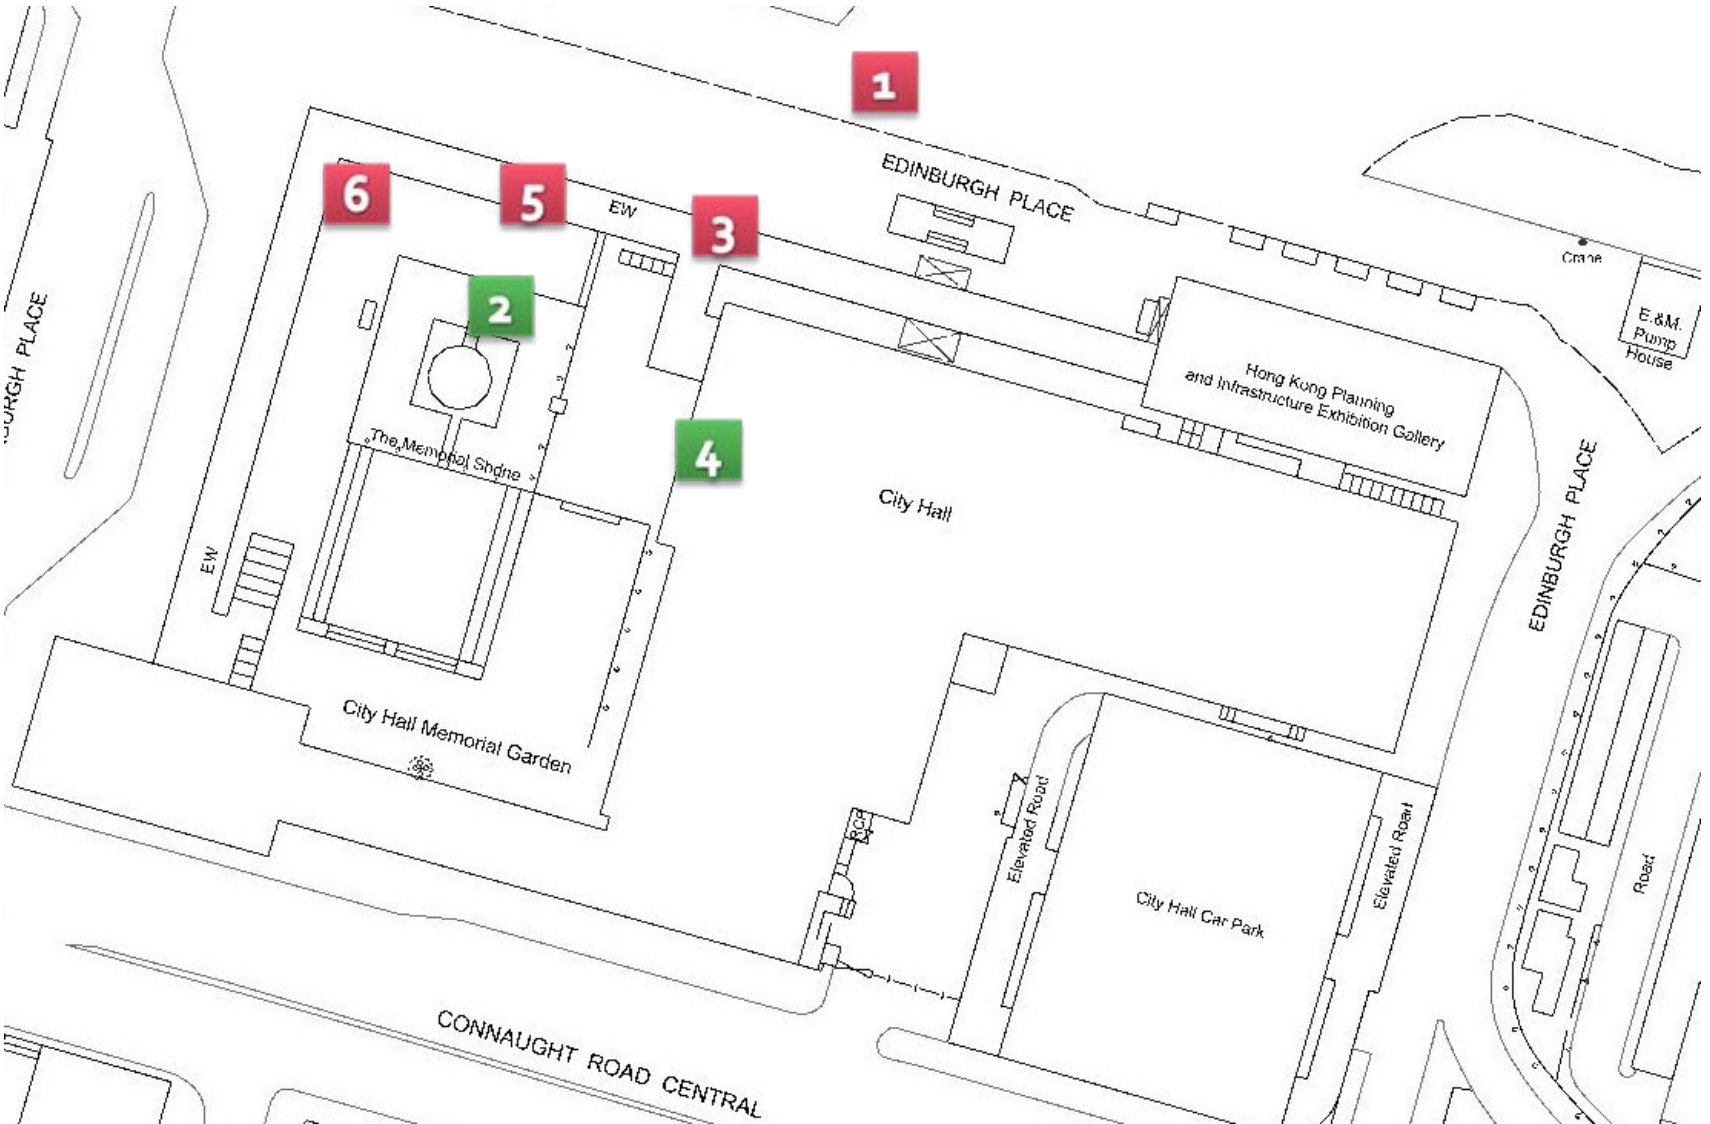

# Dispenser Machines

- No food or beverage nearby.
- Add dispenser machines.

# 20 - Hong Kong City Hall

## Quality

# Harbour View

- No longer on the waterfront because of Central Reclamation Project
- Loss of Queen's Pier due to construction.
- Place a monument of Queen's Pier outside of City Hall.

# Landscape

## Quality

- Aesthetic appeal of garden and sitting area outside of building is well-maintained.

## Quality

- Add informational plaques for the history of the area.

## Informational Plaques

## Quality

## Shops, Food/Beverage

- Shops and eating areas located inside building.
- Snack and beverage vendor outside of garden.
- Park used by people eating lunch.

## Design/Maintenance

# Viewing Platform

- Add trees for shade on platform.
- Replace benches with wooden ones.

# Barrier

## Connectivity

- Brick wall encloses garden sitting area and serves as noise barrier from construction.
- Only one grade-level entrance.
- Remove glass walls and create more entrances.
- Leave brick walls for seclusion.

# Harbour View

## Quality

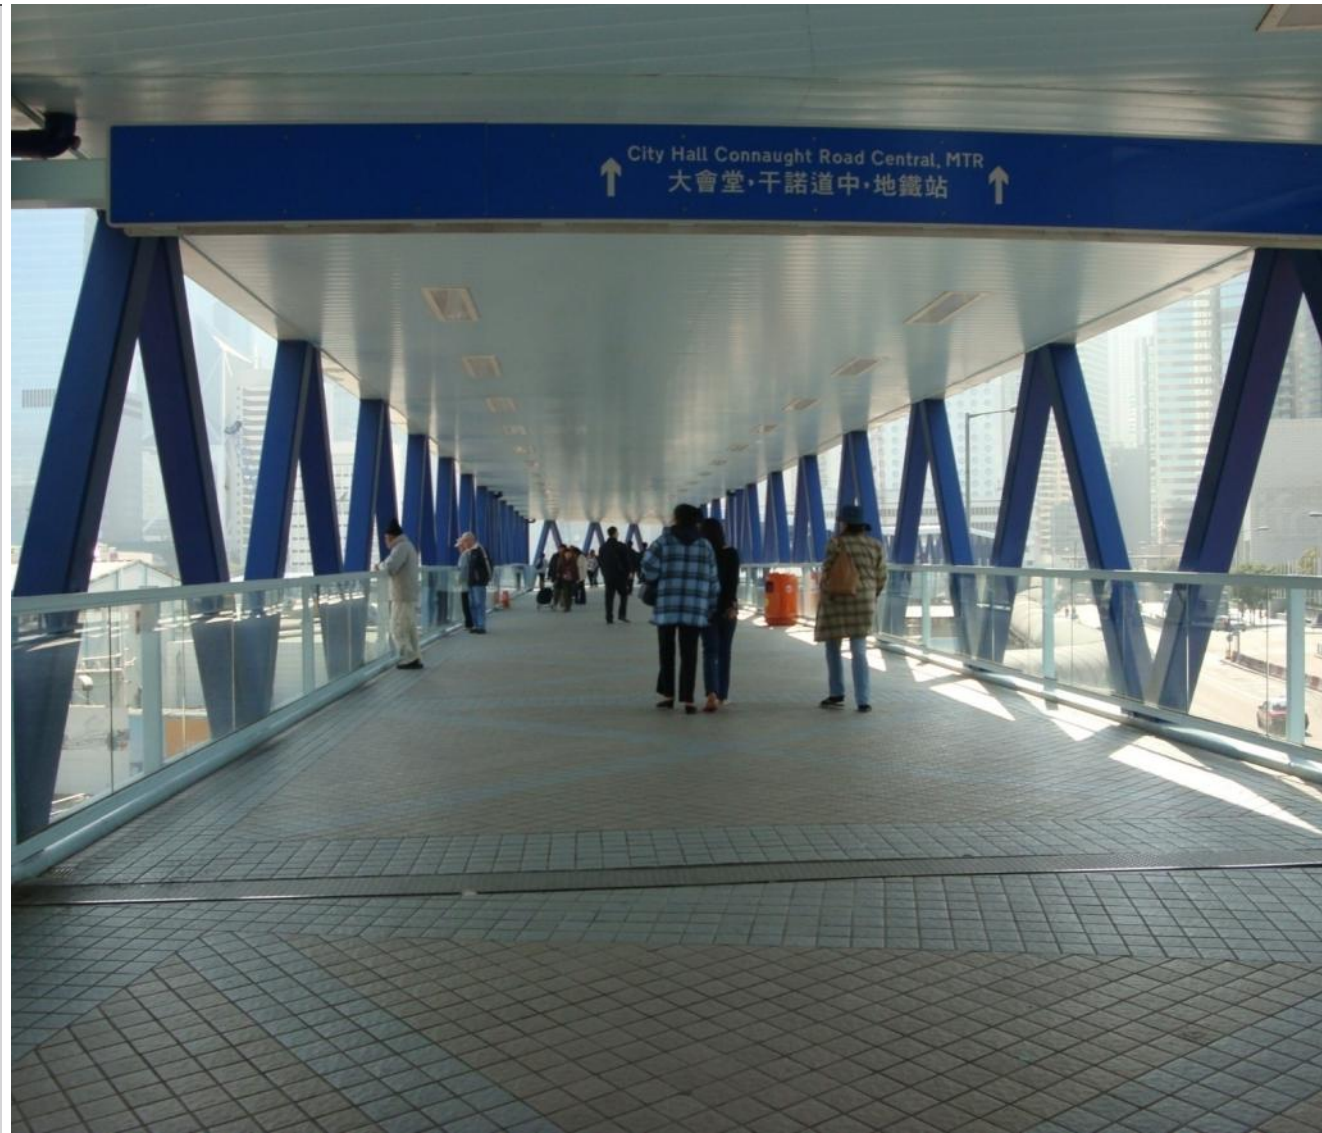

- View of Hong Kong Convention Centre and Wan Chai.
- Add binoculars for viewing.

# Travelators

## Connectivity

- Add travelators from the IFC Mall to the Central Ferry Pier.

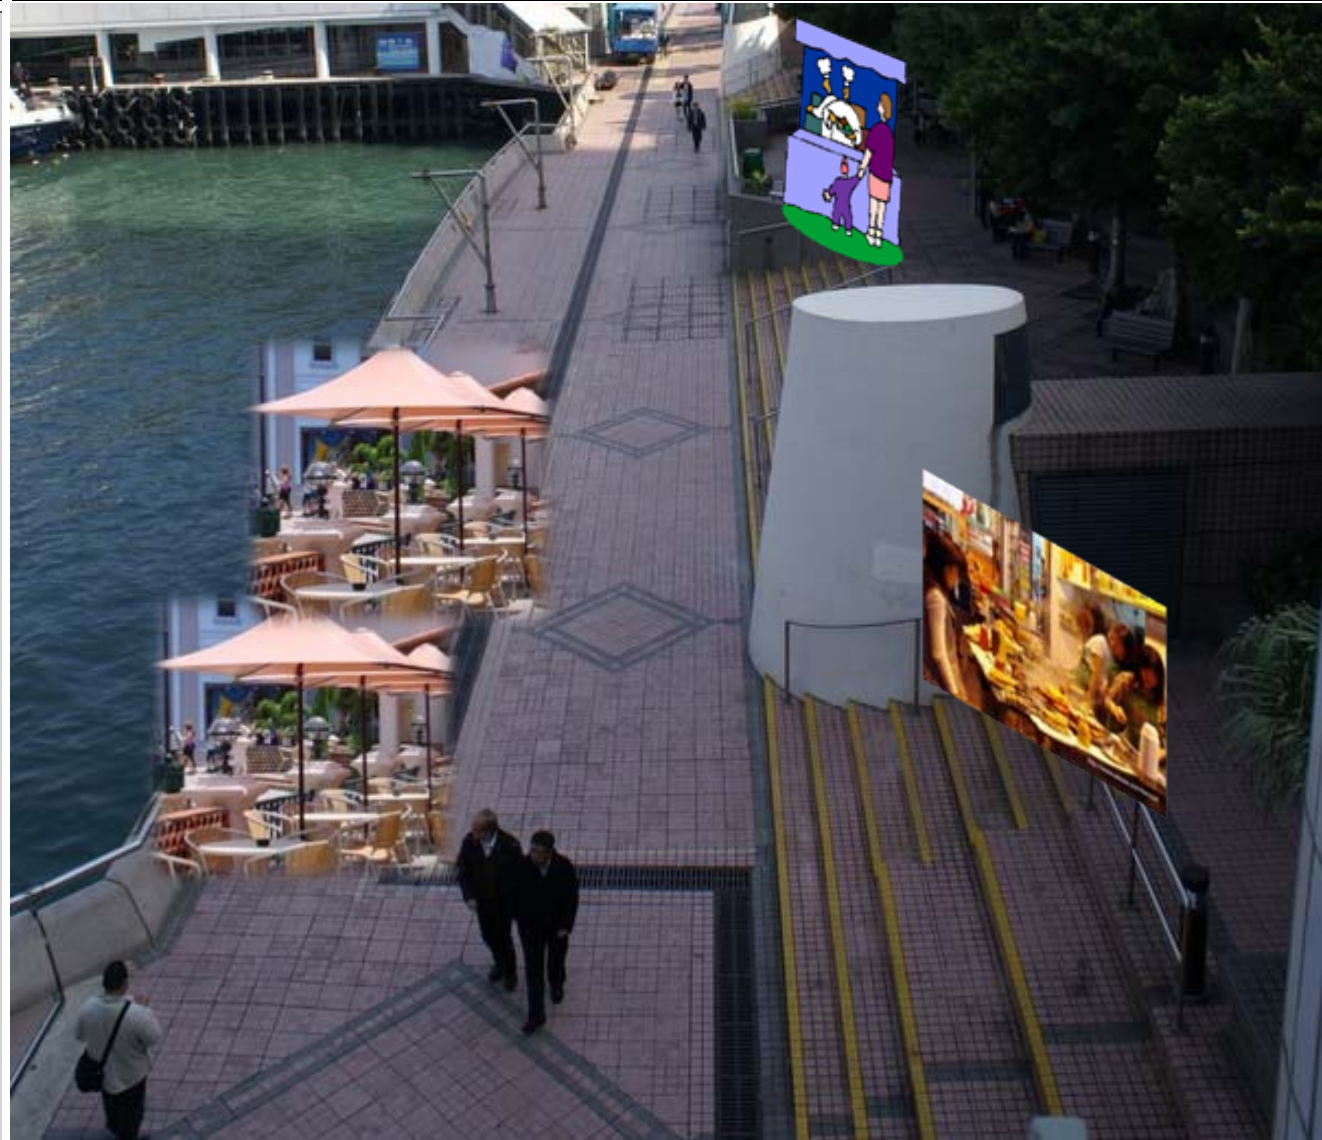

# Outdoor eating area

## Quality

- Steps rarely used.
- Add food-kiosk at steps.
- Add shaded seating on promenade. Both benches and tables.

# Shaded Seating

## Quality

- Add shaded seating along wall.

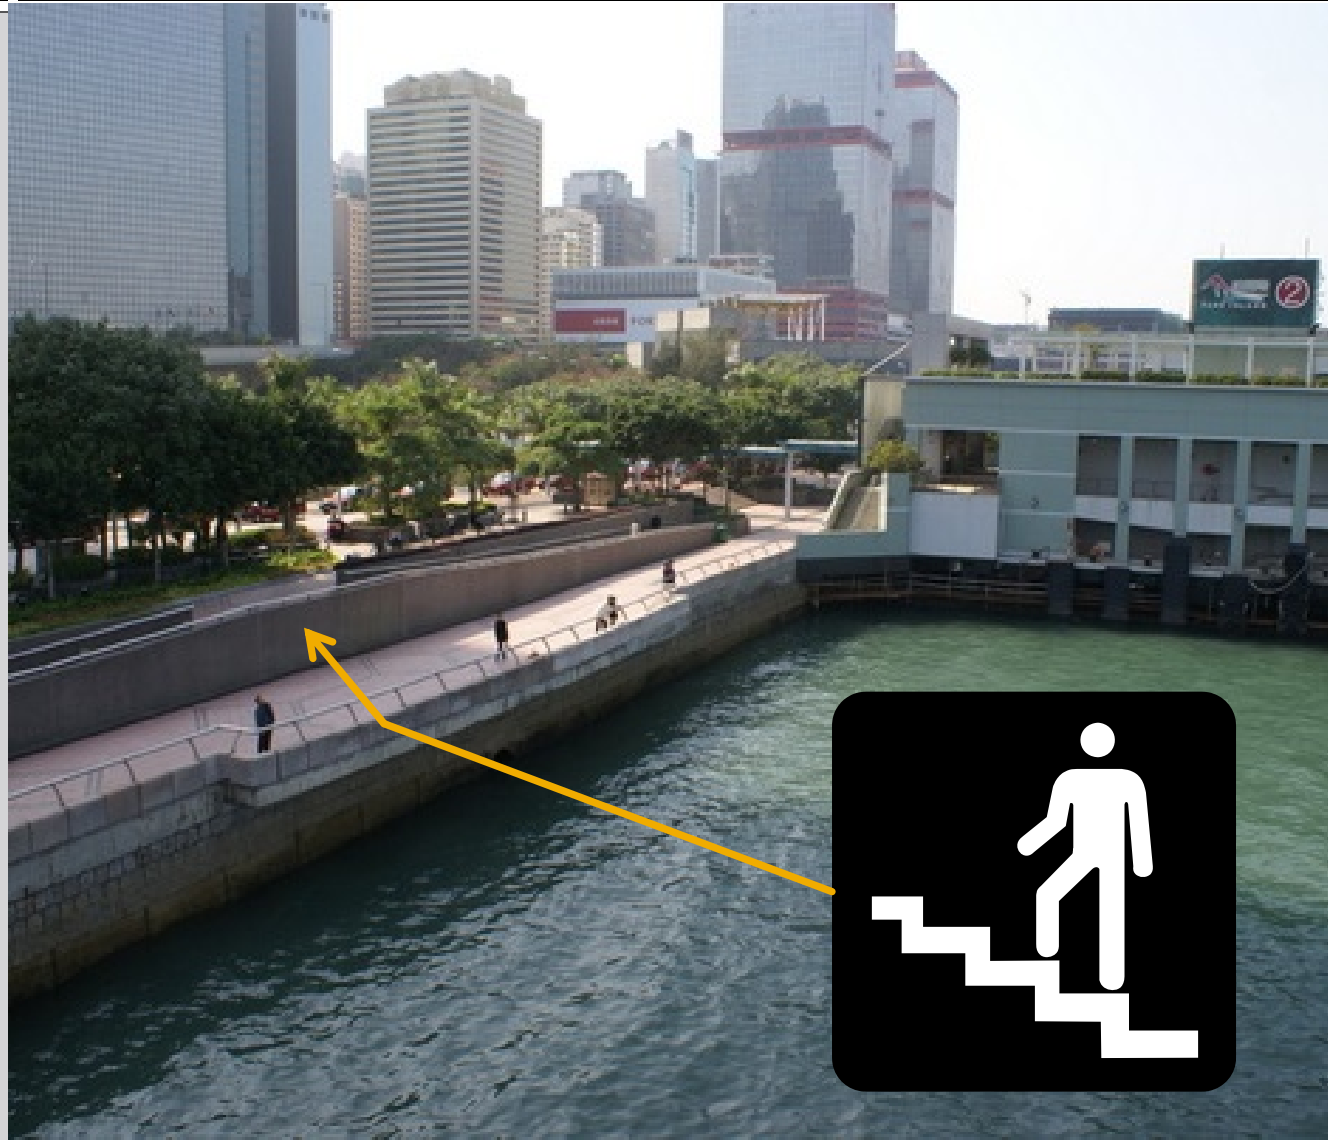

# Stairs

## Connectivity

- Cement wall at Pier 2 blocks direct access from upper to lower promenade.
- Add staircase.

# Flooring

## Design/Maintenance

- Flooring is visibly dirty and lacks aesthetic appeal.
- Replace floor with stone or brick.

## Design/Maintenance

# Concrete Barrier

- Replace concrete barrier and guard rail with see-through fence.

# Rooftop of Pier

## Quality

- Outdoor restaurant located on rooftop of pier .
- Add other rooftop eating and sitting areas.

## Design/Maintenance

# Maintenance

- Ground is littered and visibly dirty near edge of promenade.
- Add recycling and trash bins on promenade.

## Connectivity

# Sign to MTR

- Located near MTR but hard to find.
- Add signage on promenade to MTR.

# 22 - Sun Yat Sen Memorial Park and Swimming Pool

## Connectivity

- Sitting-out area behind Sun Yat Sen Memorial Park construction.
- Area is temporary and will be added to park.

# Temporary Sitting-Out Area

## Connectivity

# Western Sports Centre

- Western Park Sports Centre is behind wall.
- Connect the Centre with the park.
- Continue promenade past the Sports Centre.

## Quality

## Swimming Complex

- Create harbour views by making windows, decks along waterfront side of swimming pool complex.
- Allow restaurants and food kiosks on north side of building.

## Accessibility

- Add subways to park for greater access.

## Subways

## Quality

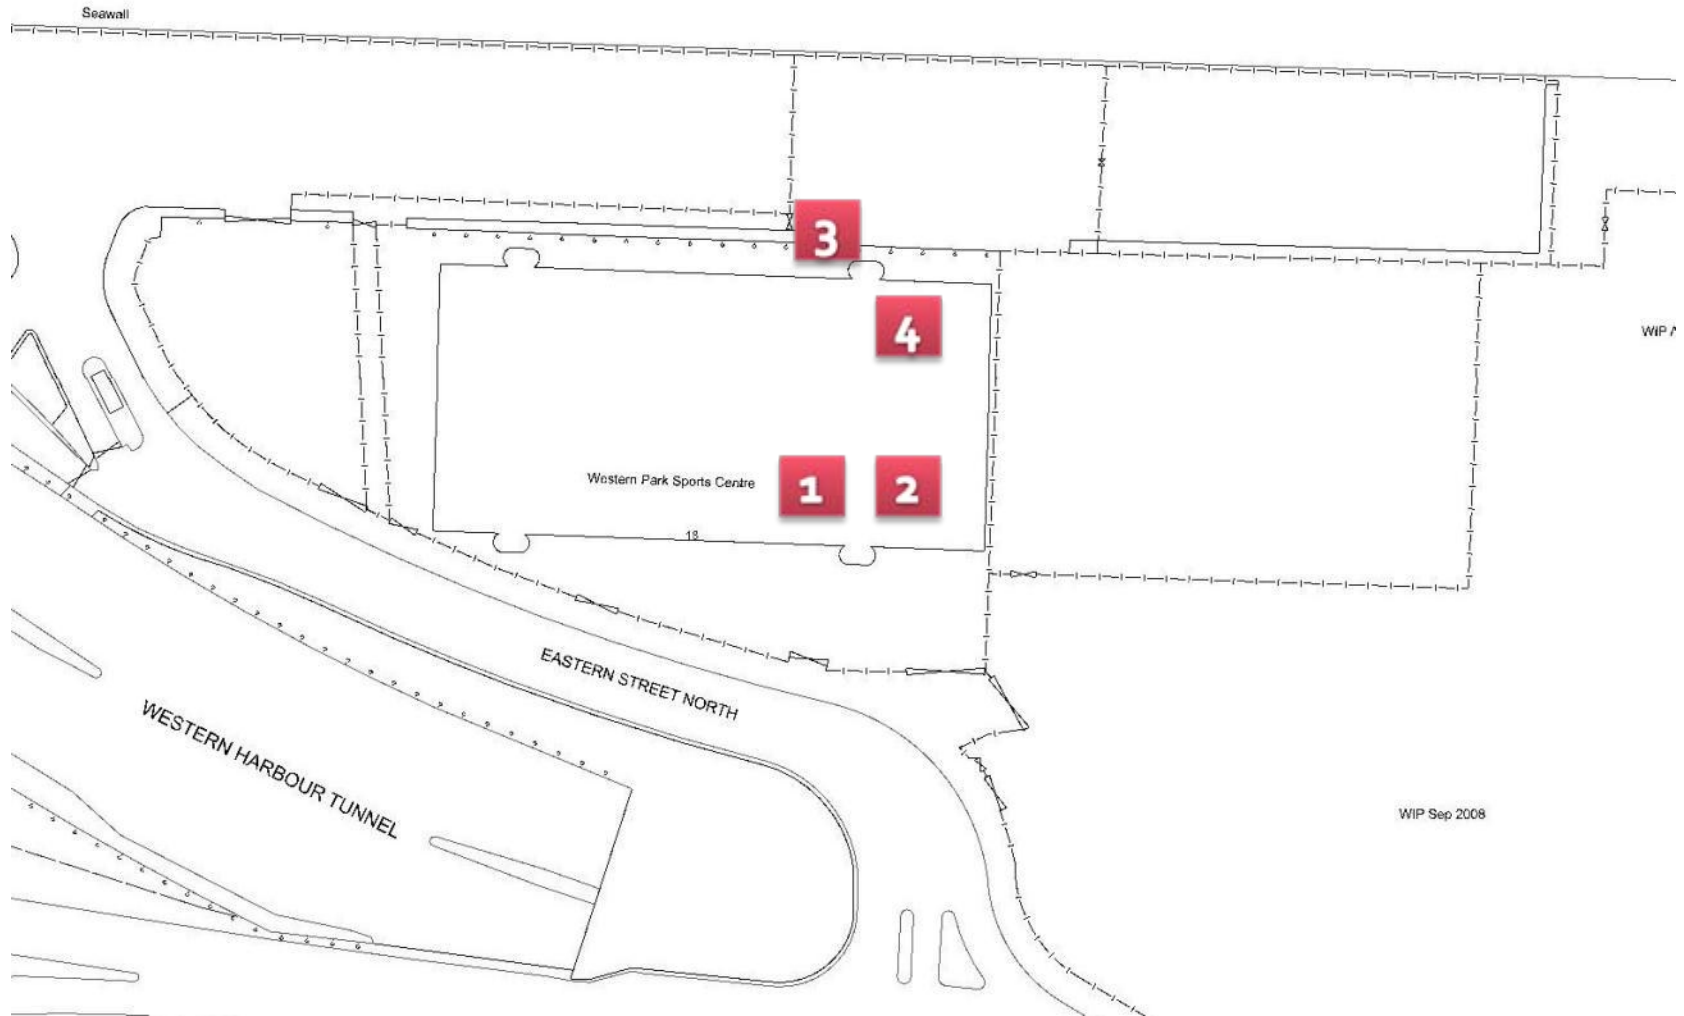

## Shaded Seating

- Ensure there is shaded seating along promenade.

# 23 - Western Park Sports Centre

## Quality

# Information

- Leisure Link Self-Service Kiosk: reserve facility in building using this and Octopus card.
- Add sign above machine.

## Quality

# Information

- Most information and brochures in Chinese.
- Advertise other events for LCSD sites at sports centre in both English and Chinese.

## Quality

## Barrier

- Harbour view is obstructed at ground-level.
- Remove fence blocking waterfront from sports centre.
- Use windows in building for viewing points.

## Connectivity

# Food Kiosk

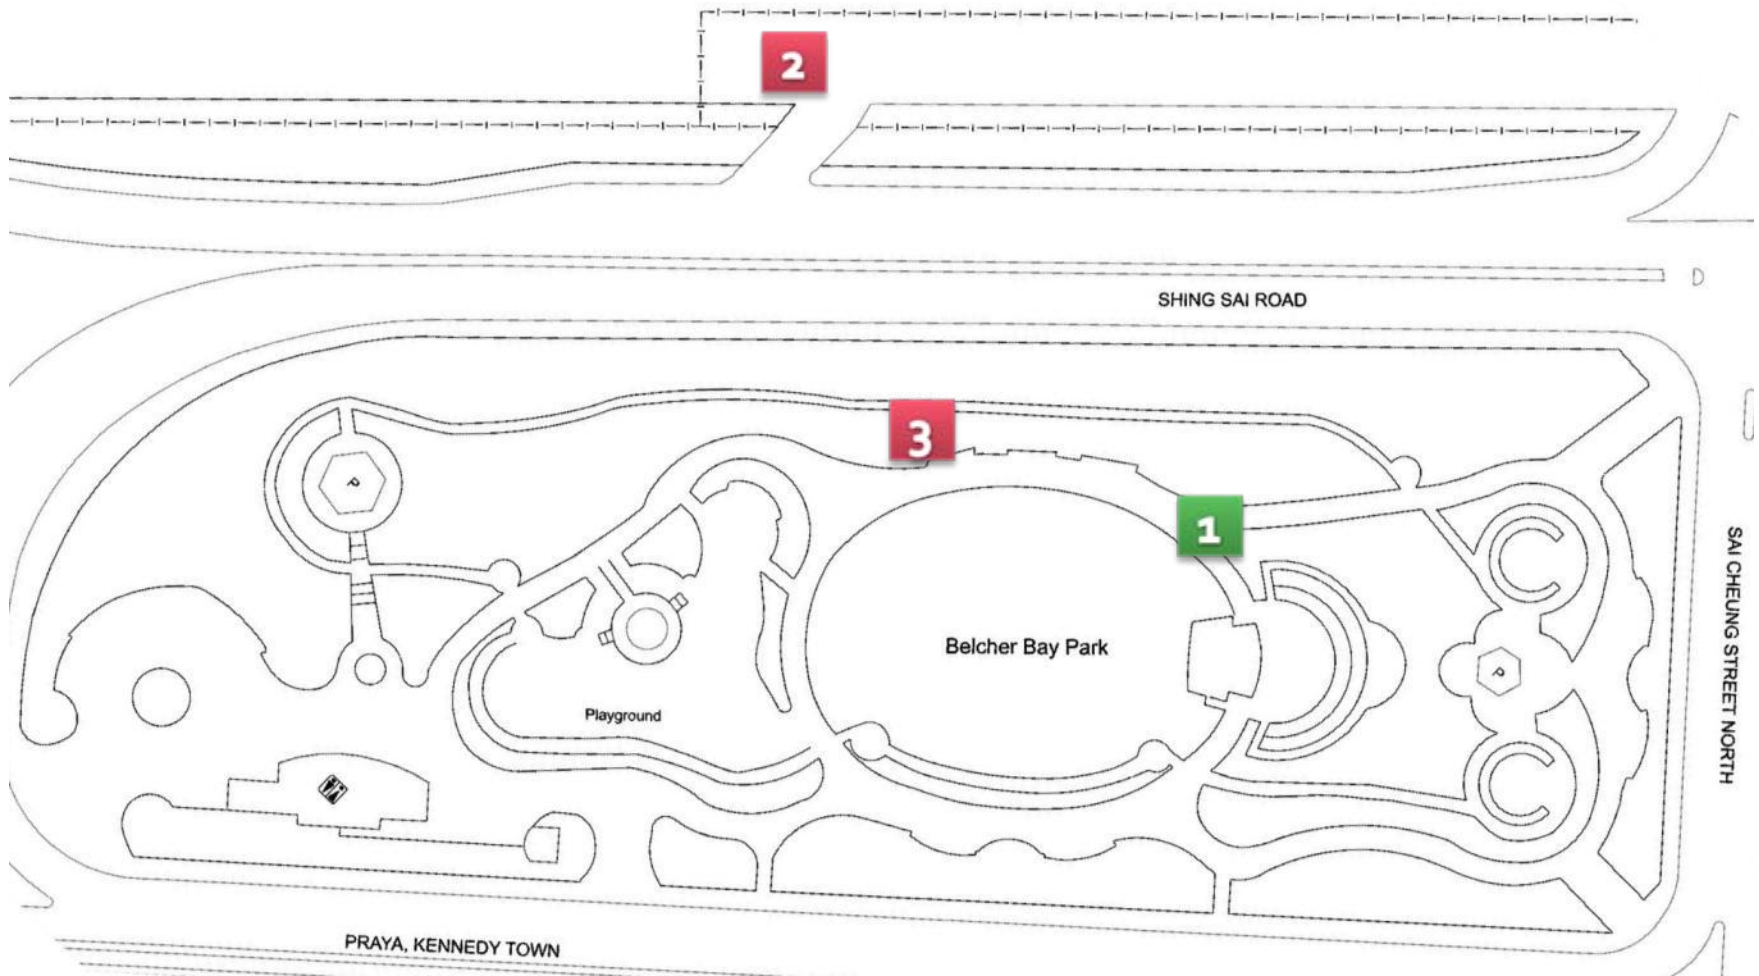

- Food kiosk on the third floor.
- Add signs to the kiosk.
- Advertise the kiosk at the ground level and within Sun Yat Sen Memorial Park.

# 24 - Belcher Bay Park

Western District Public Cargo Working Area

## Design/Maintenance

# Landscape

- Landscape and nautical theme increase aesthetic appeal.

## Connectivity

# Public dock area

- Public dock area located across the street from north end of park.
- People use area for biking, fishing, walking.
- Connect dock area to park through bike path or walkway and directional signage.

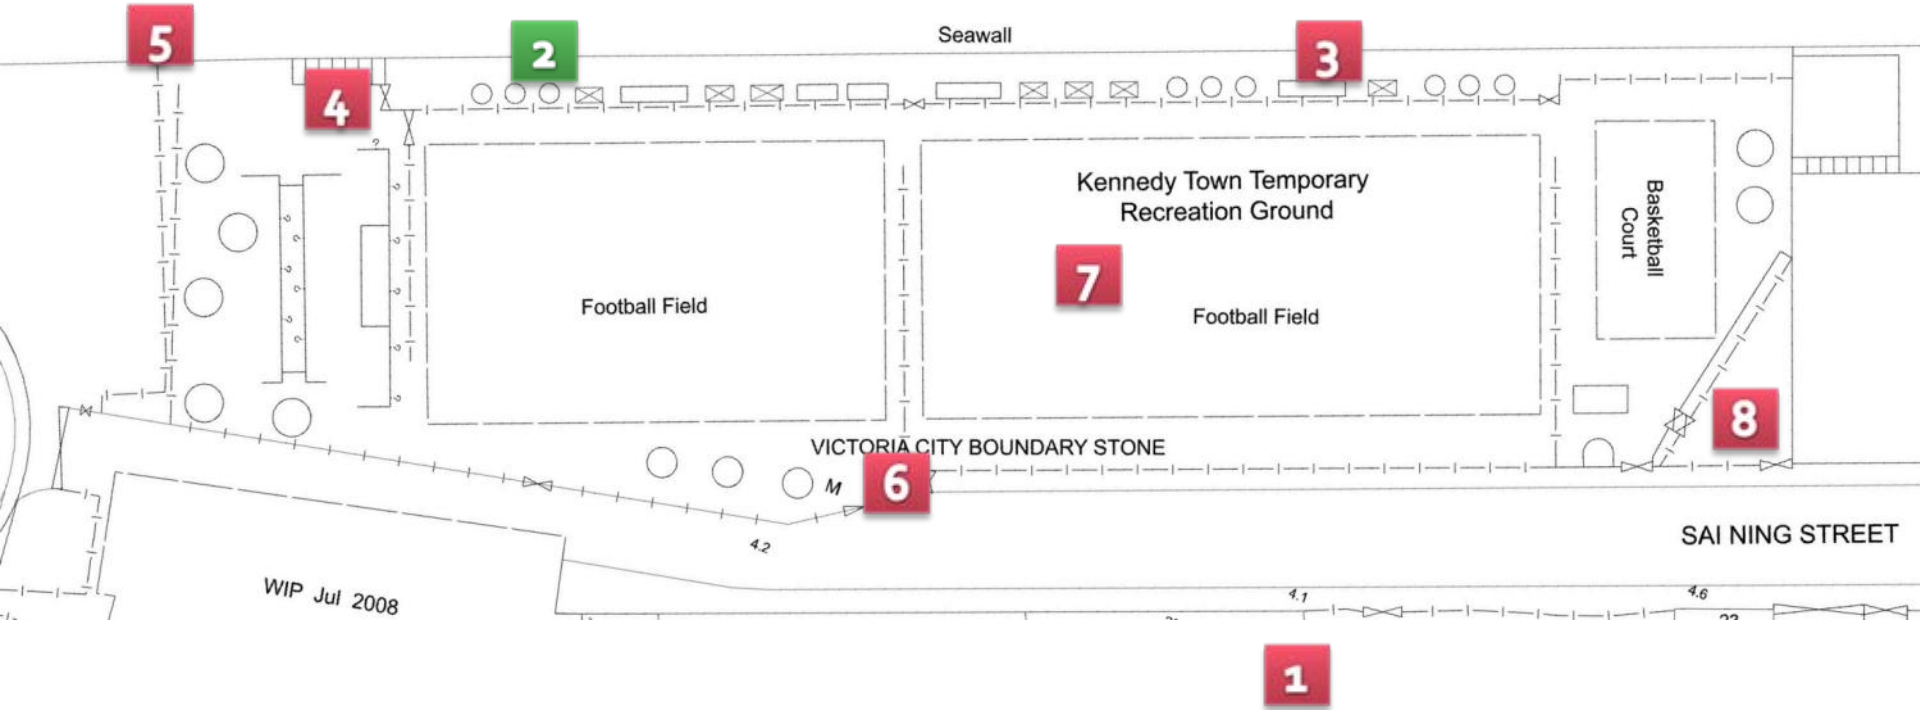

## Connectivity

- Secluded running path runs the north side of park.
- Create a trail from running path to main path in park to increase connectivity within site.

# Paths in park

# 25 - Kennedy Town Temporary Recreation Ground

## Accessibility

# Add Signage

- Hard to find.
- Add signs from Bus terminus.

# Promenade

## Quality

- Unobstructed view of water and Green Islands.
- Part of promenade is being renovated.

## Quality

# Covered Benches

- Benches covered with arbours and greenery.
- Replace benches with double-sided ones to view either soccer or water.

## Design/Maintenance

# Maintenance

- Flooring, some cracked concrete, and paint maintenance needed.

## Connectivity

## Continue Promenade

- Continue promenade.

## Design/Maintenance

# Perimeter of grounds

- Recreation ground is located in an industrial area.
- Add trees along the back to block from road and add greenery.

## Design/Maintenance

# Soccer Pitch

- Add colour to grounds by painting the concrete soccer pitch.

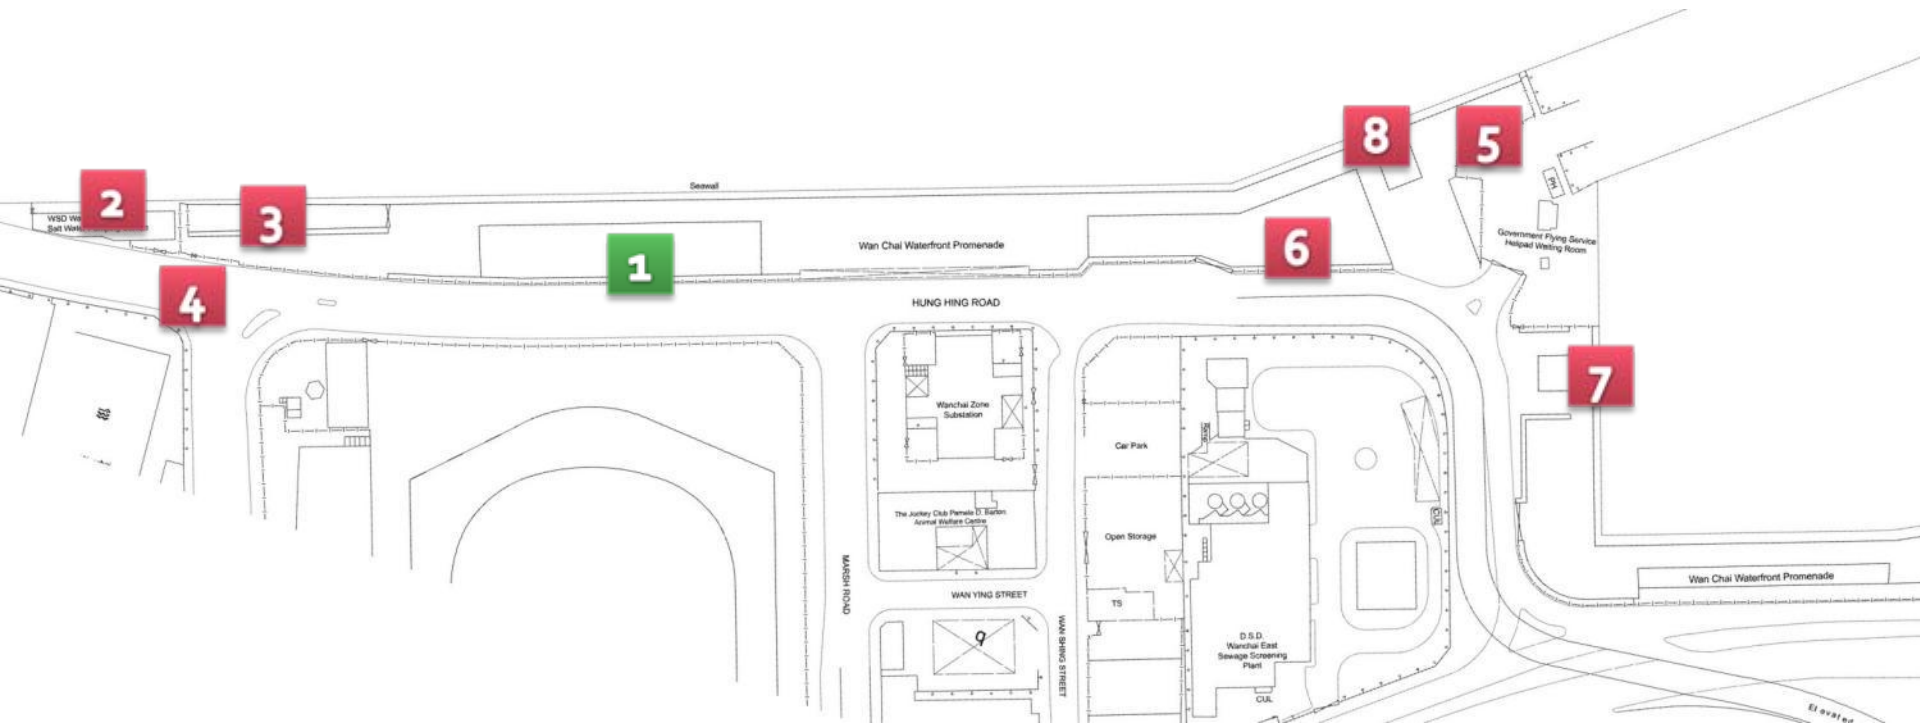

## Quality

## Shed &amp; Changing Room

- Extra benches and trash bins are stored behind east fence.
- Make a shed that serves as storage and permanent changing room/toilets.

# 15 - Wan Chai Waterfront Promenade

## Quality

- One of few parks where dogs are allowed—known as a “dog-park” to residents.
- Keep open grass areas.

# Open Grass Area—Dogs Allowed

## Accessibility

- Route to promenade from hinterland: narrow, unclear.
- Add signage directing visitors to site.

Wan Chai Waterfront Promenade

# Site Signs

## Connectivity

- Site sign not located at all entrances.
- Text of site name is hard to see.
- Place a standard LCSD site sign at all entrances.

## Design/Maintenance

## Maintenance of Entrance

- Remove chain-link fence.
- Plant trees along outside of chain-link fence.
- Replant flowers on brick.

## Design/Maintenance

# White Fence

- White fence with barbed wire on the top separates helicopter pad from park.
- Remove fence.

## Quality

- Park located adjacent to busy road.
- Plant trees along outer perimeter of park to block noise, add shaded seating.

## Landscape

# Amenities

## Quality

- Fence along waterfront does not appear sturdy—signs say “do not lean.”
- Replace fence with a see-through, glass barrier.

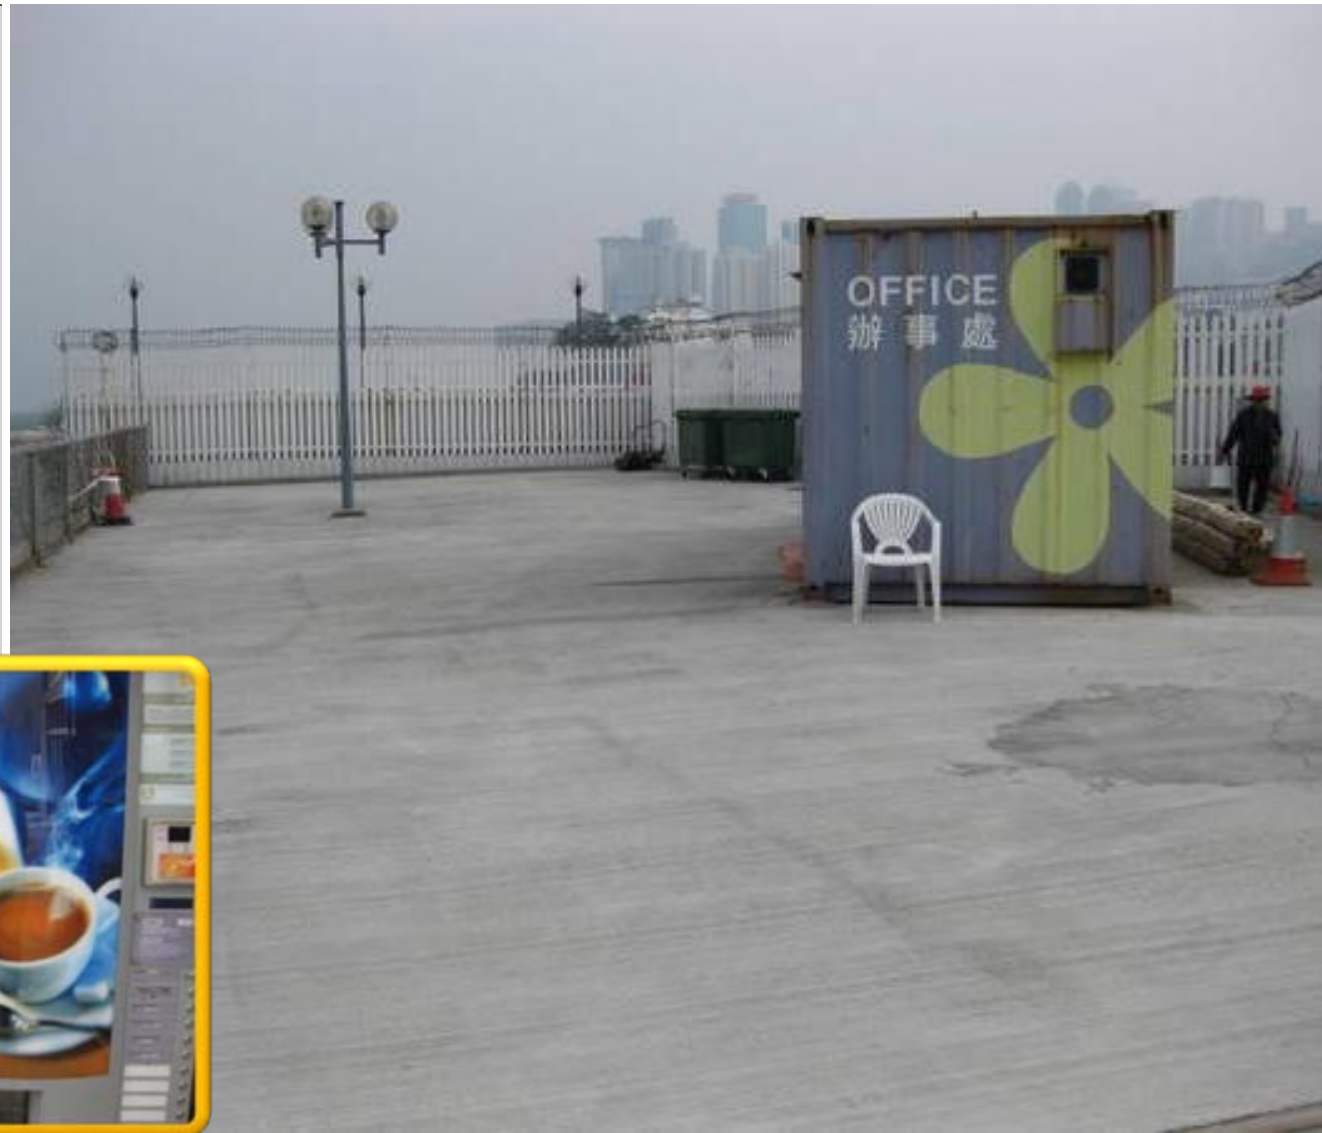

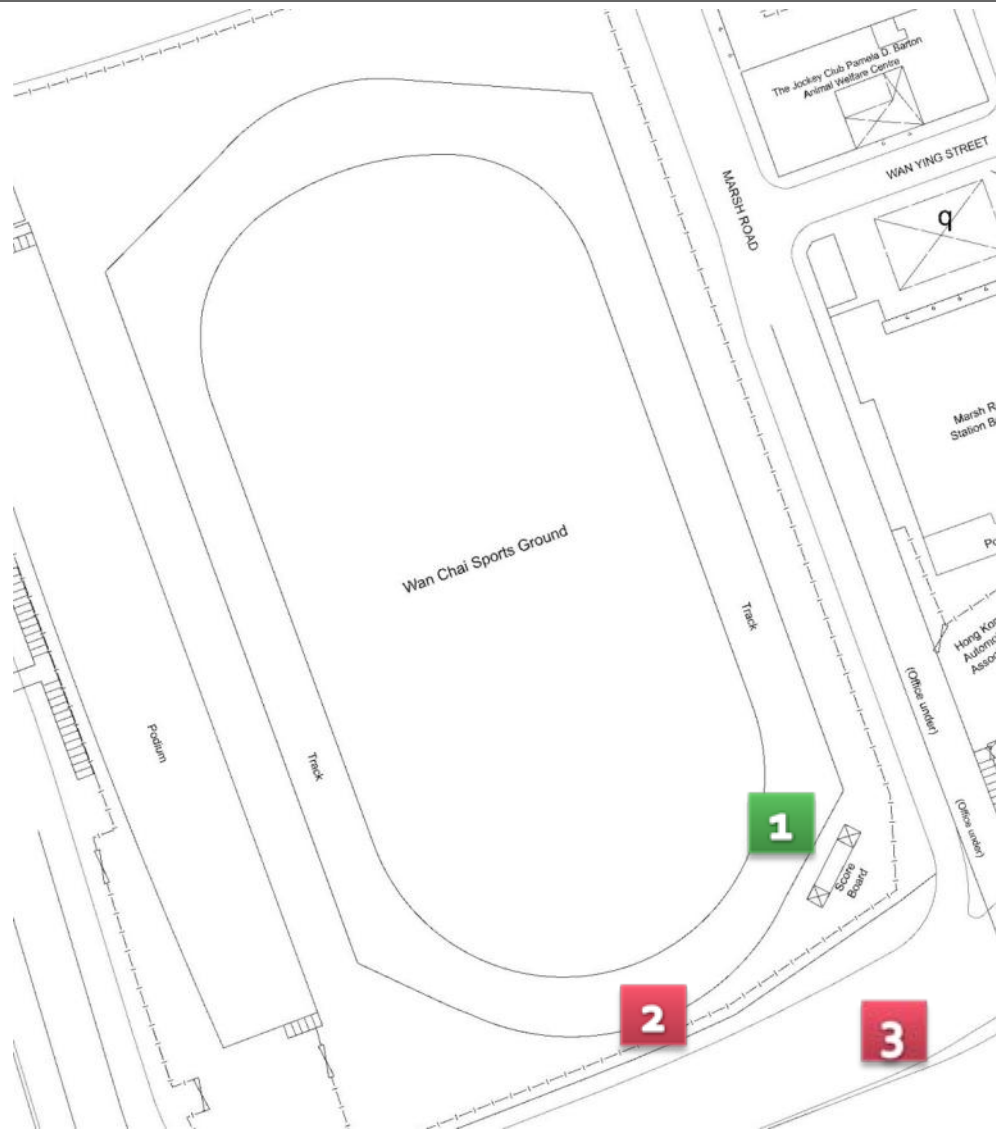

## Quality

## Dispenser Machines/Toilet

- Remove temporary office and utilize space for dispenser machines and permanent bathrooms.

# 16 - Wan Chai Sports Ground

## Quality

# Well-Maintained

- Used by school track events where up to 1,000 kids visit premise.
- Facility is colourful and well-maintained.

# Harbour View

## Quality

- Construct seating and food-kiosks on the harbour-front side of sports ground.
- Continue the stands around the harbour perimeter of the building as a raised viewing platform.

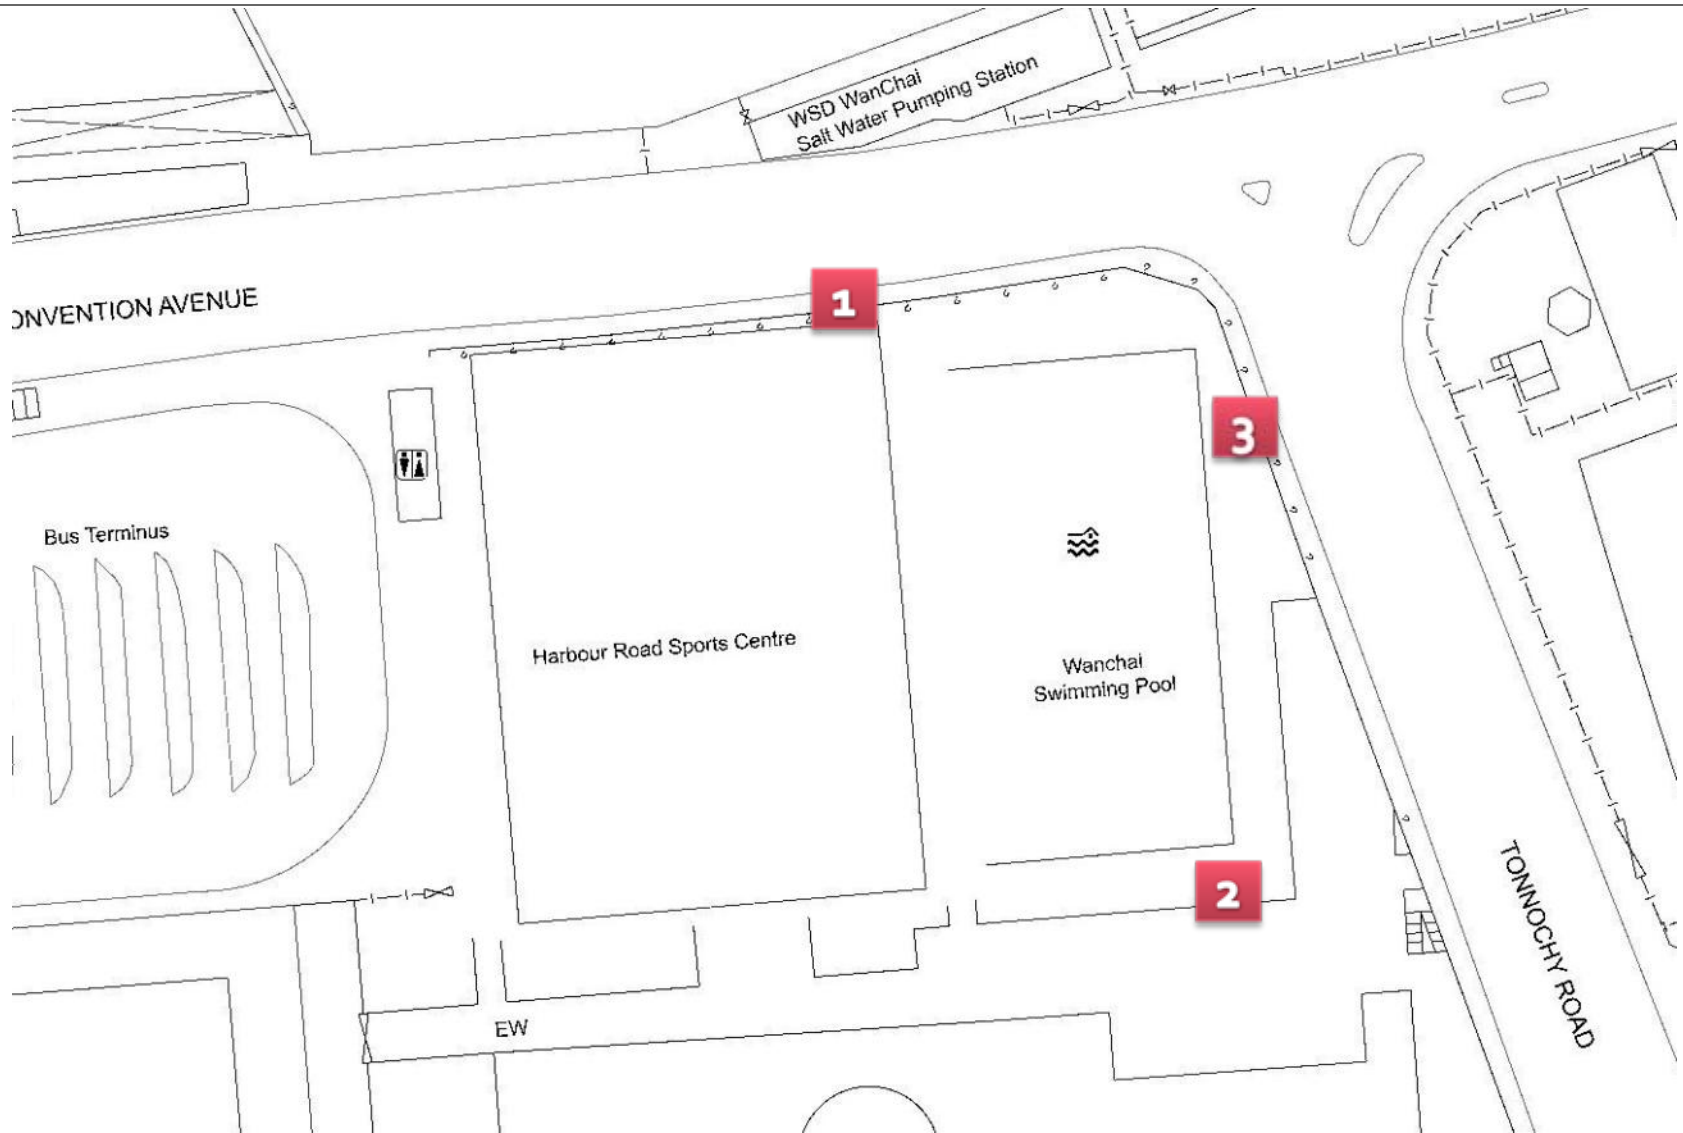

## Accessibility

# Signs to site

- Fence surrounds perimeter and centre has one grade-level entrance.
- Add signs on sidewalks directing visitor towards entrance.

# 17 - Wan Chai Swimming Pool

# Signage

## Connectivity

- Difficult to find entrance.
- Mark entrance with LCSD sign.

## Connectivity

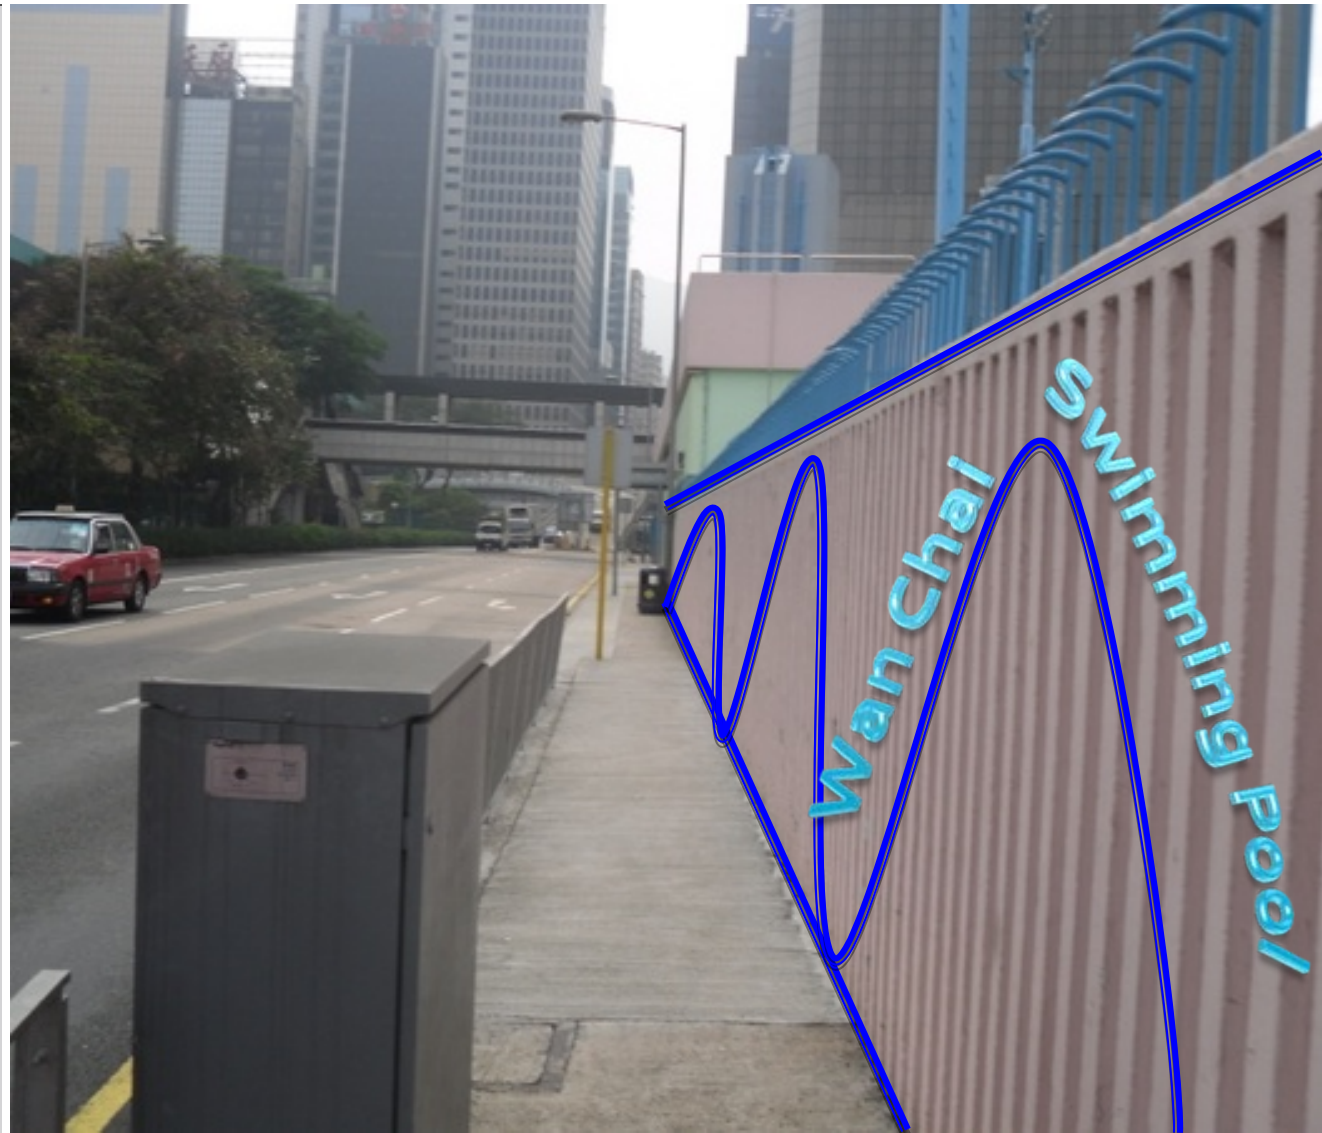

- Located near Wan Chai Sports Ground , Harbour Road Sports Centre, and promenades.
- Passage to nearby LCSD sites and waterfront is not clear.
- Add signage.

# Wan Chai Swimming Pool

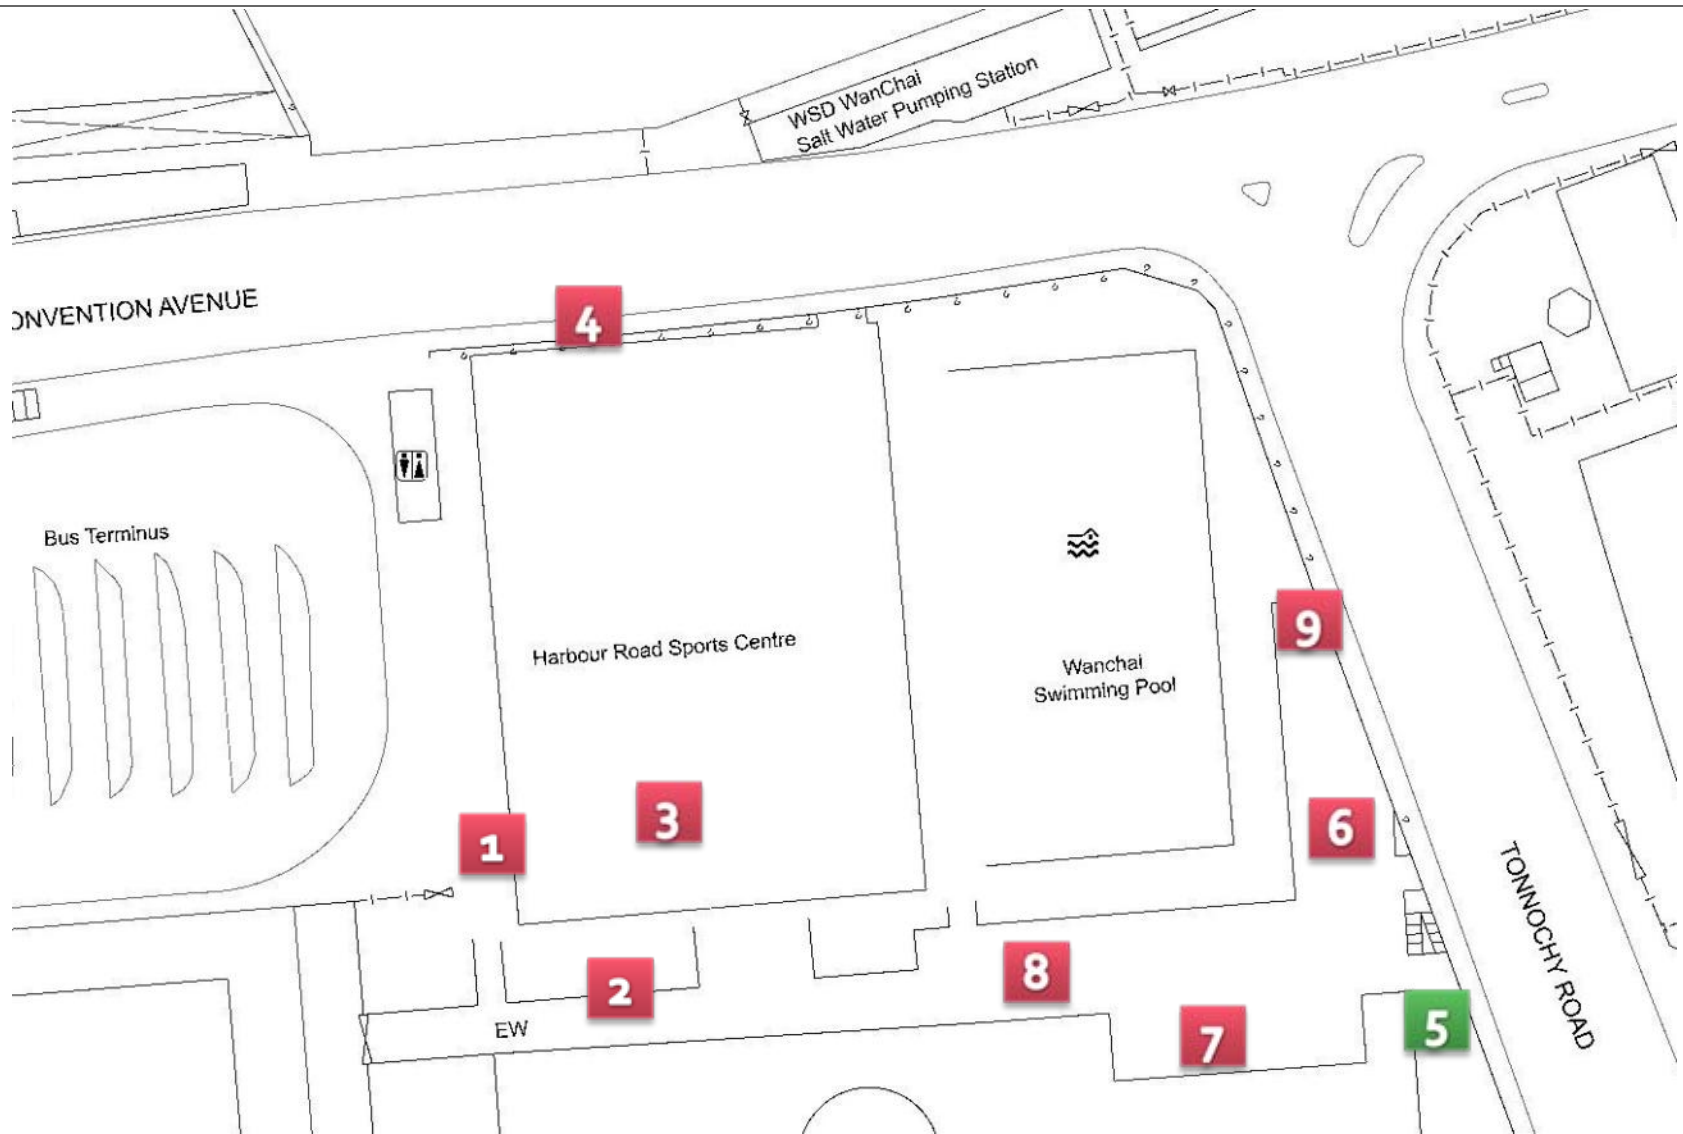

## Design/Maintenance

- Walls between pool and sidewalk are uninviting.
- Repaint walls, with murals and signs.

# 18 - Harbour Road Sports Centre

## Connectivity

- Entrances hard to find.
- Add signs around perimeter of building towards entrance.
- Add more visible site signs at entrances.

## Quality

# Information

- Signs publicizing activities are hung on fence.
- Publish these signs in both English and Chinese.

## Quality

## Scheduling Machine

- Add a Leisure Link Self-service Kiosk.

## Design/Maintenance

# Repaint

- Pink wall along perimeter of building has no signs and is uninviting.
- Replace fence with one similar to the other side of the centre.

## Connectivity

- A viewing platform connects to shopping plaza and Harbour Rd. Sports Centre.

## Viewing Platform

## Quality

## Harbour view &amp; seating

- Overlooks Victoria Harbour.
- Orient benches towards harbour-front.

## Quality

# Food & Seating

- Children using sports ground eat here.
- Allow temporary food-kiosks.
- Replace stair area with shaded benches and tables.

# Landscape

## Design/Maintenance

- Platform attracts visitors from shopping plaza.
- Add trees and greenery for both shade and aesthetic appeal.

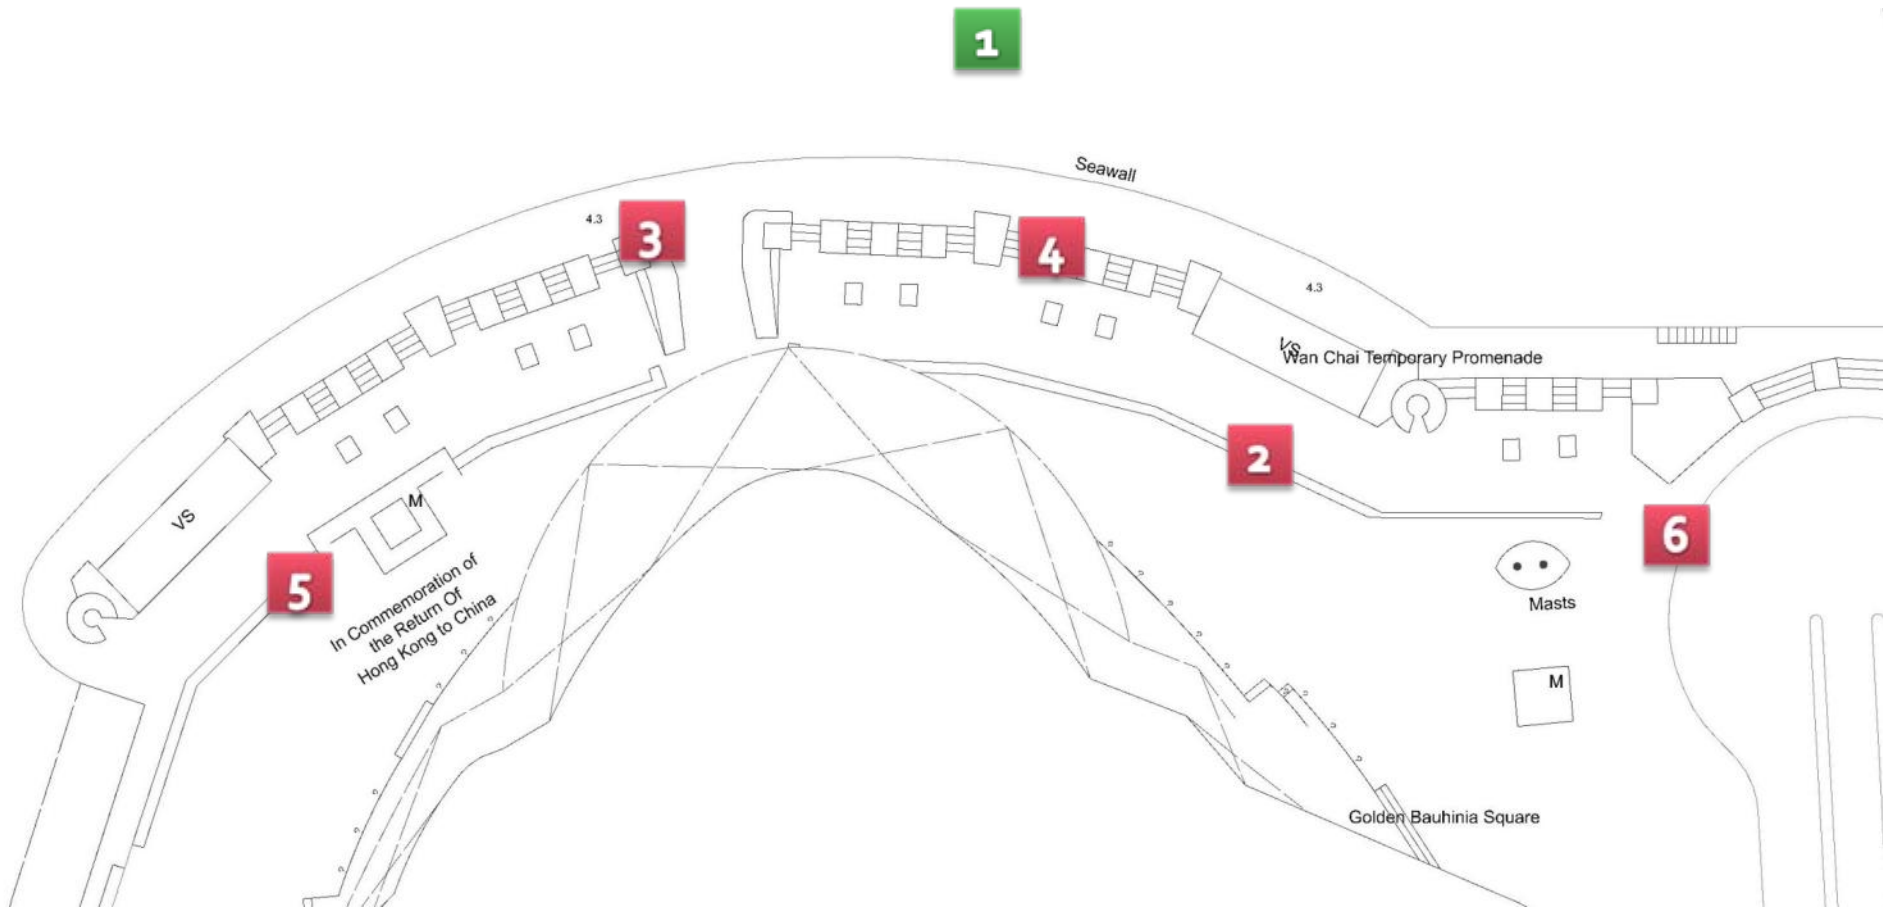

# Pipe

## Design/Maintenance

- Remove pipe at edge of platform.

# 19 - Wan Chai Temporary Promenade

## Quality

# Harbour View

- Unobstructed view of TST from edge of promenade.
- Promote this feature as a tourist attraction.

## Quality

# Waterfront Dining

- Allow eateries to have outdoor seating along the promenade and park area.
- Exclude celebration days from seating licensing.

## Quality

# Outdoor Performances

- Promenade located directly outside Hong Kong Convention & Exhibition Centre.
- Allow outdoor performances on promenade area outside of centre.

## Quality

## Sheltered seating

- Sheltered sitting areas block harbour-view and need maintenance.
- Remove sitting-areas and replaces with shaded benches, picnic tables or food-kiosk.

# Landscape

## Accessibility

- Concrete and lack of greenery detract from aesthetic appeal.
- Replace concrete ground with brick and add trees and flowers for colour.

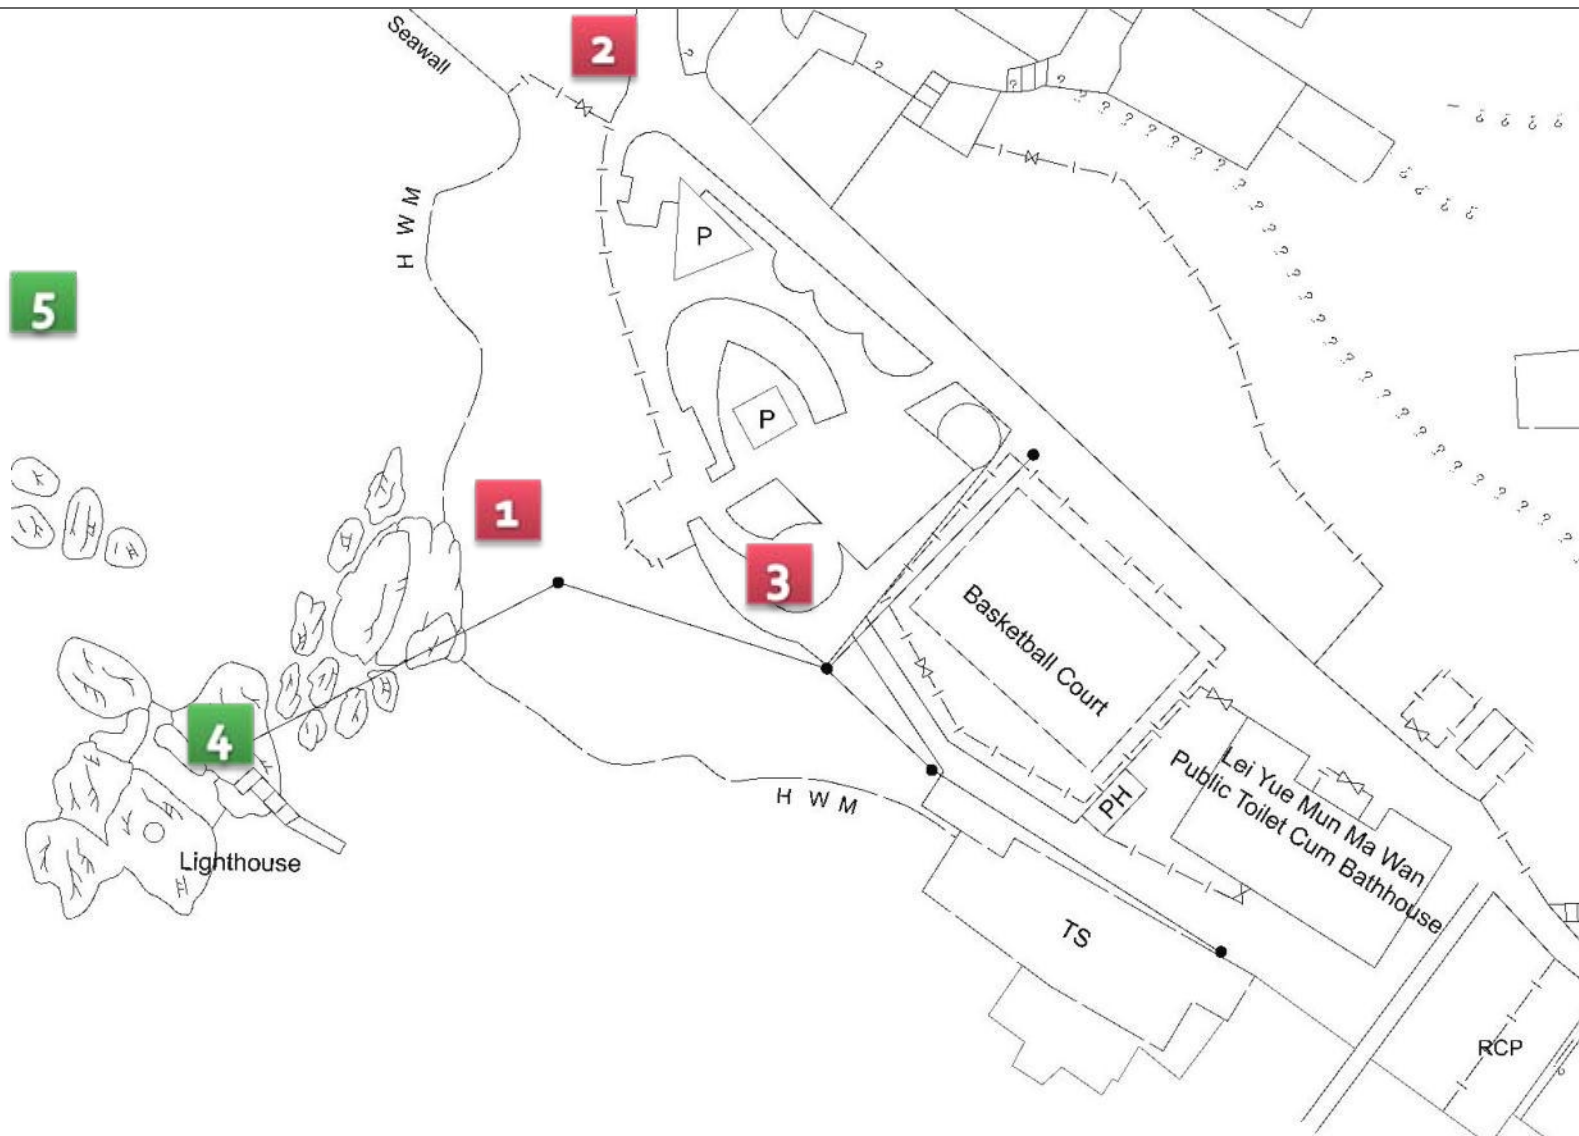

## Connectivity

# Connect to nearby promenade

- Wan Chai Waterfront Promenade located within walking distance.
- Connect promenades with a bike path or waterfront walk.
- Add signs directing visitors to and from promenades.

# 48 - Lei Yue Mun Rest Garden

## Design/Maintenance

## Litter on Shore

- People observed walking over trash to lighthouse.
- Remove the broken bottles and litter from the beach.

## Connectivity

# Difficult to Find

- Difficult to find Rest Garden from Waterfront Sitting-Out Area.
- Add signage in the residential area between these two sites.

## Quality

## Make Playground Bigger

- Mother at playground suggested more playground equipment for neighborhood children.
- Add more playground equipment
- Extend playground boundary across footpath.

## Quality

# Light House

- Harbour view from lighthouse.
- Popular attraction for visitors; people seen climbing to lighthouse.

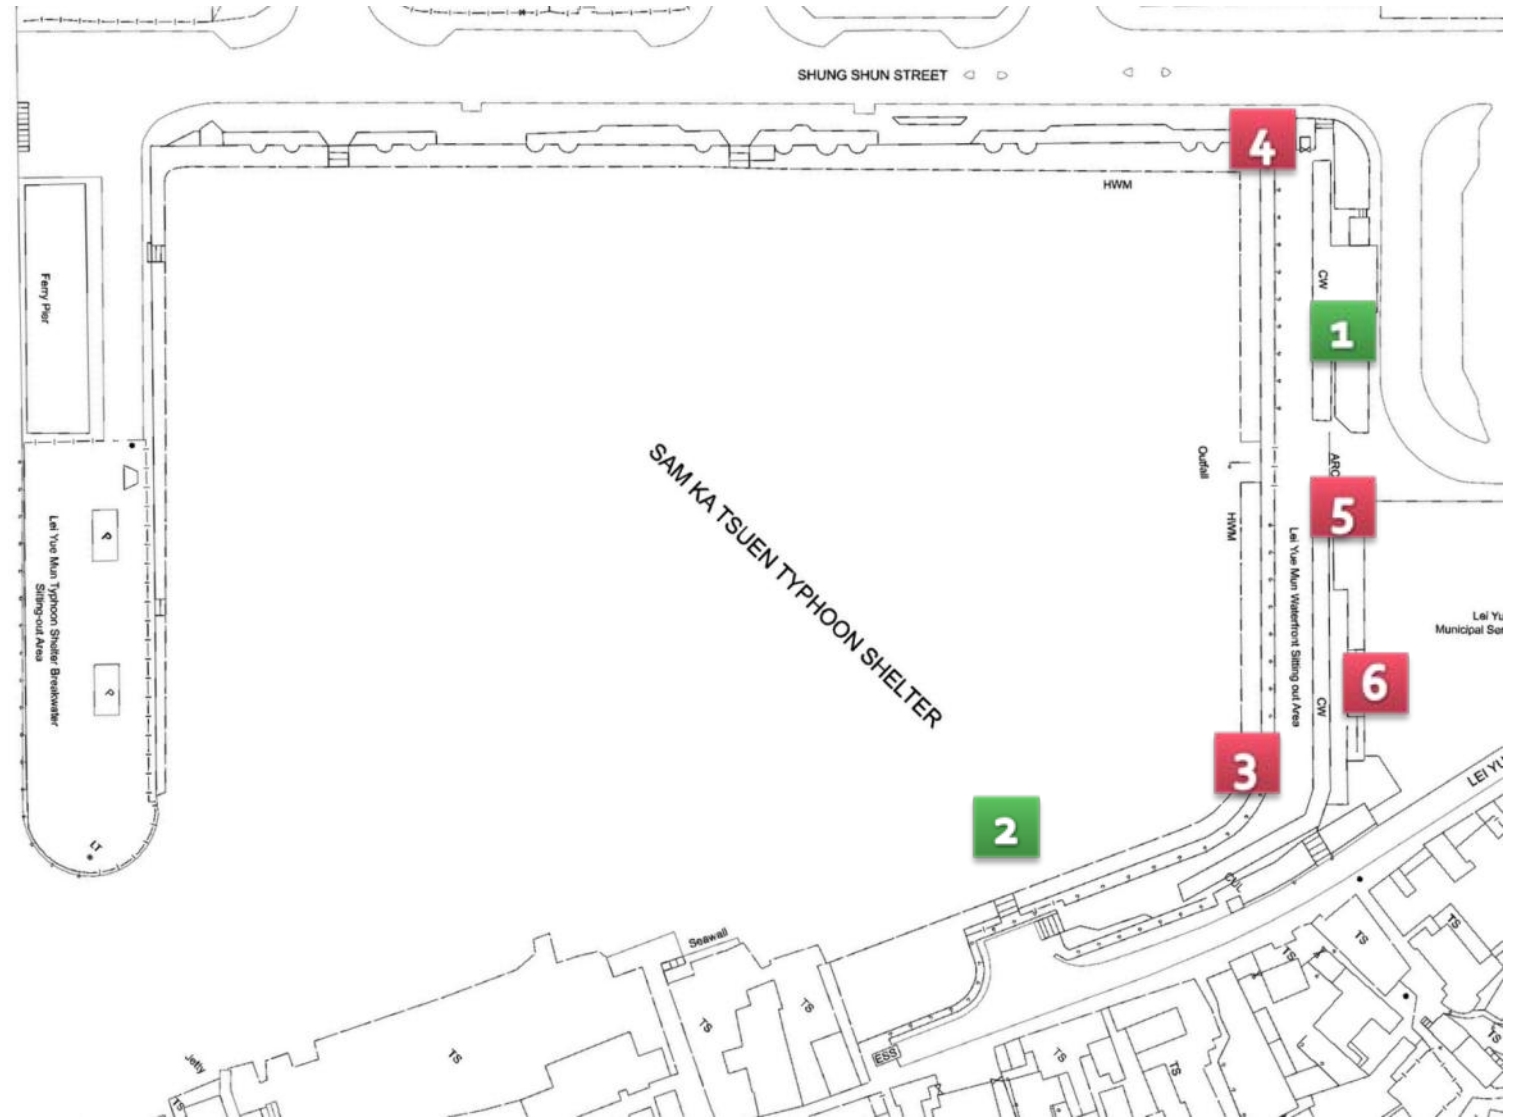

## Quality

# Harbour Views

- Vistas from the inside of the rest garden and on the beach provide views of eastern Hong Kong Island.

# 47 - Lei Yue Mun Waterfront Sitting-Out Area

## Design/Maintenance

- Walkway and plants were very well maintained.

## Quality

## Steps to Water

- The steps to water allow people to access their boats and fish without climbing over the fences.

## Connectivity

- Fishermen seen climbing over fence to fish.
- Create a few openings throughout the fence allowing people to access the rocks.

# Openings in Fence

## Site Map

## Connectivity

- Create an official map located at the entrance of the site that marks the sitting-out area, Lei Yue Mun Sports Centre and Lei Yue Mun Rest Garden, and the Lei Yue Mun Typhoon Shelter Breakwater Sitting-Out Area.

## Quality

## Glass Roof on Benches

- Roof lets sun through, heating up the benches underneath.
- Replace roof with wood, metal, or a material that provides true shade.

## Quality

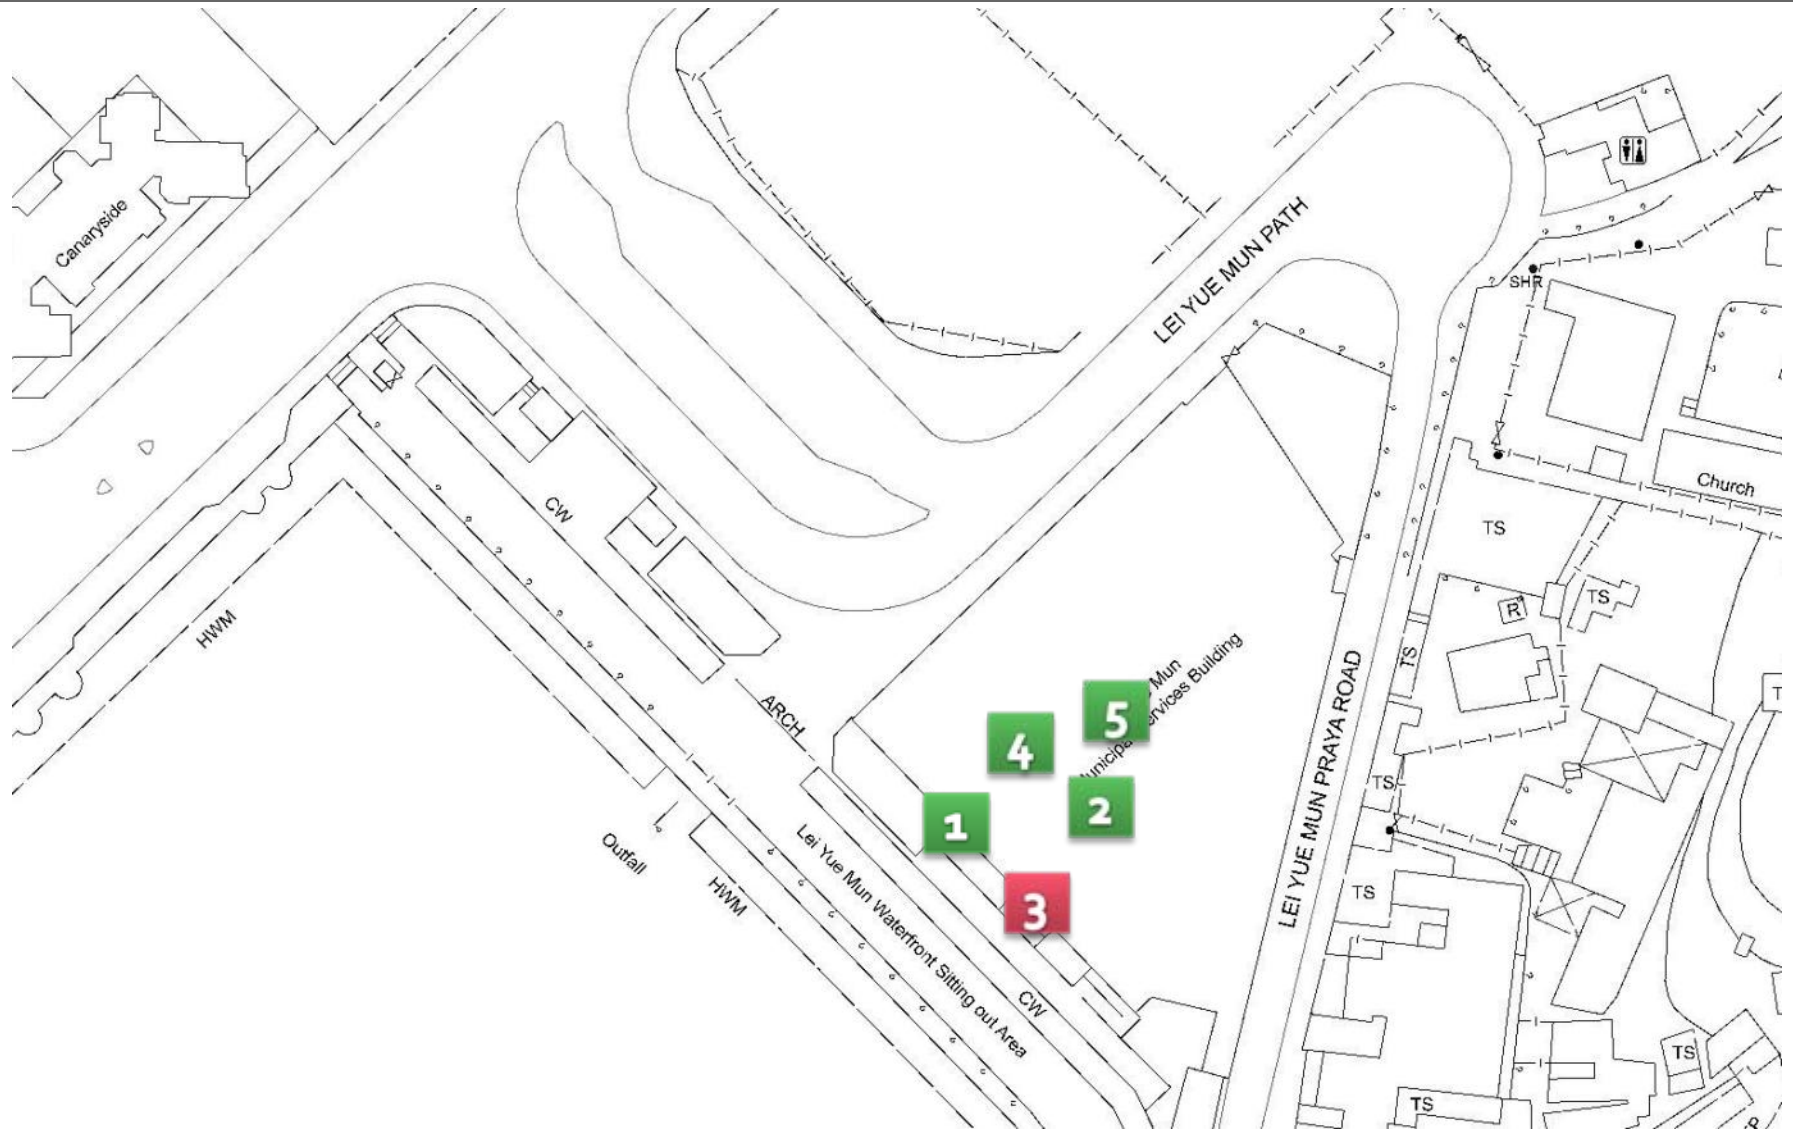

## Tables in Sitting-Out Area

- Add tables in front of Sports Centre to allow for people to eat, socialize, and play table games.

# 46 - Lei Yue Mun Sports Centre

## Quality

# Windows

- Large windows with automated shades provide great harbour views.
- Act as a way to solar heat or cool the facility.

## Quality

- Suggestion box is unique to this site.
- Provides way for users to give the LCSD feedback on all aspects of the facility.

## Suggestion Box

## Connectivity

## Site Labeling

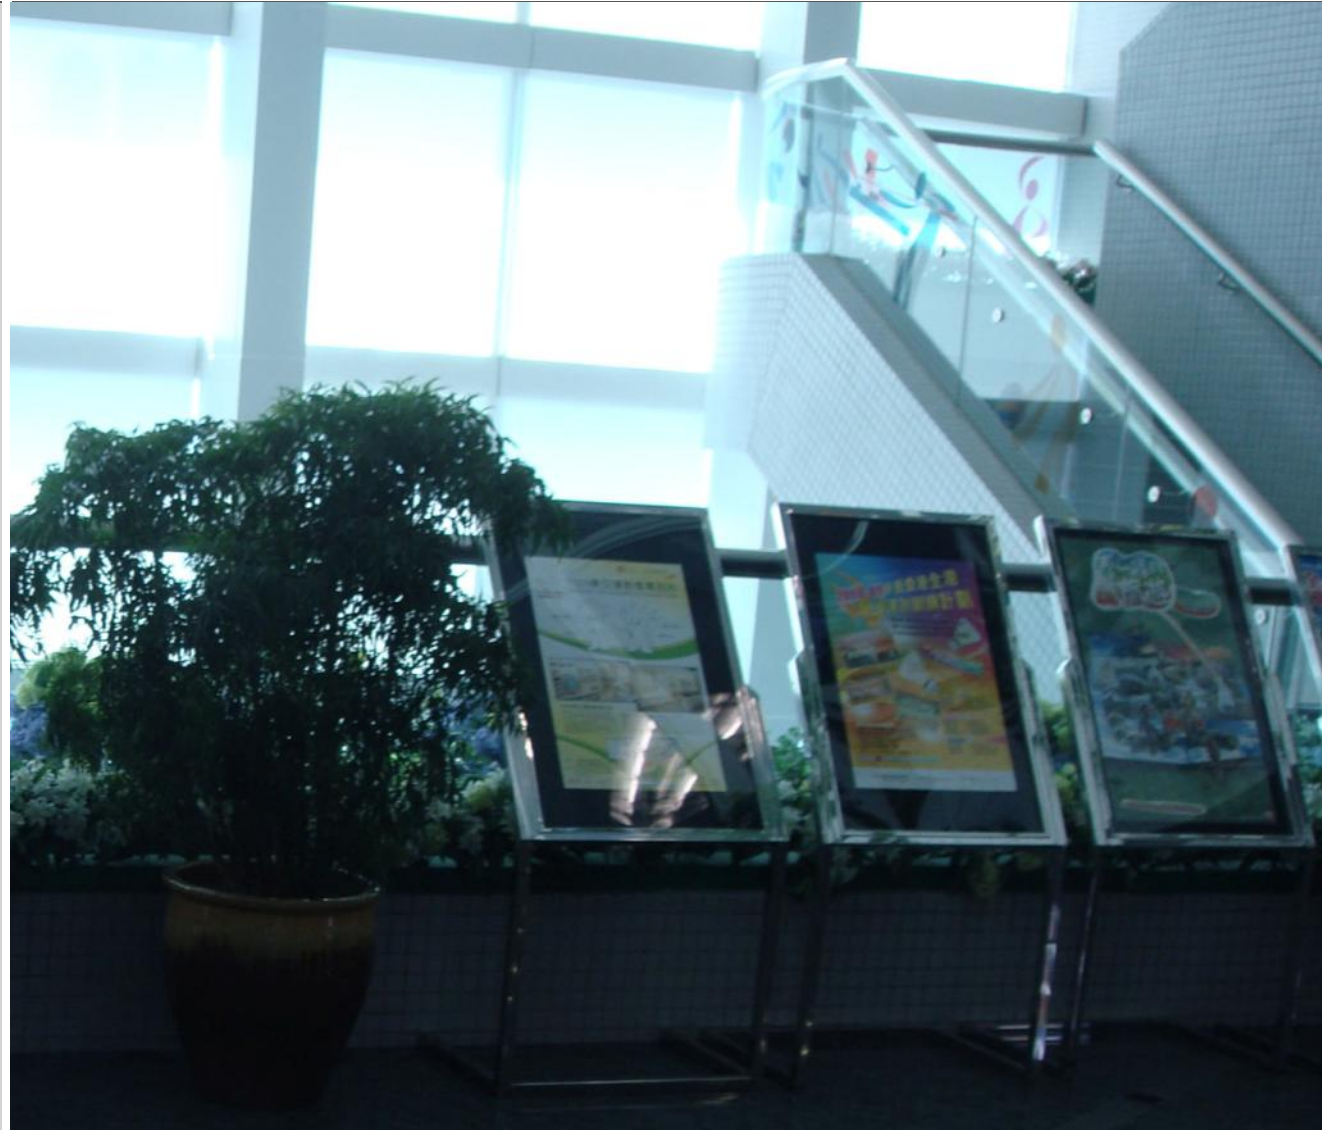

- Put site name on side of building.
- Only Public Library is labeled on waterfront side of the building.

## Quality

# Advertising for LCSD Venues

- Framed posters and pamphlets were available in the lobby and on the second floor.
- Allow public to see what are the upcoming cultural and athletic attractions.

## Design/Maintenance

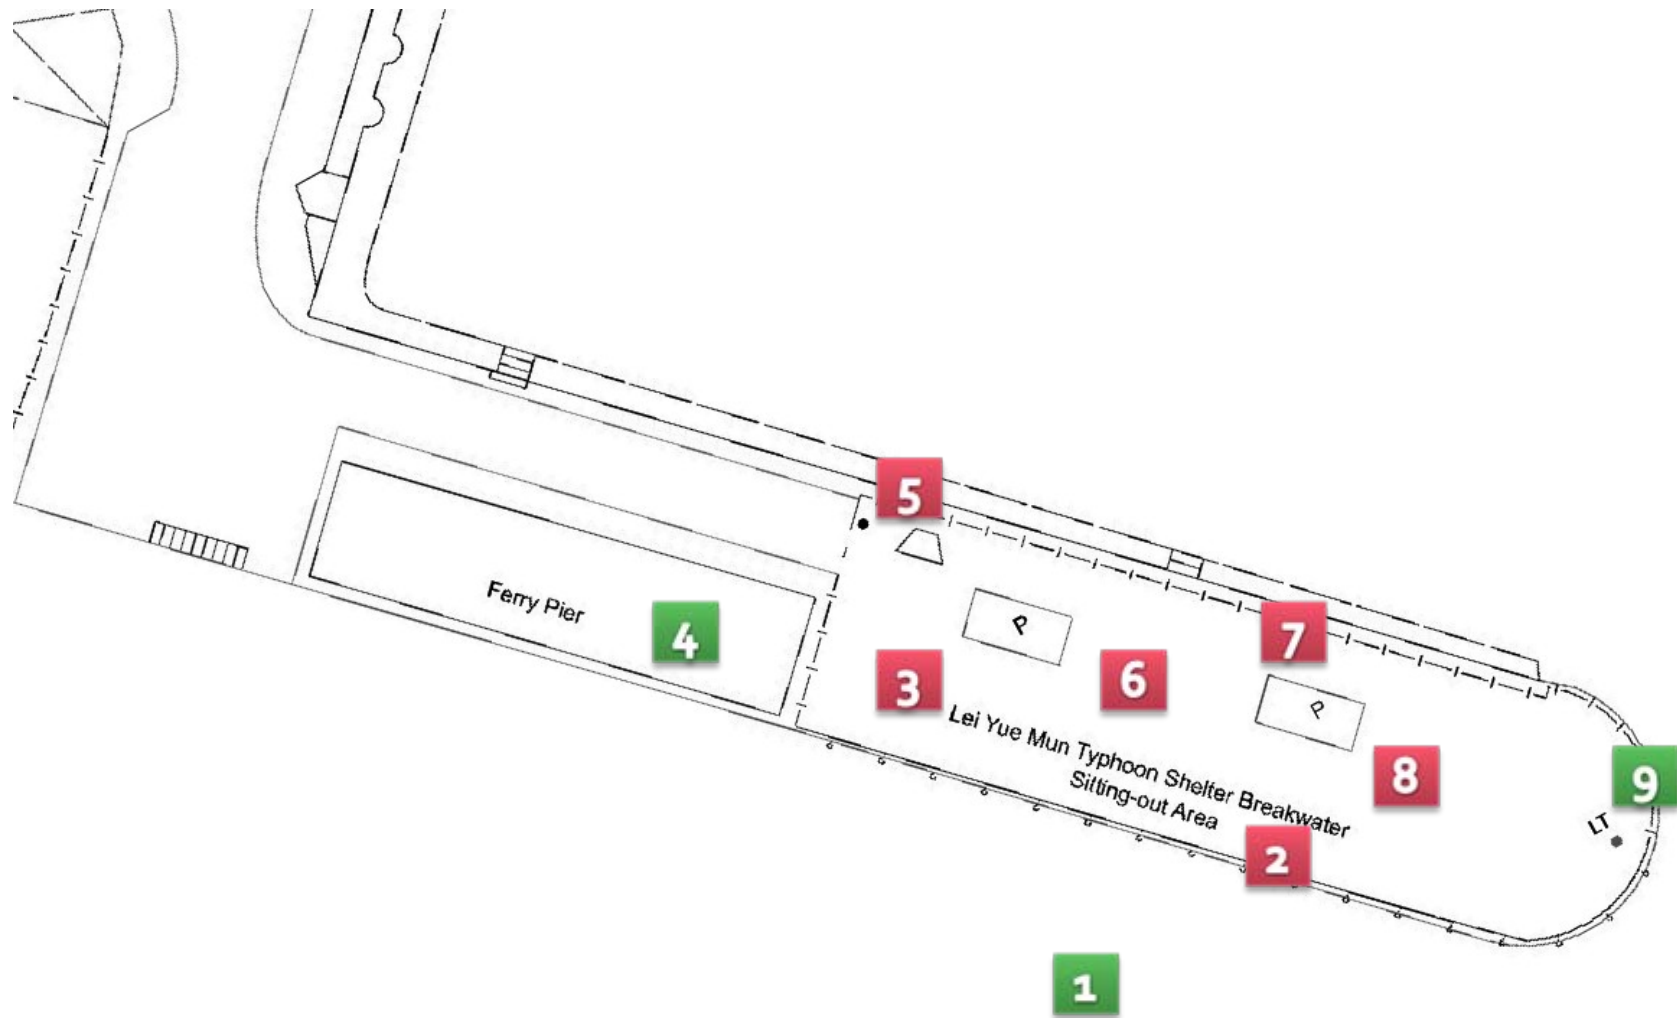

# LCSD Logo and Greenery

- The lobby has plants along the windows that provide colour .
- The LCSD logo playing sports was unique and inviting.

# 45 - Lei Yue Mun Typhoon Shelter Breakwater Sitting-Out Area

## Quality

- Unique views of Lei Yue Mun fishing village and boats in typhoon shelter.

## Quality

## Green Wall

- Green wall obstructs view of harbour.
- Remove green wall and build a promenade fence or build a platform allowing visitors to see over the wall.

# Plants

## Design/Maintenance

- Replace dead plants.

# Ferry Pier

## Accessibility

- Adjacent ferry pier allows for easy access to site from ferry.
- Bus stop is nearby

## Site Name

## Connectivity

- Shorten the name of site.
- Lei Yue Mun Breakwater Sitting-Out Area.

## Design/Maintenance

# Repave Ground

- Replace cement ground with brick or colored tile.
- Make the same as the Lei Yue Mun Waterfront Sitting-Out Area.

## Quality

## Granite Benches

- Replace with wooden benches.

## Design/Maintenance

## Rubbish Bins

- Add a couple more rubbish bins.
- Add a recycle bin.

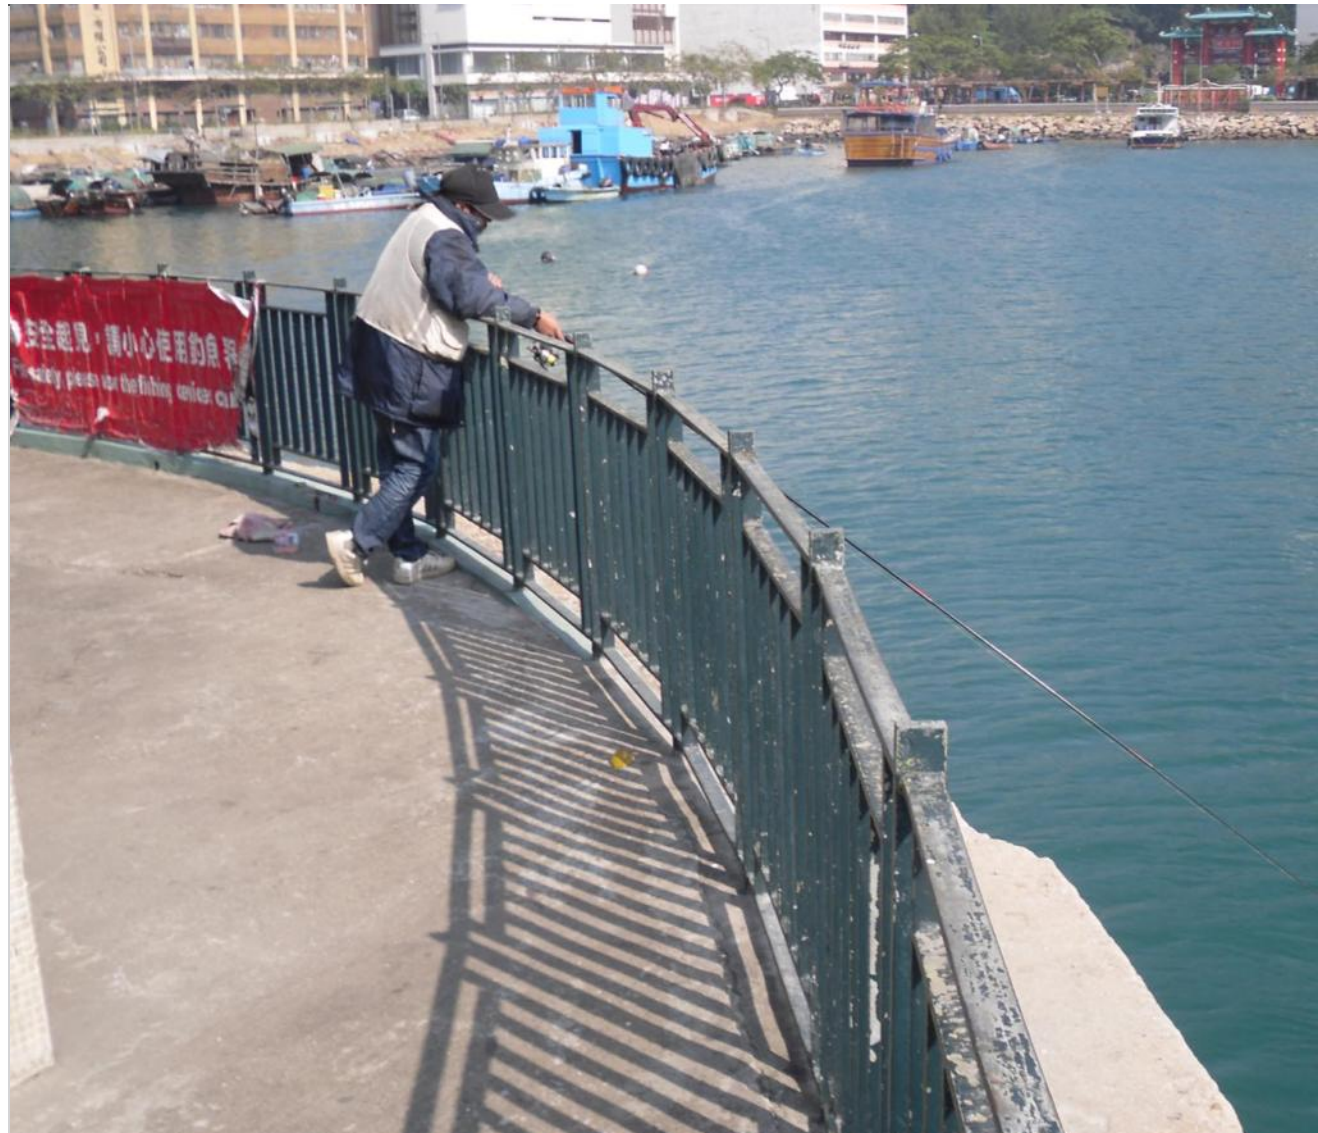

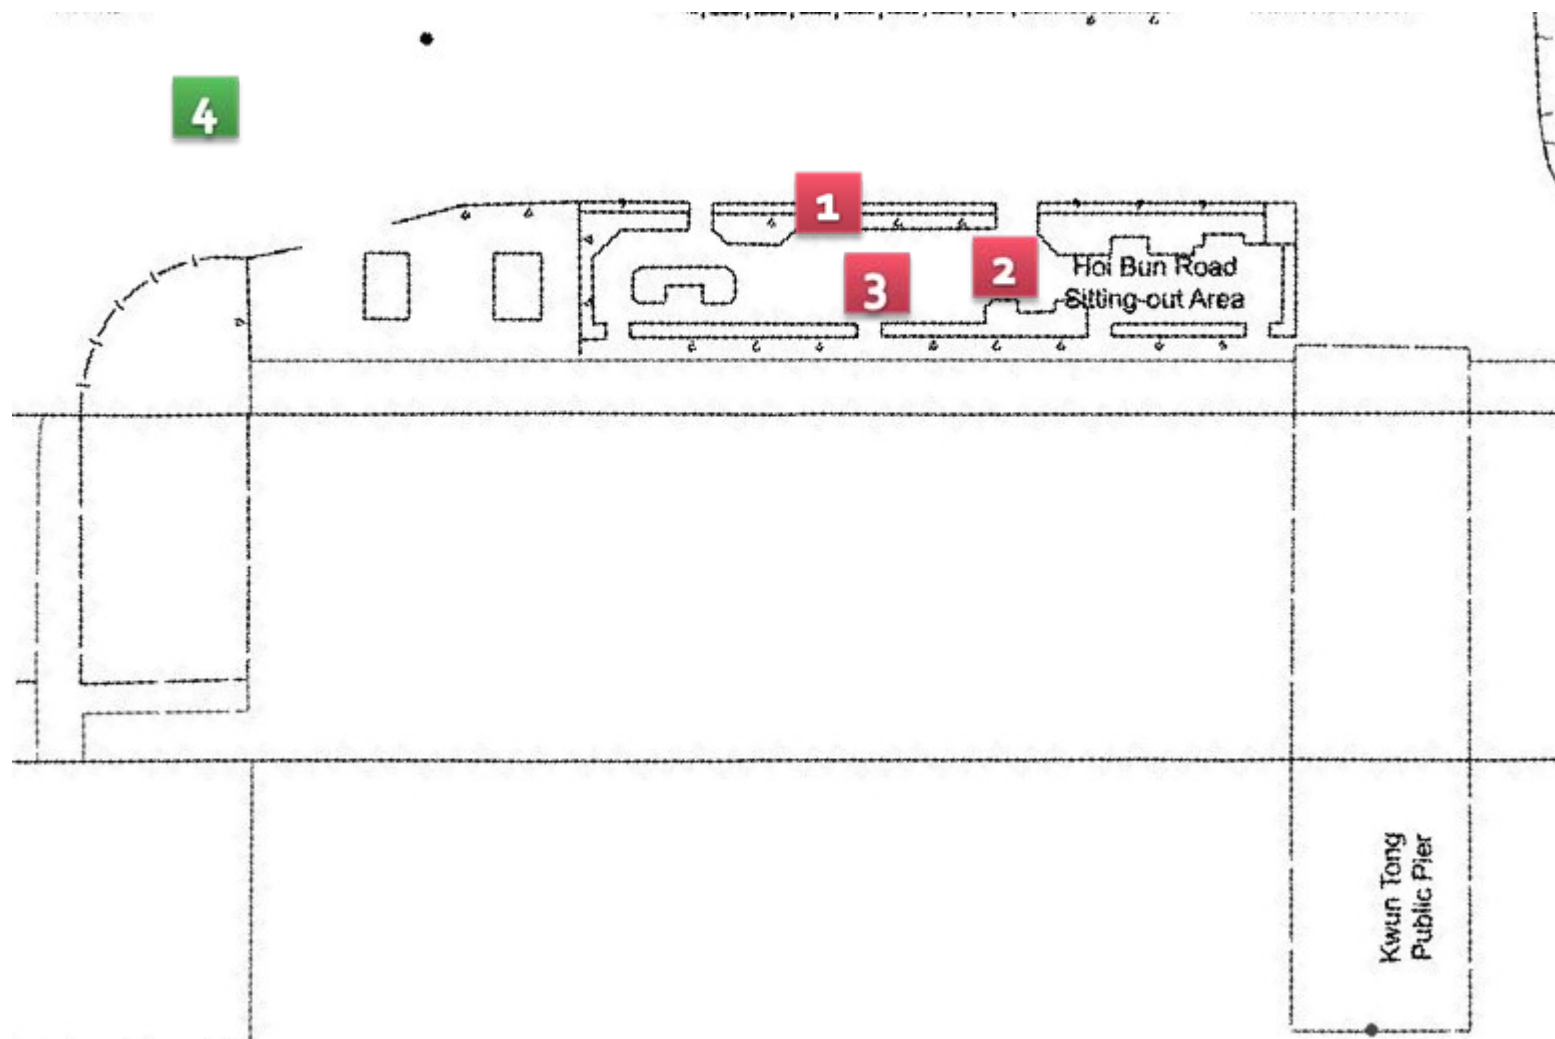

## Quality

## Fishing

- The site allows fishing which lets visitors fish carefully.

# 44 - Hoi Bun Road Sitting-out Area

## Quality

## Remove Wall

- Remove wall and relocate site sign.

## Design/Maintenance

## Repaint/Repave

- Change the colour scheme.
- Repave area behind waterfront fence.
- Replace railing.

## Quality

# Benches

- Orient the benches towards the water.

# Fishing

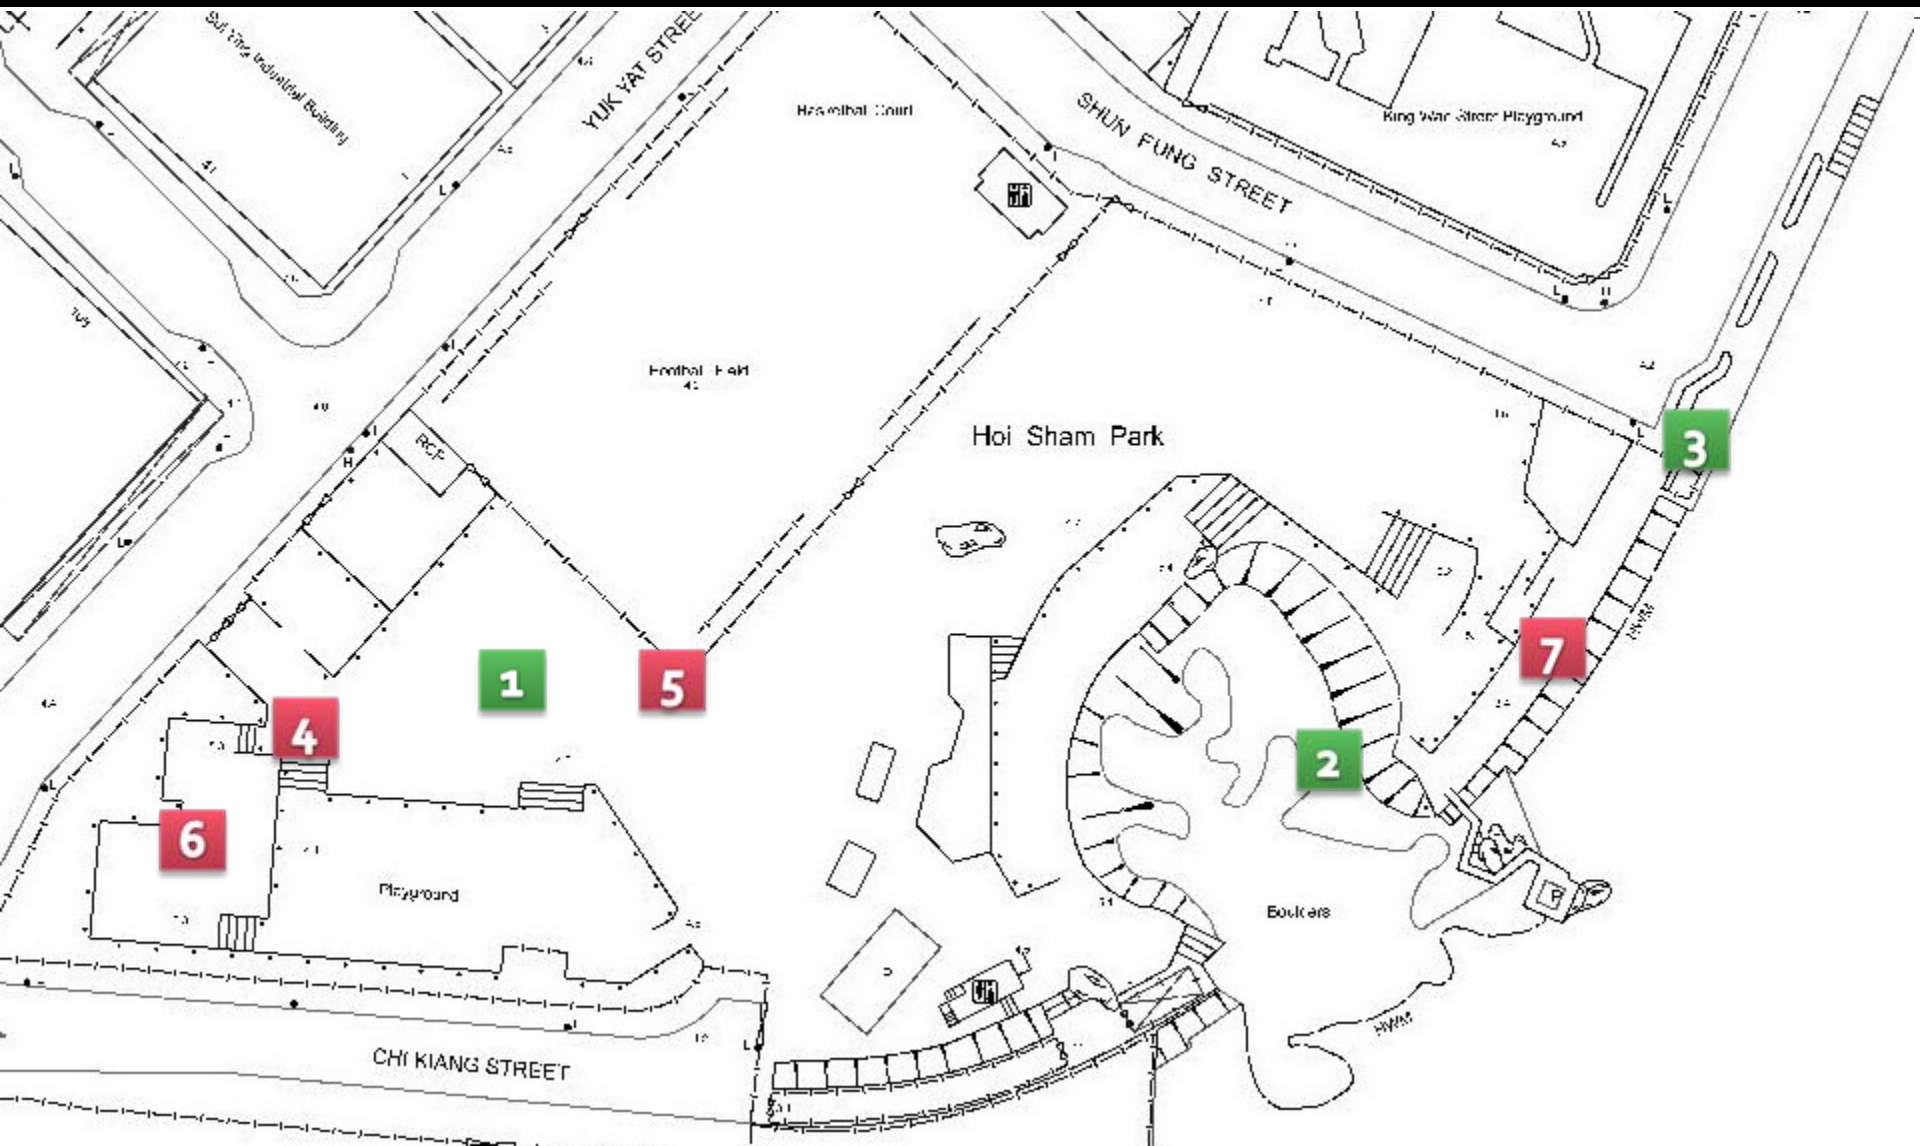

## Quality

- Located near a ferry pier and in an ideal fishing location.
- Observed people fishing from promenade sitting-out area.

# 43 - Hoi Sham Park

## Design/Maintenance

# Shaded Seating and Greenery

- The park contained a large amount of shaded seating that was constantly in use during time of visit.
- There was abundant greenery throughout the park.

## Quality

## Cultural Monuments

- Fishtail rock and the Pagoda are two monuments that are found in the park that are part of the site's history.

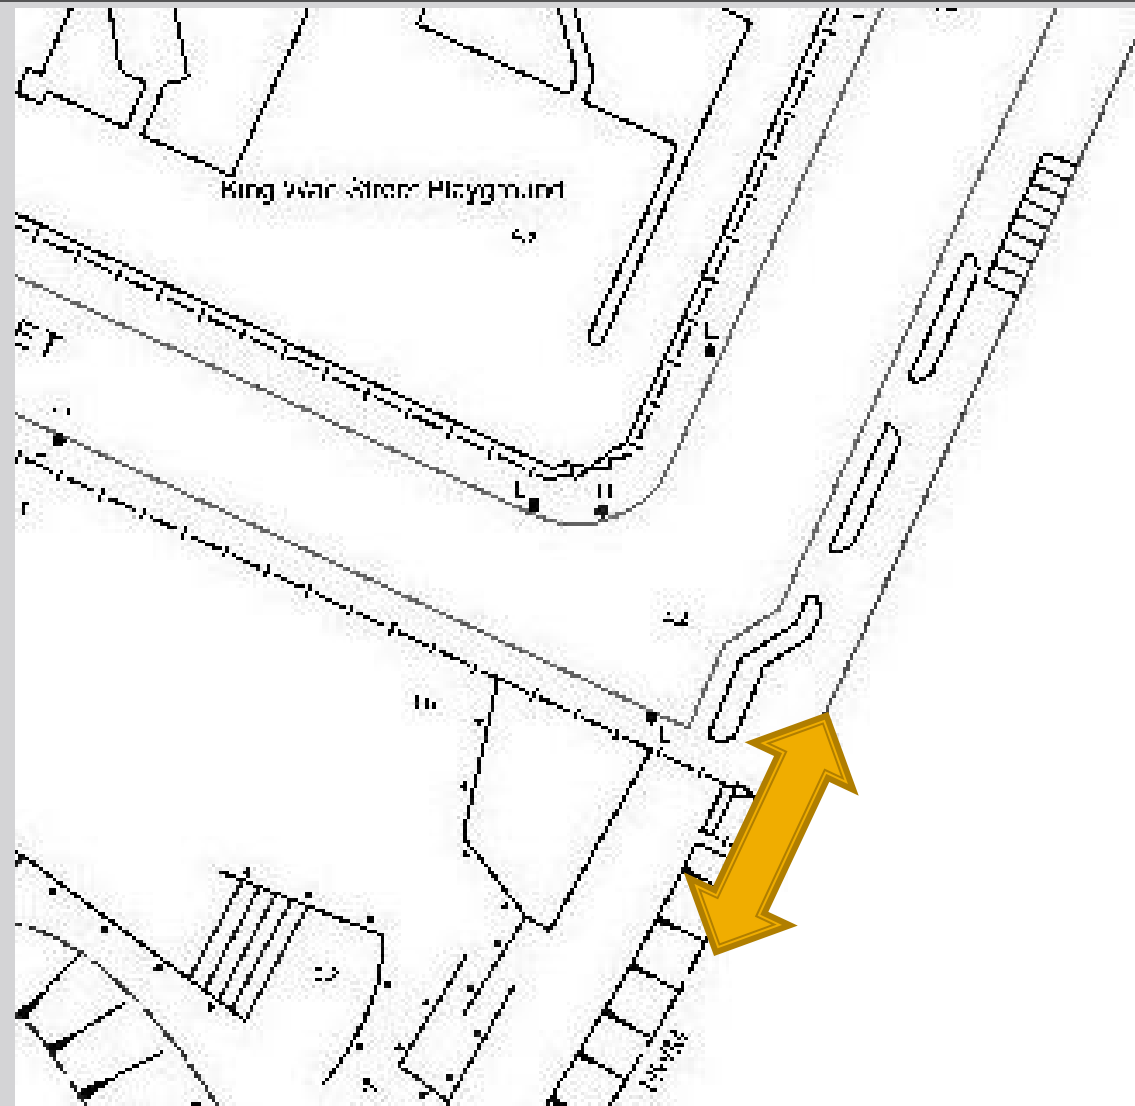

## Connectivity

# Connected Promenades

- The park promenade is connected to the neighboring non-LCSD site.
- This extends waterfront access and allows visitors to easily get to the nearby ferry.

## Design/Maintenance

# Paint

- Repaint miscellaneous areas throughout park.

## Connectivity

- Remove fence that obstructs the bench

# Blocked Off Bench

# Game Tables

## Quality

- The current game tables are very popular.
- Add more game tables. Add them under this shelter or in the open space behind it.

## Design/Maintenance

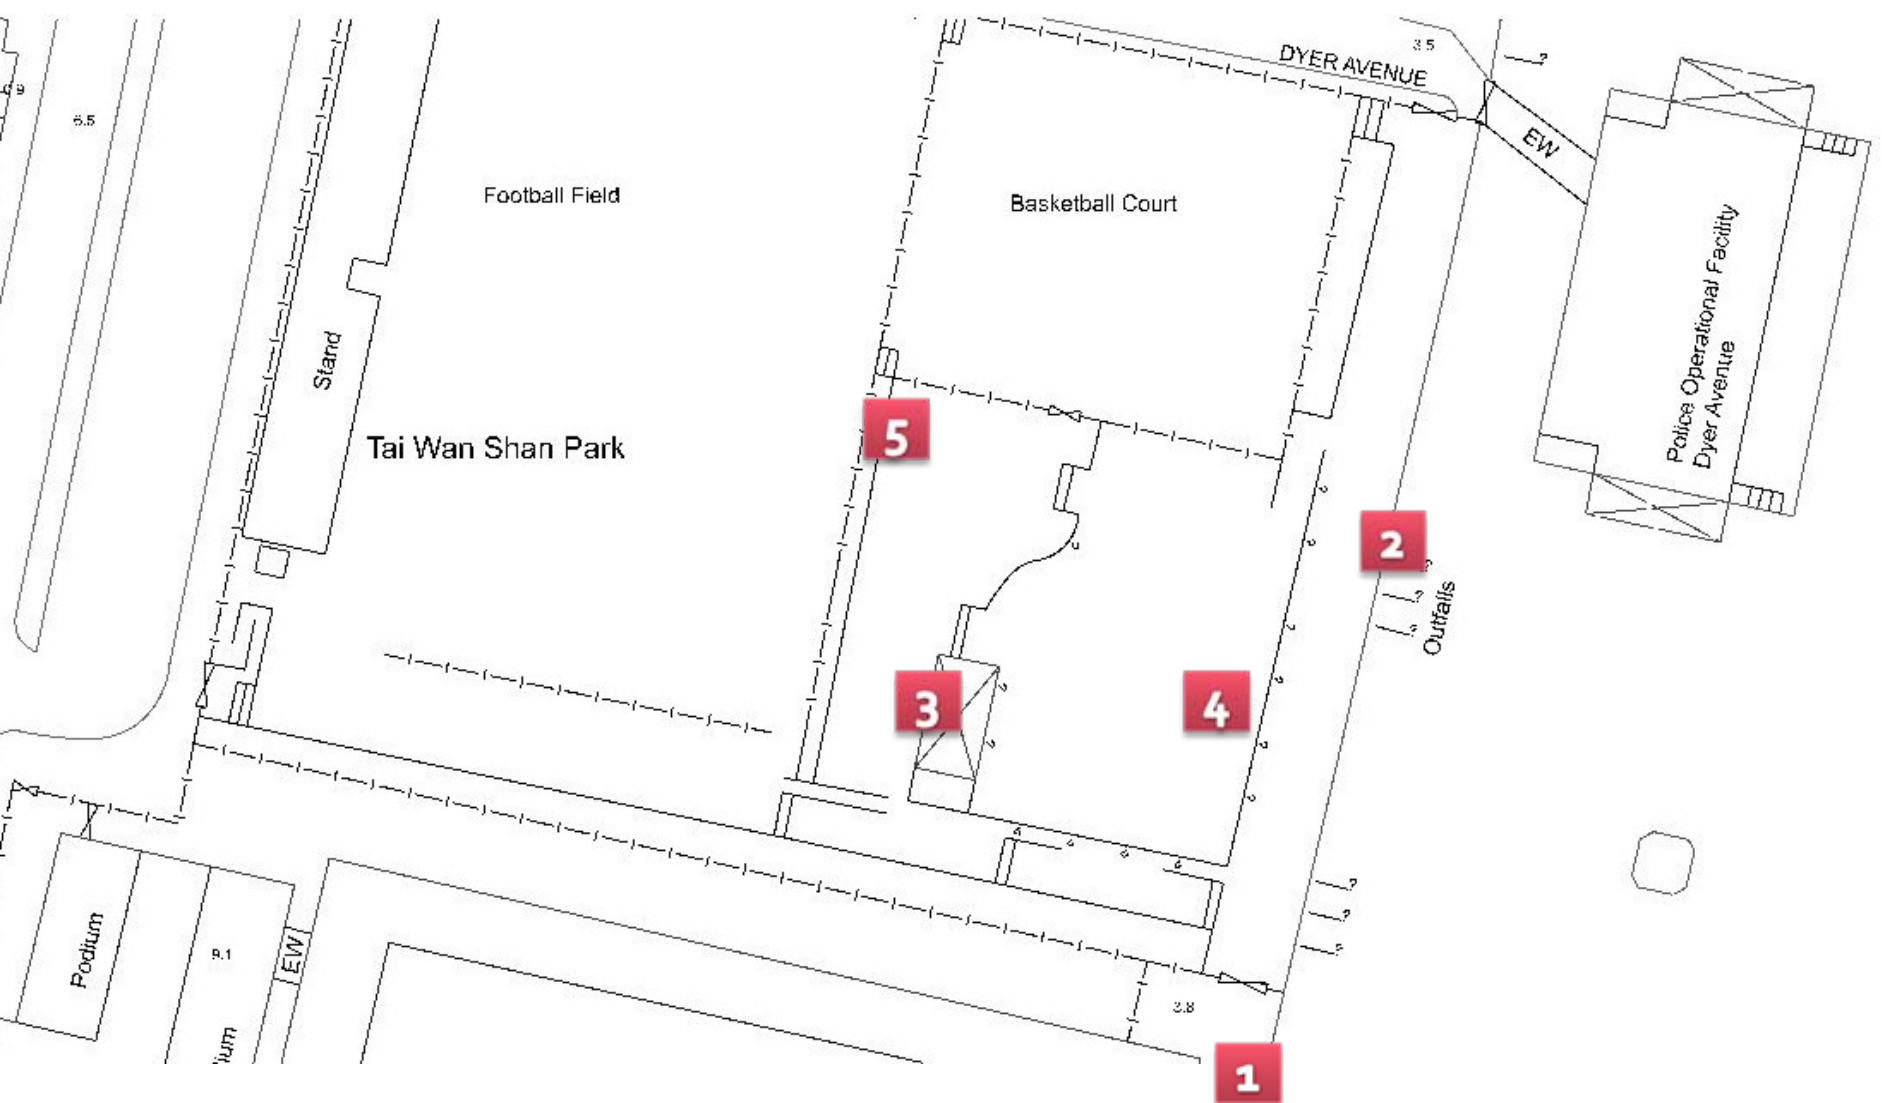

## Promenade

- Replace and add more benches to the promenade.
- Provide shade over benches by revitalizing trees
- Clean up the promenade and paint the waterfront fence

# 42 - Tai Wan Shan Park Promenade

## Design/Maintenance

# Paint the Wall

- Paint the wall that is bordering the swimming pool.
- Make the colour match the waterfront fence or create an ocean theme.

## Quality

# Shaded Seating

- Add shaded seating along the promenade.
- Benches with potted plants and trees.

## Quality

## Shaded Bench Area

- Replace wall separating seats from playground with glass
- Add game tables.
- Orient benches towards water

## Quality

- Replace the fence between the playground and the promenade with glass

## Change Fence

## Quality

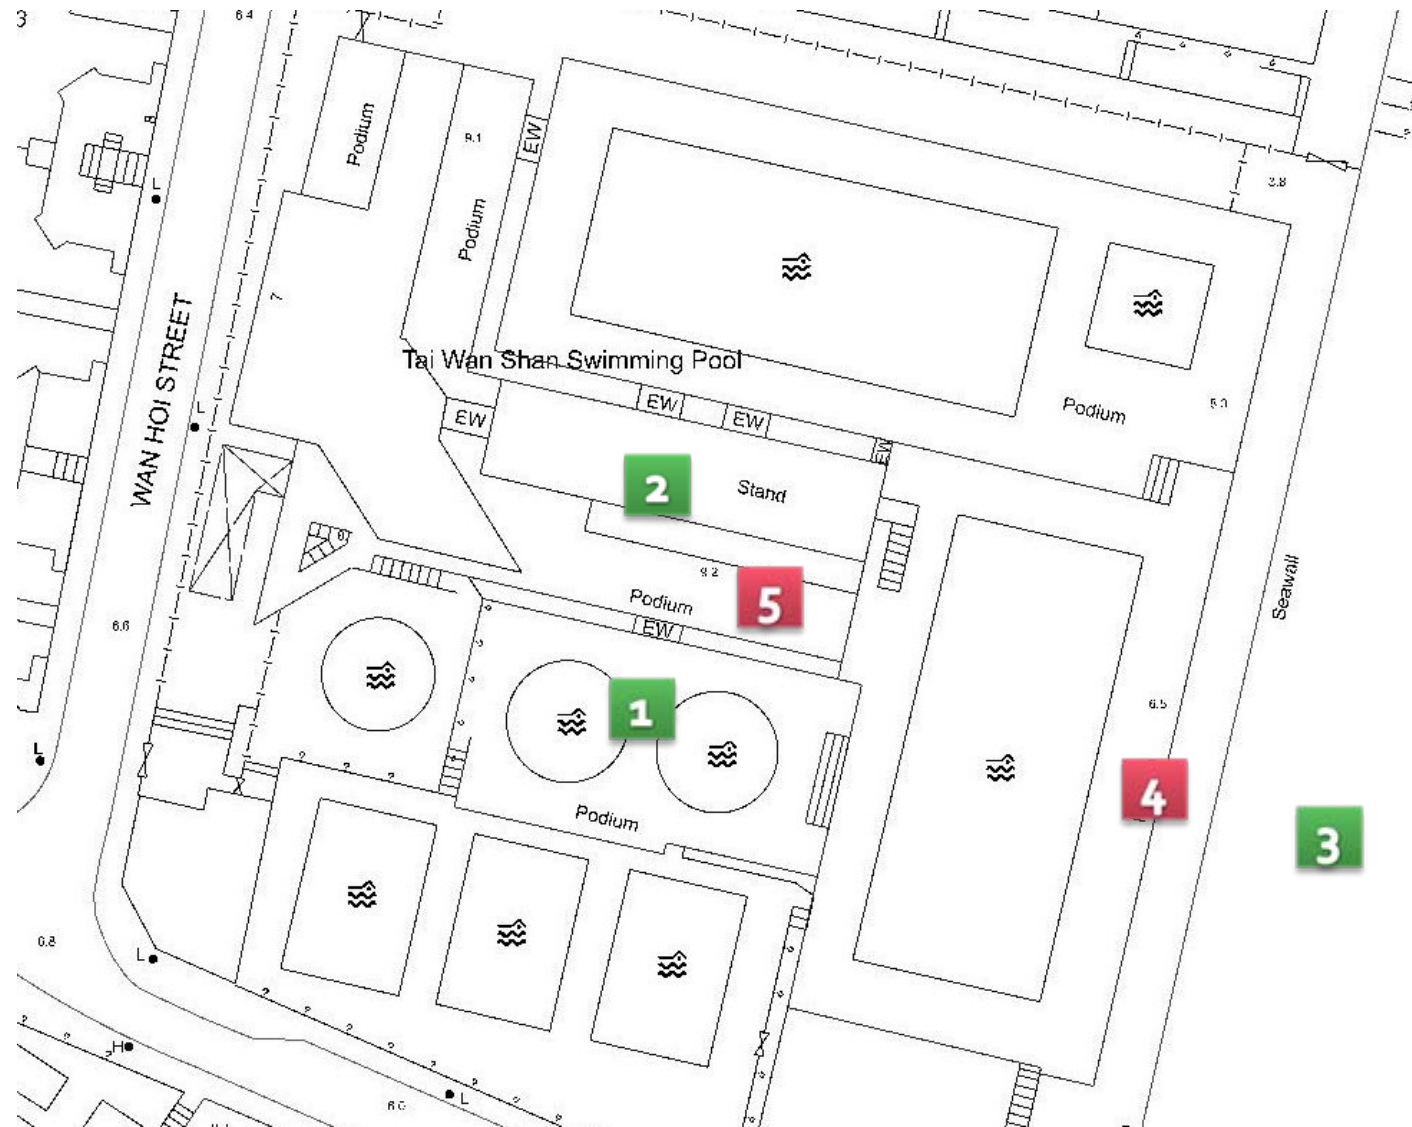

## Bathroom

- Closest bathroom is located in swimming pool complex.
- Add bathroom

# 41 - Tai Wan Shan Swimming Pool

## Quality

- Pool sizes available for all age groups.

## Various Pools

## Quality

## Viewing Stands

- Viewing stands accommodate large crowds and makes the swimming pool available for competitive swimming.

## Quality

## Harbour Views

- The swimming pool has an unobstructed view of Kwun Tong and eastern Hong Kong Island

# Underwater Viewing

## Quality

- Repaint outside wall  
*or*
- Create a glass side of the pool so swimmers will be able to see the harbour and so visitors of the promenade can watch events from a different perspective.

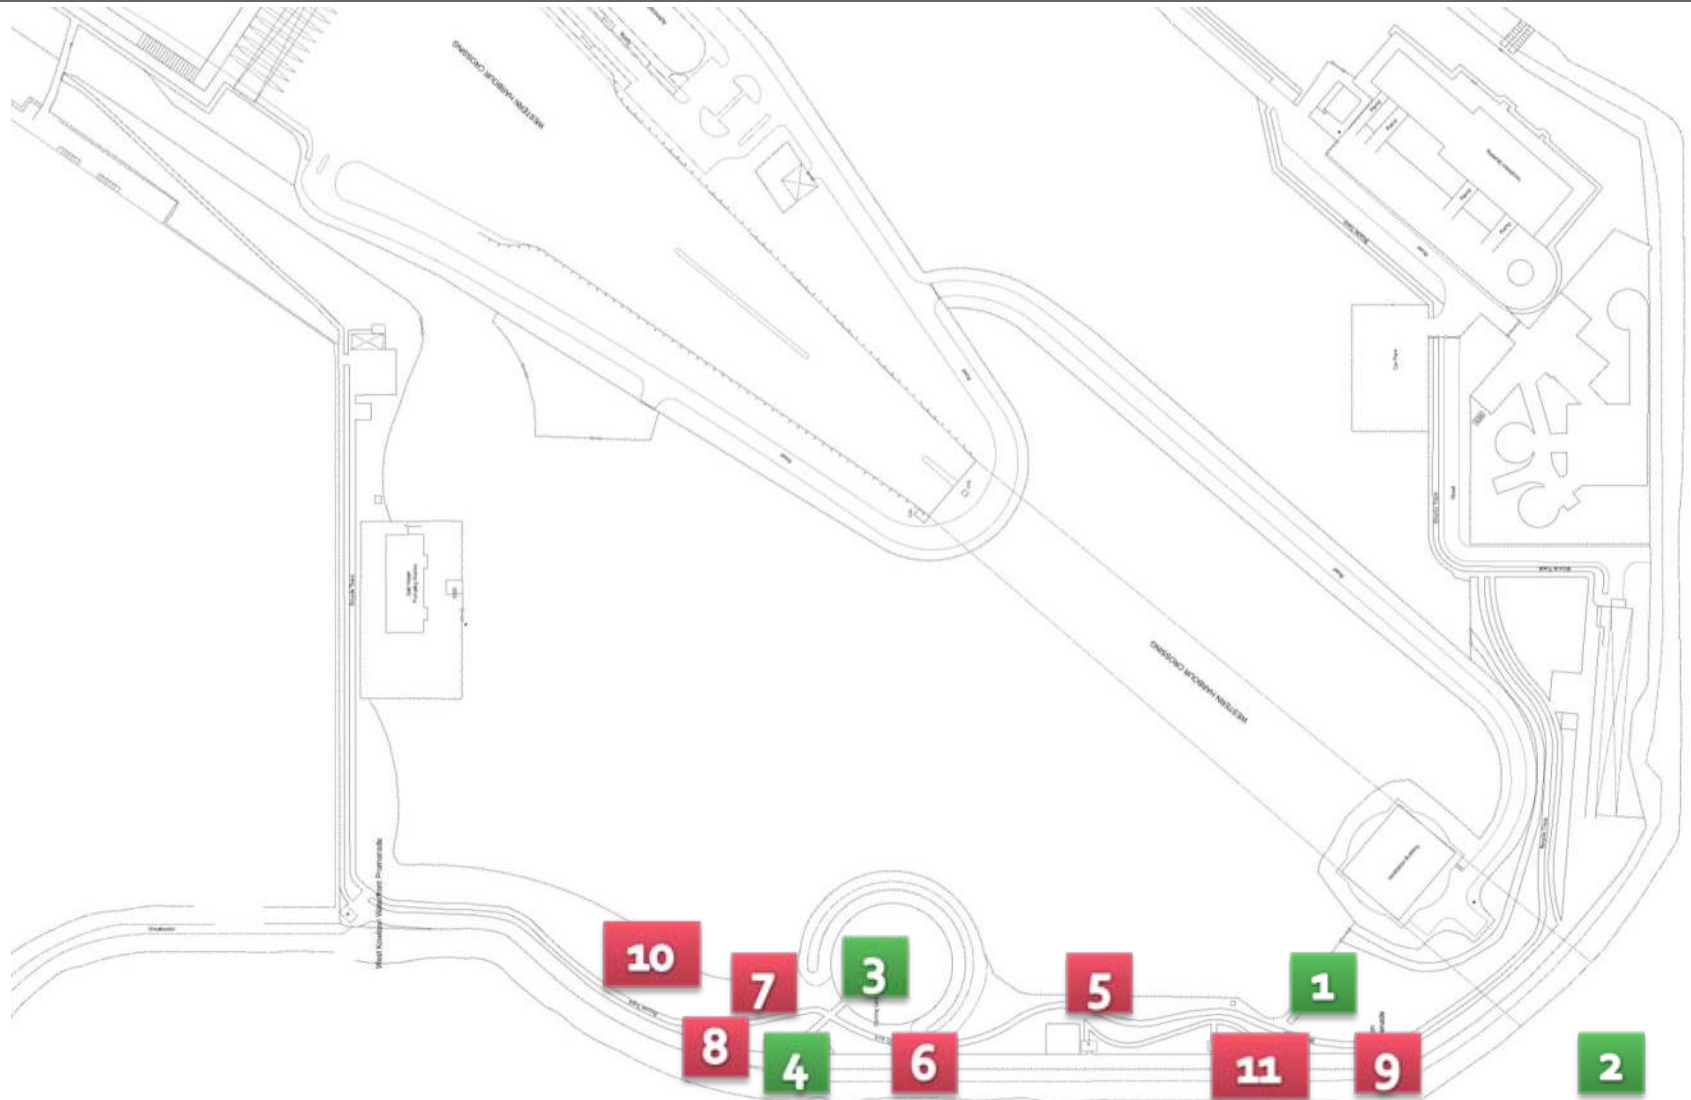

## Quality

## Shaded Seating

- Add more shaded seating to the open space around the pools.

# 36 - West Kowloon Waterfront Promenade

## Quality

# Large Open Park

- The venue is very large and there is a lot of open space.

## Quality

# Harbour View

- The site has an unobstructed view of the Central waterfront.

## Quality

# Long Cycling Path

- The park supports cycling with a 1.5km cycling track and a cycling ground.
- Bicycles can be rented for use in the park.

## Quality

# Dragon of Lanterns

- The entire park features the Dragon of Lanterns, a 1.6km row of tall lanterns.
- The lanterns light up at night and they have wind chimes as well.

## Quality

# Expand Playground Areas

- The park features several small playground areas.
- Each area is small and has only a few pieces of equipment.
- Expand playground areas.

## Quality

## Repair Boardwalk

- The promenade features a boardwalk for visitors to walk on.
- Many parts of the boardwalk are in need of repair.

## Design/Maintenance

# Paint Cycle Track

- The cycle track is unpainted cement.
- Paint the cycle track.

## Design/Maintenance

# Dragon of Lanterns

- The Dragon of Lanterns is in need of maintenance in many areas.
- Replace the sides with painted glass.

## Connectivity

# Add Signage

- Site lacks sufficient signage.
- Add site name signs and site layout maps.

## Design/Maintenance

# Maintain Greenery

- Replace dead plants.

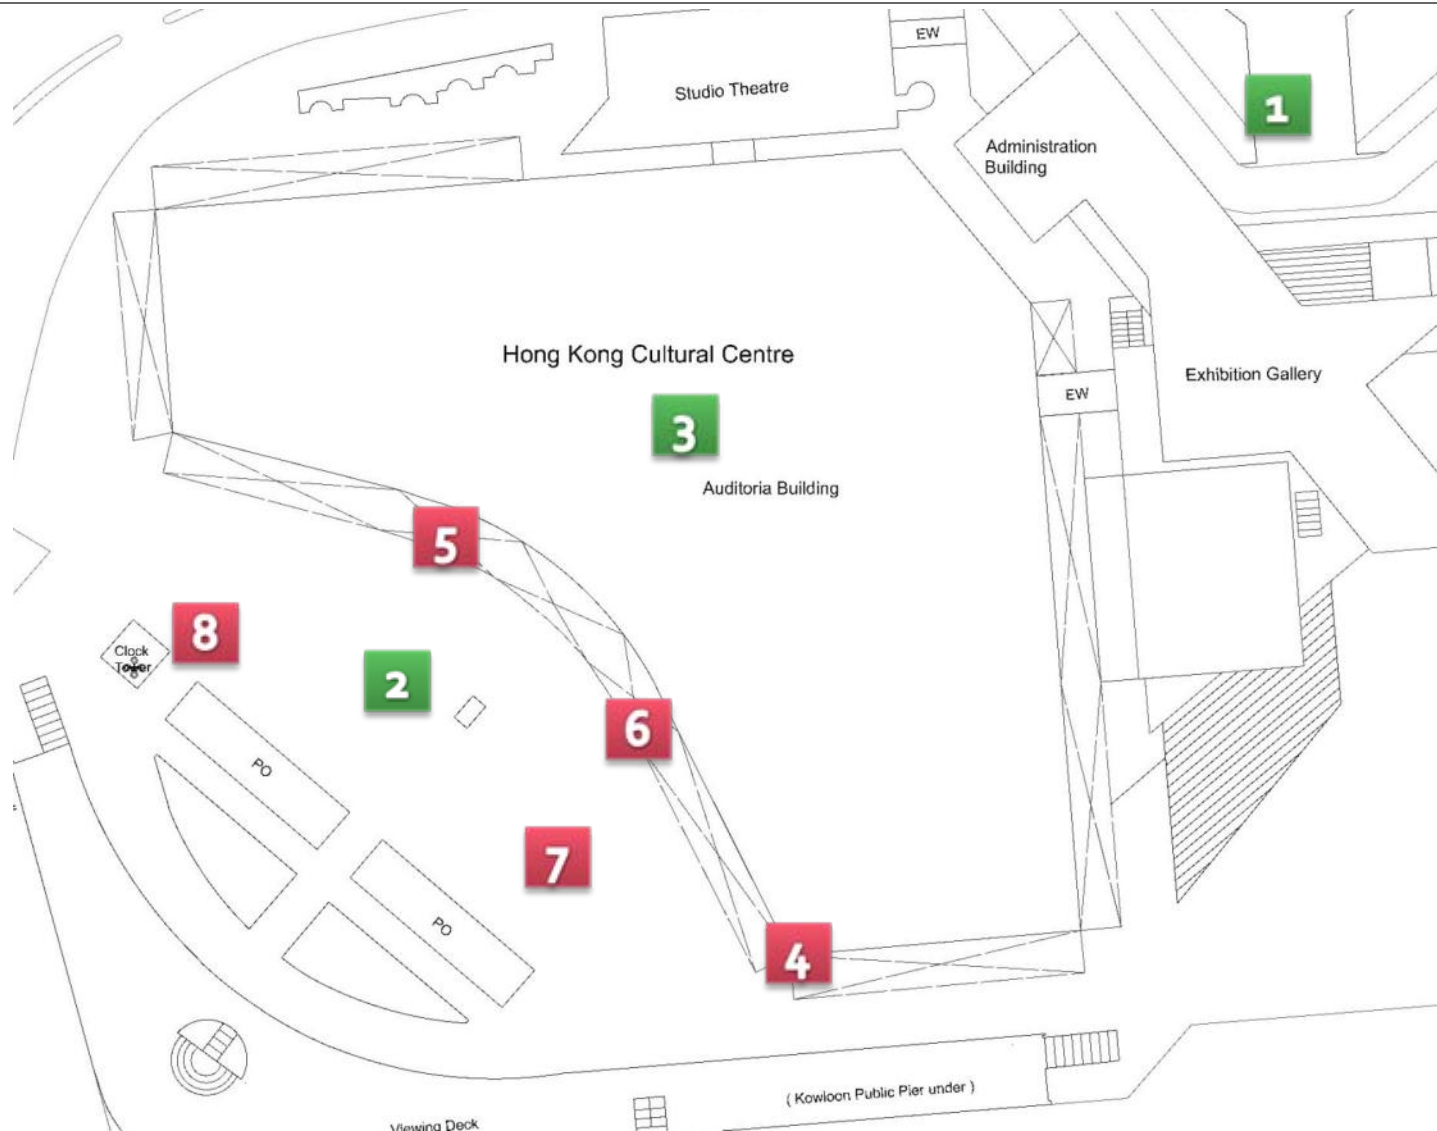

## Quality

## Relocate Facilities

- The bike rental, toilet, and office facilities are located at the water's edge.
- Move these facilities away from water and extend boardwalk to waterfront.

# 37 - Hong Kong Cultural Centre

## Accessibility

- Cultural Centre marked in the Tsim Sha Tsui MTR station.

## Getting to the Site

## Connectivity

- Directly borders the Avenue of Stars, the Hong Kong Museum of Art, and the Hong Kong Space Museum.

# Connection to Rest of TST

## Quality

- Concerts occasionally take place outside of the Centre.
- Indoors used for exhibitions and fairs.

## Quality

- Remove skirting allowing for the addition of shops with outdoor shaded seating.

or

- Keep skirting and insert shops in between.

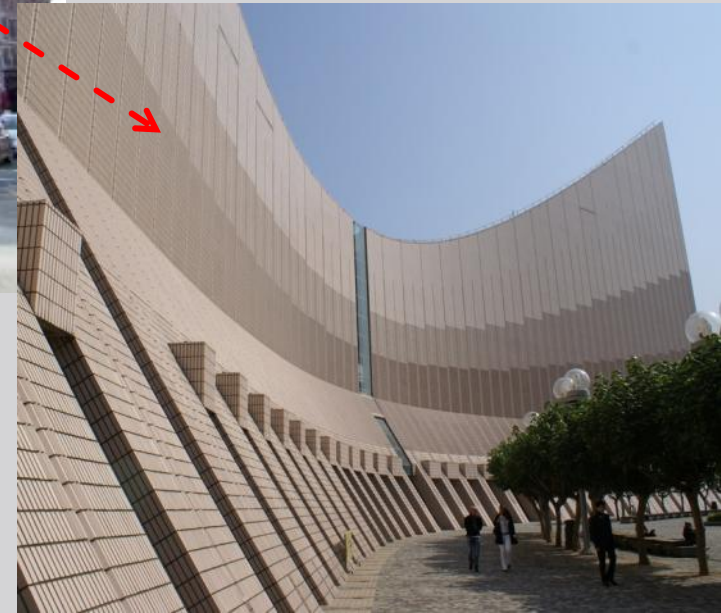

## Triangle Skirting

## Quality

## Building Design

- Install a glass viewing façade over the present waterfront wall. The current wall would be left intact allowing non-destructive construction.

## Quality

# Blank Wall

Place advertisements for upcoming events in Hong Kong. Line with LEDs to make a large screen .

# Quality

# Shaded Seating

Add more benches outside of the Cultural Centre.

## Quality

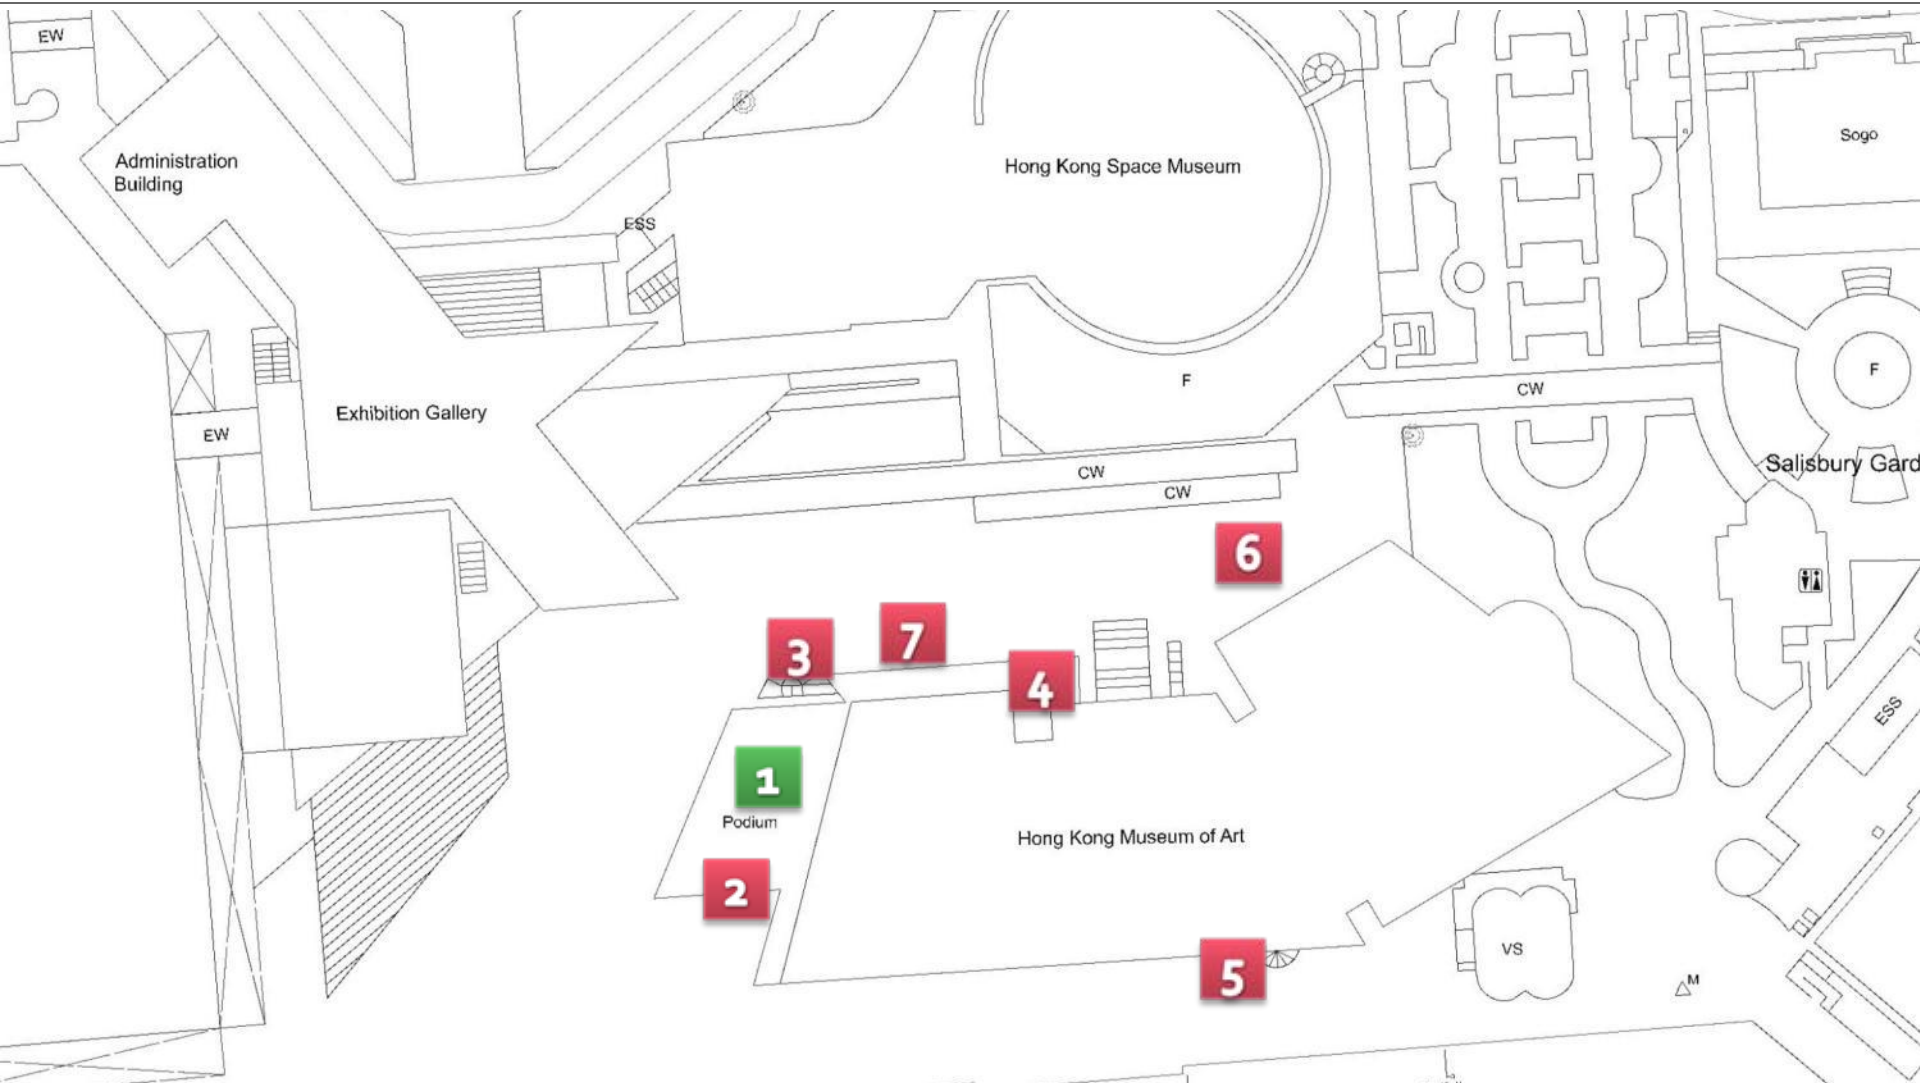

## History

Install a historical plaque for the clock tower or recreate parts of the train station for education and exhibition.

# 38 - Hong Kong Museum of Art

## Quality

## Upper Deck

Contains upper deck with sculptures and restaurant.

## Quality

## Upper Deck Walls

Replace walls on upper deck with a glass fence.

## Connectivity

## Signage to Restaurants

Add signage on the promenade to the Starbucks and the restaurant on the upper deck.

## Quality

# Advertising

- Hang giant banners from the front of the museum. Try not to keep plain wall.
- Make banners, artwork or advertisement for public events and art exhibits.

## Connectivity

# Spiral Staircase

- Make spiral staircase adjacent to Avenue of Stars open, allowing people to go into the Museum from waterfront.
- Add benches next to staircase behind Museum.
- Add shrubbery with benches.

## Quality

## Outdoor Exhibit

- Add a sculpture in the open area in front of museum.

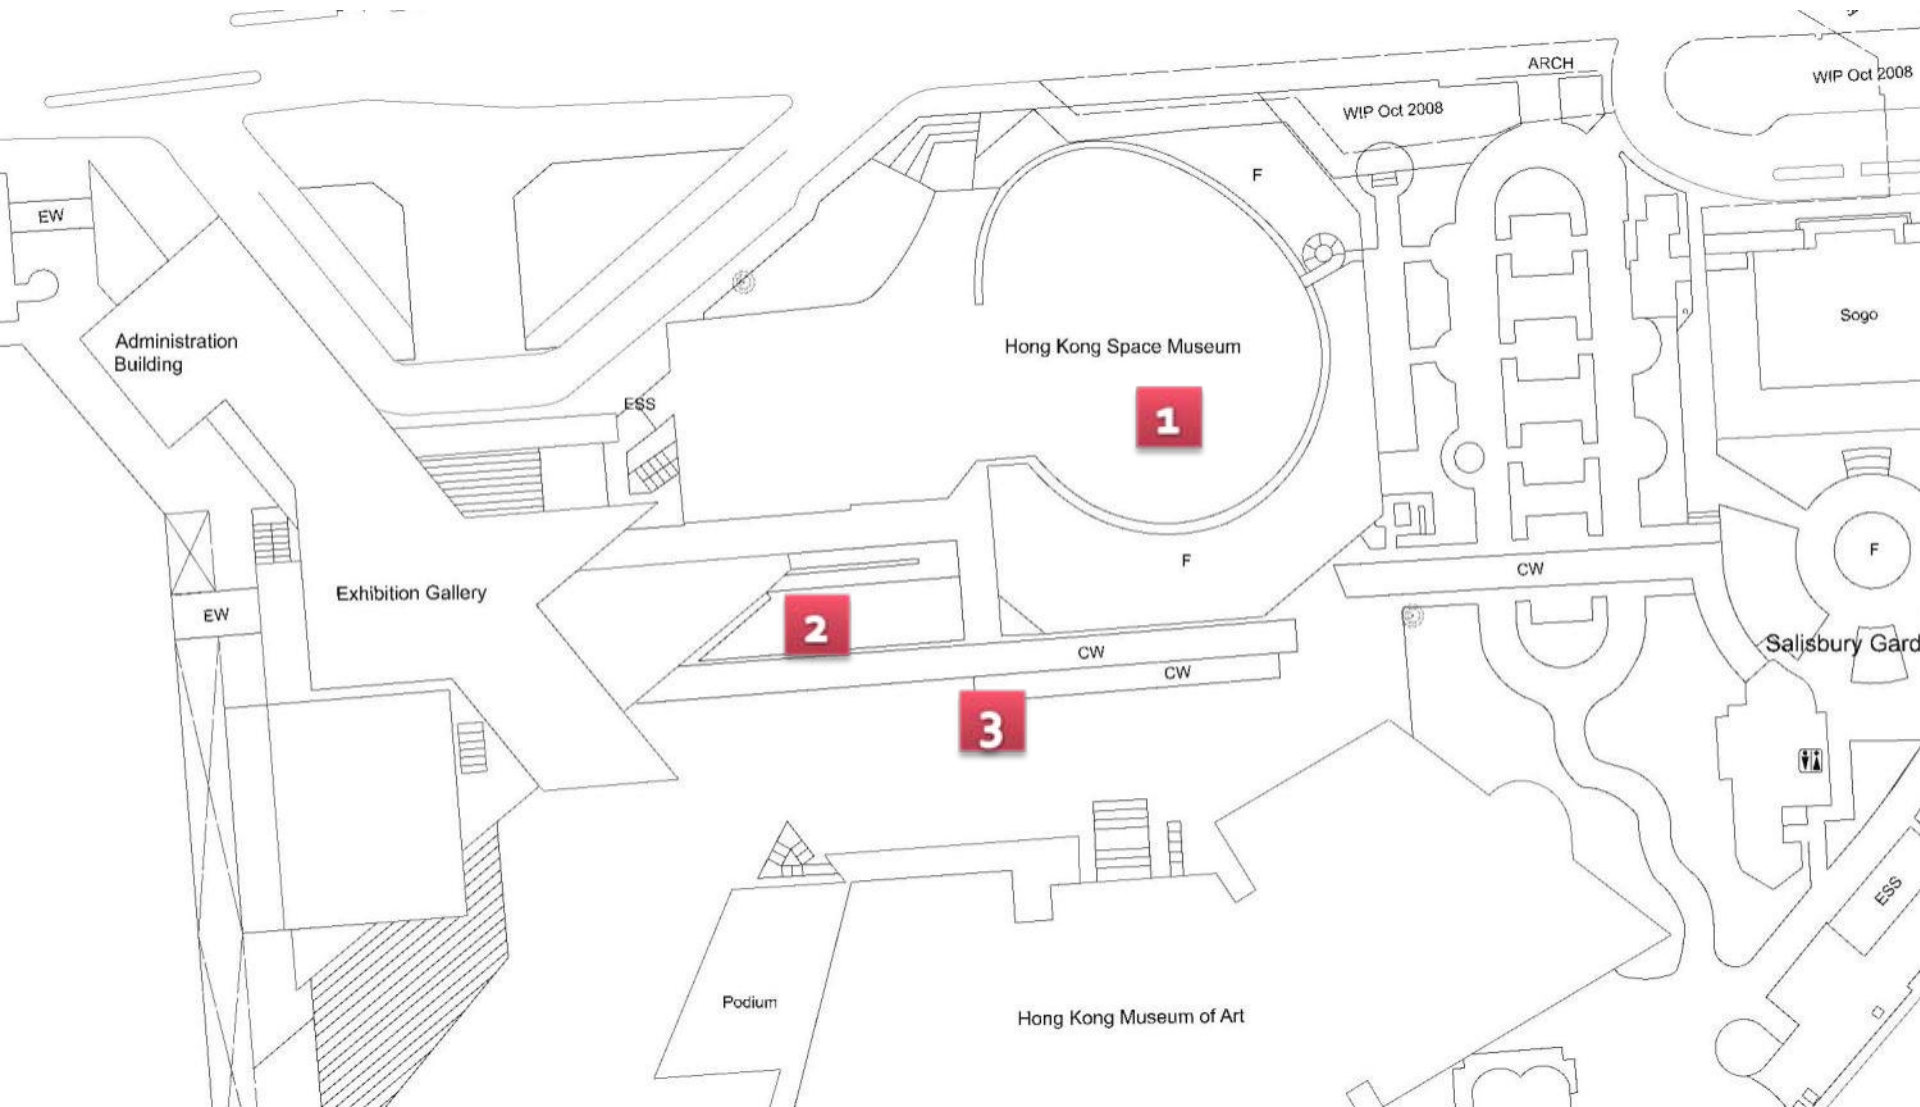

## Quality

## Restaurant/Café

- Build restaurant/café underneath the upper deck.

# 39 - Hong Kong Space Museum

## Design/Maintenance

Paint dome to look like a globe or have covers made for decoration, for example, Hong Kong flag, constellations, cultural advertisements.

# Planetarium Dome

## Design/Maintenance

# Theme and Greenery

- Implement a space theme outside. Add more greenery around dome and in back of building.
- Add a small space-themed playground.

# Signage

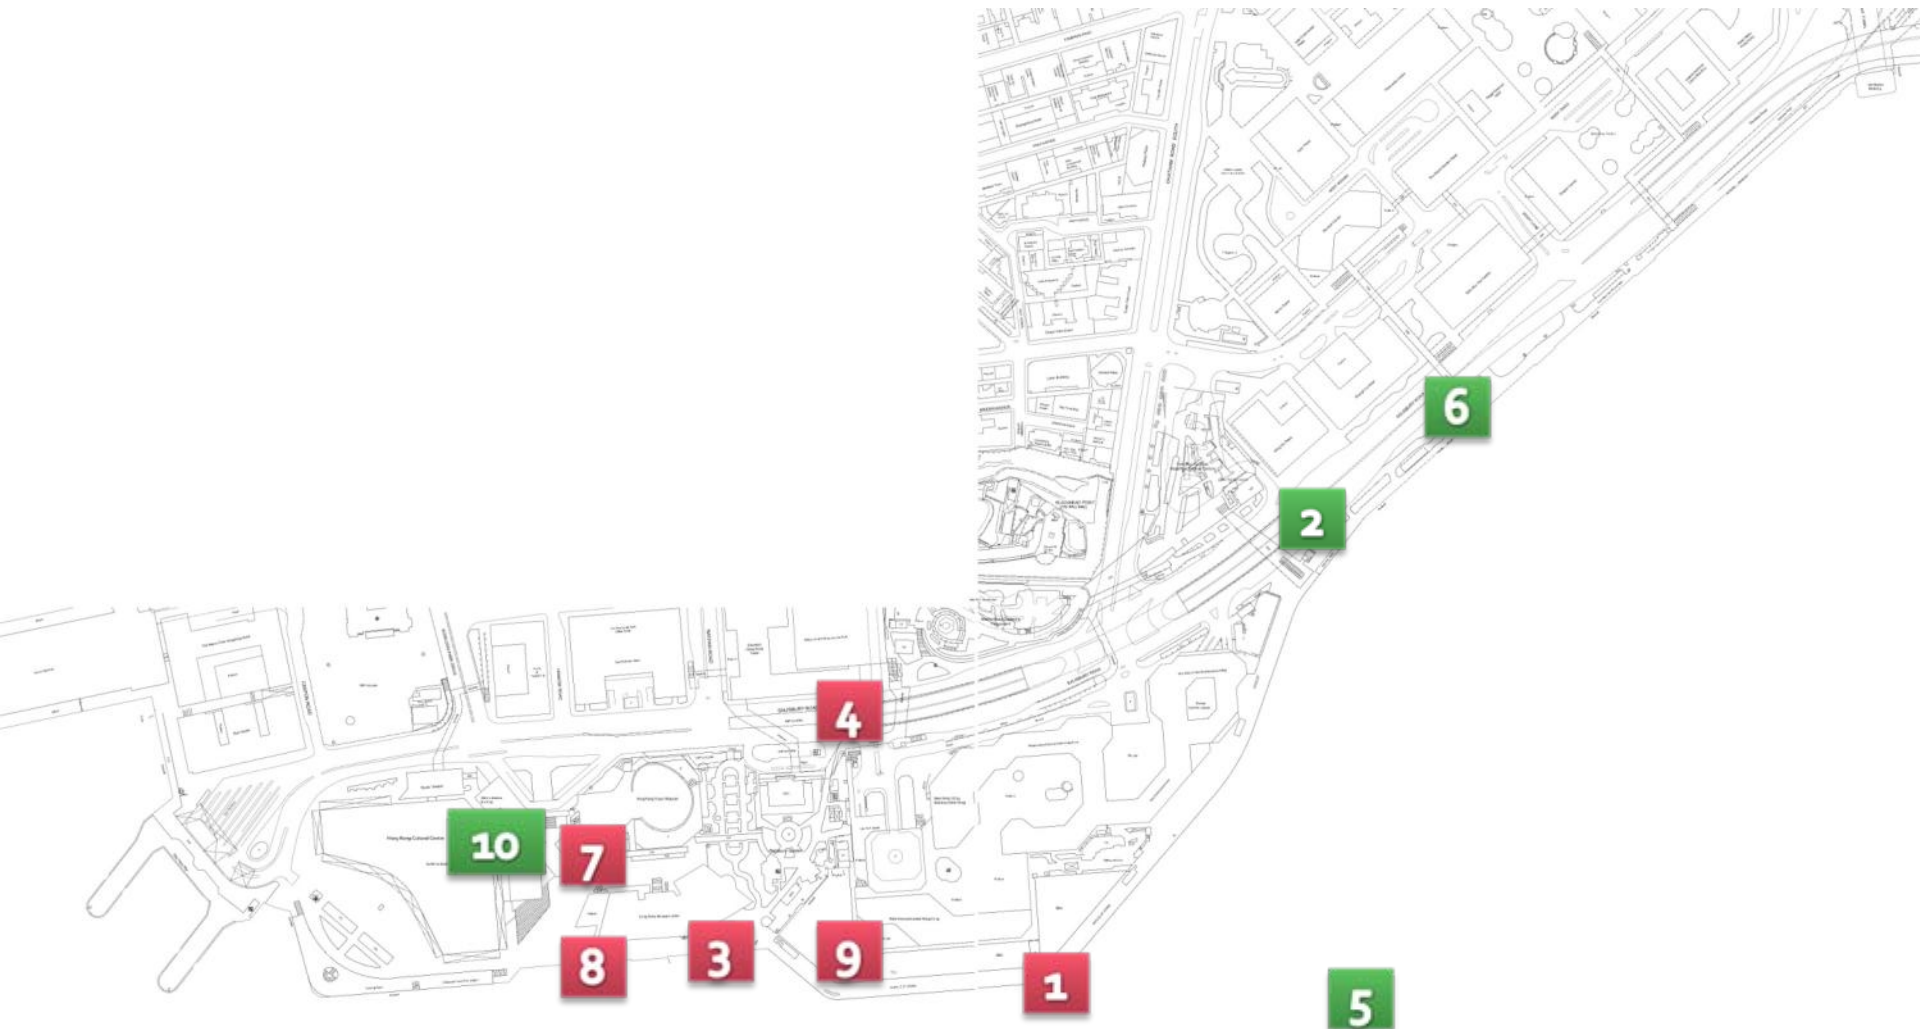

## Connectivity

- Add a site sign in the back of the building and have more smaller directional signs nearby.

# 40 - Tsim Sha Tsui Promenade

## Quality

# Food Carts and Stars

- Orient the food carts on the other side of the promenade and make them face the harbour.
- Move stars.

## Buses

## Accessibility

- Area along promenade allows tour buses and city buses access to the promenade.

## Quality

# Cafés/Restaurants/Bars

- Add bars, restaurants and cafes all along the promenade.
- Utilize the views and open areas to the fullest potential.

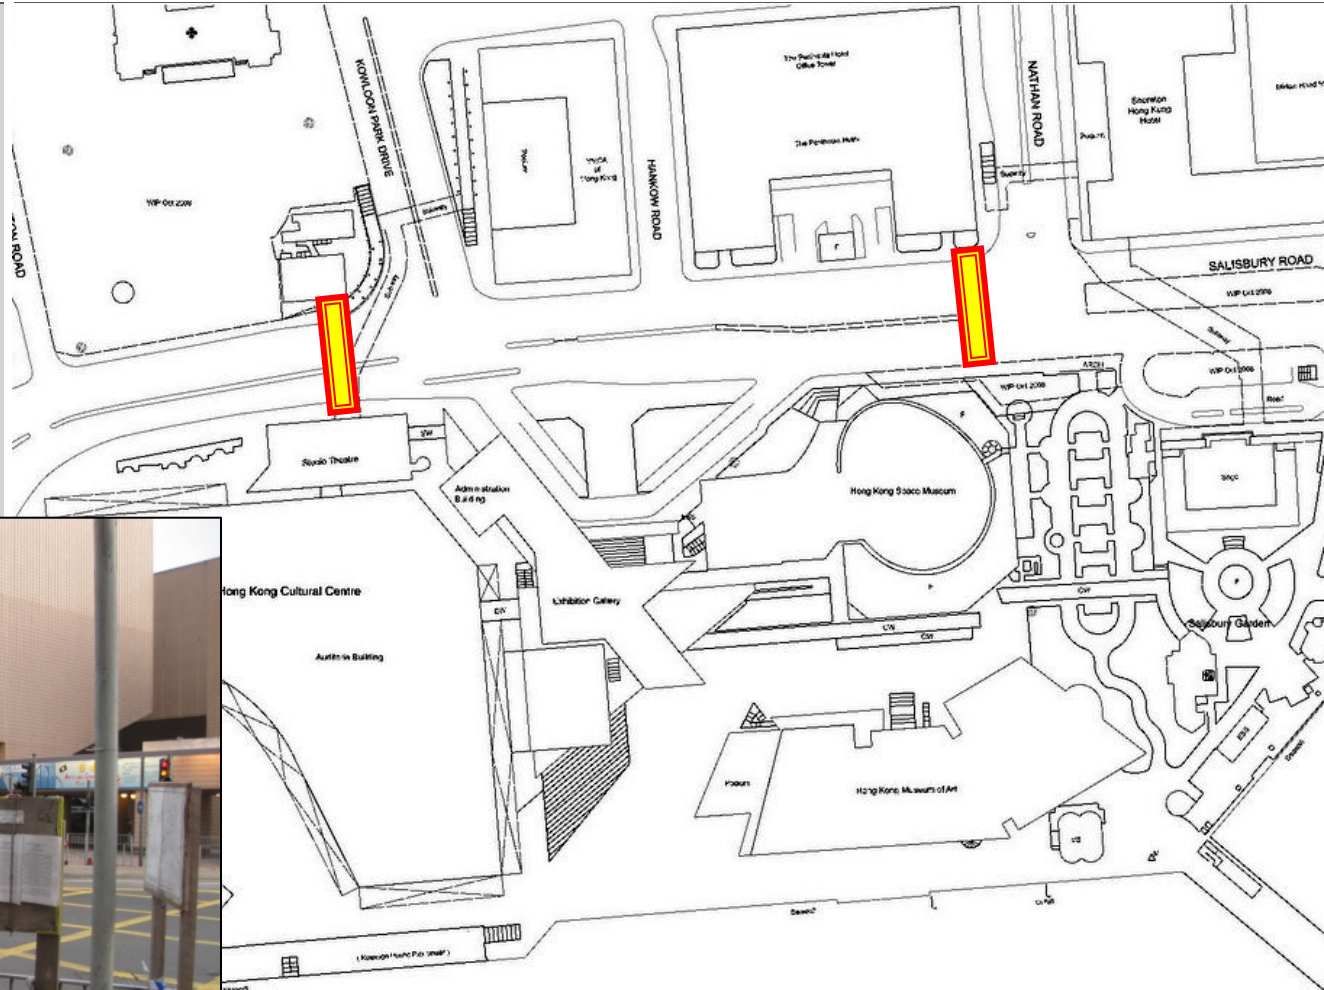

## Accessibility

# Crossing

- Add signaled crossing across Salisbury Road.

## Quality

# Harbour View

- Popular tourist destination. Provides views of Hong Kong Island.

## Design/Maintenance

- Well maintained greenery in back of promenade. Provides shade and smoking area.

# Landscaping

## Connectivity

- Use waterfront gift shops to advertise surrounding museums, attractions, and transportation.

## Advertise

## Quality

## Solicitors and Vendors

- Minimize the picture stands for a better view of the harbour.
- Get rid of solicitors.

## Quality

# Restaurants

- Add more waterfront restaurants and cafés.
- Place these on side of promenade that does not face the water.
- Orient the restaurants toward the harbour.

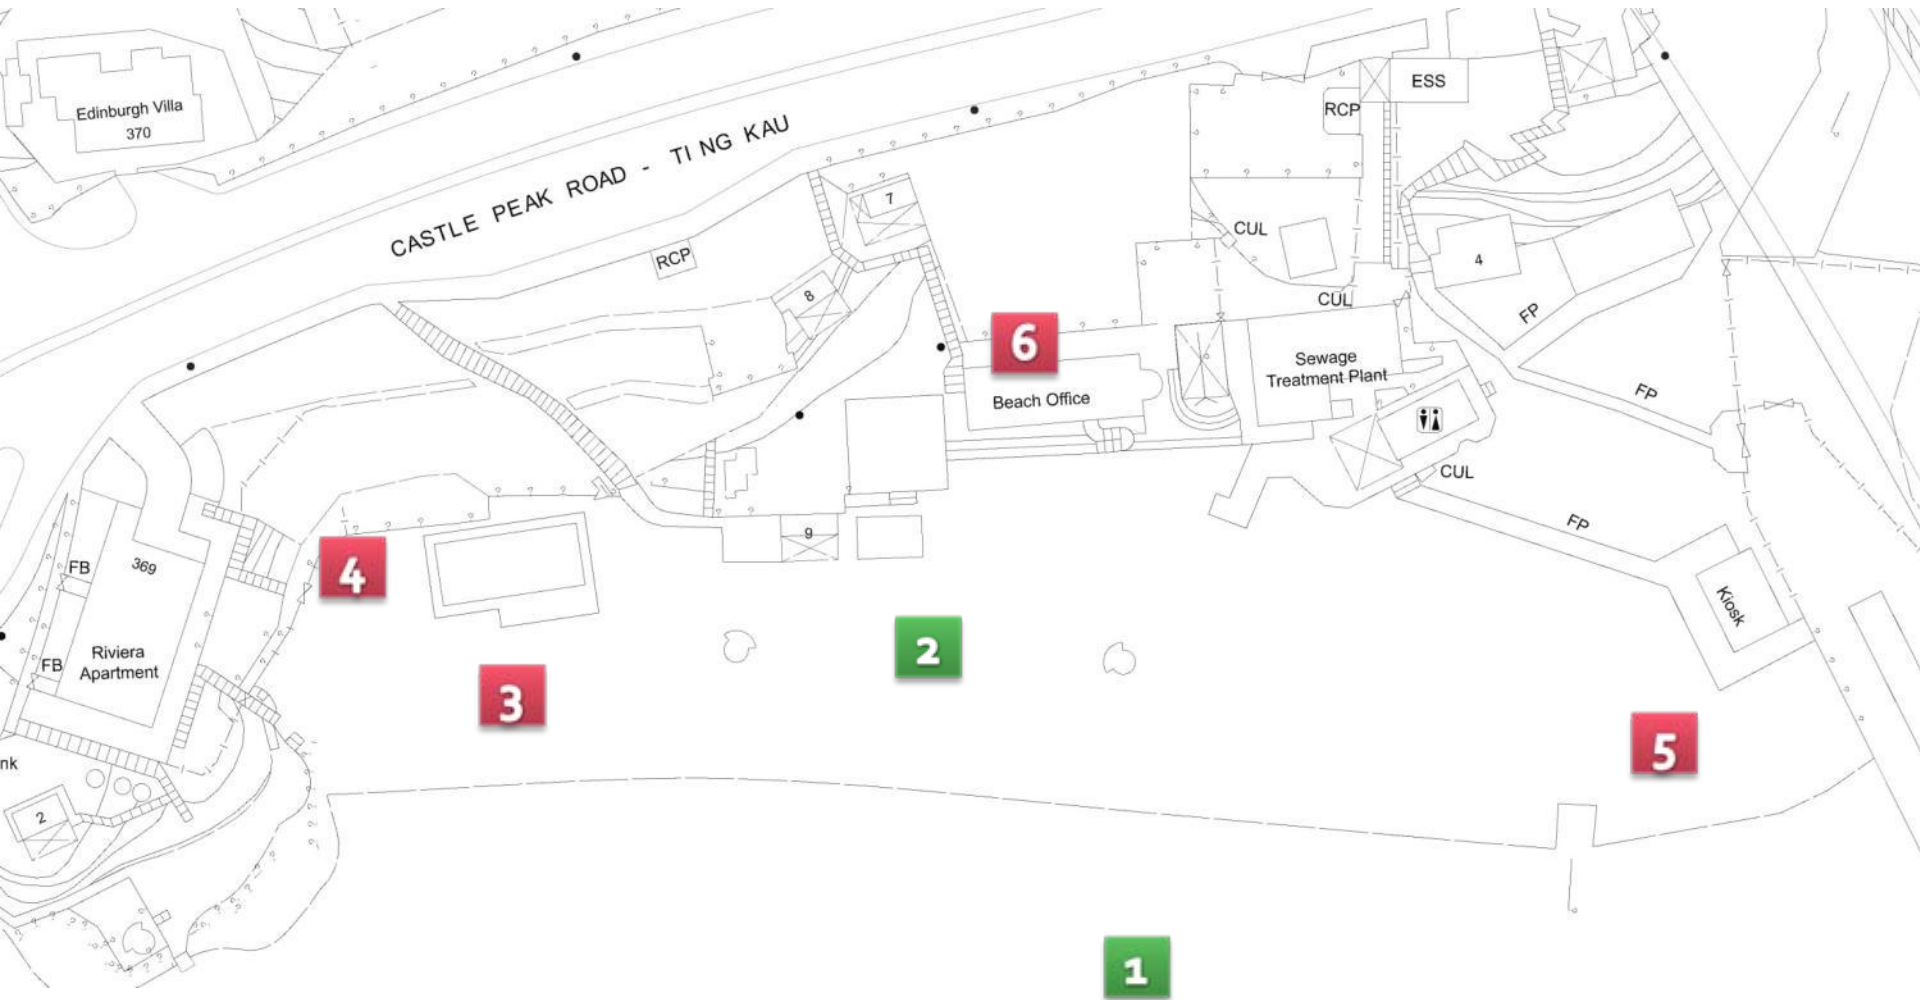

## Connectivity

# Connected

- Connected to the Hong Kong Cultural Centre, Museum of Art, Space Museum, and Star Ferry Pier.
- The Hong Kong Coliseum is also nearby.

# 30 - Lido Beach

## Quality

## Harbour Views

- The beach has a view of the Ting Kau Cable Stay Bridge.

## Quality

## Beach Sports

- The beach provides facilities for beach sports such as volleyball.

## Quality

- Add barbeque pits so people can cook food at the beach.

## Quality

- Adding a playground would help the venue to cater to the all age groups.

# Playground

## Quality

# East End

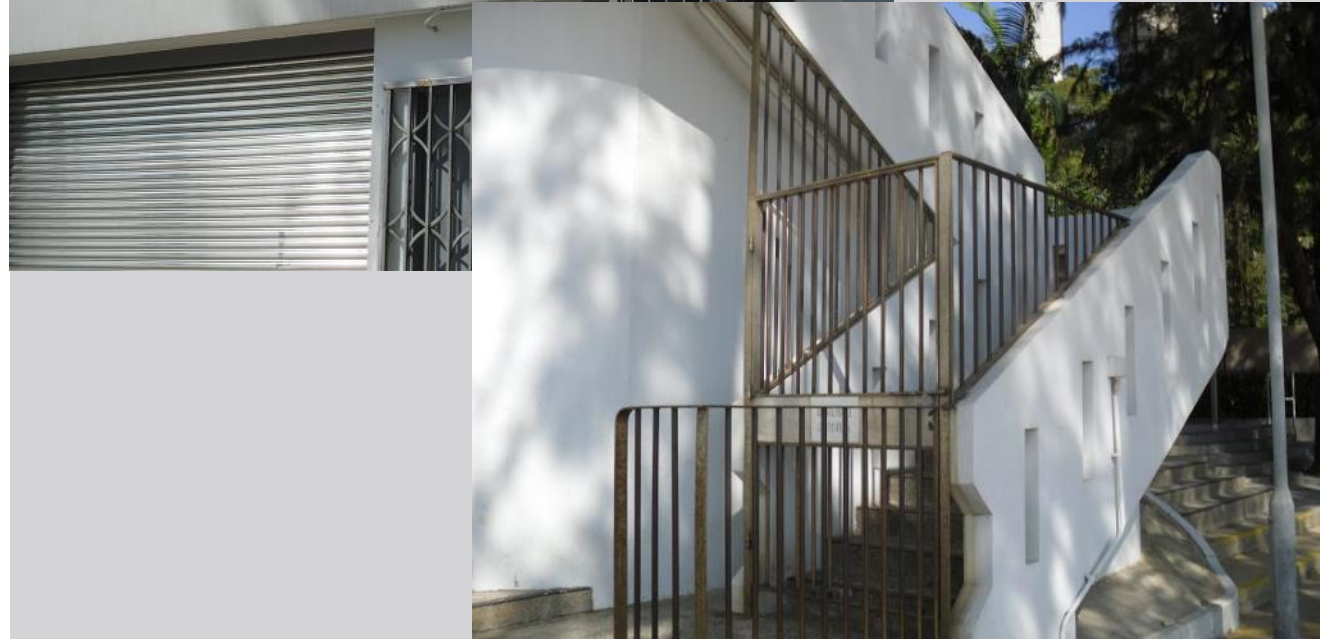

- The east end of the beach is covered in rocks and debris.
- Clean up the rocks to extend the usable beach.

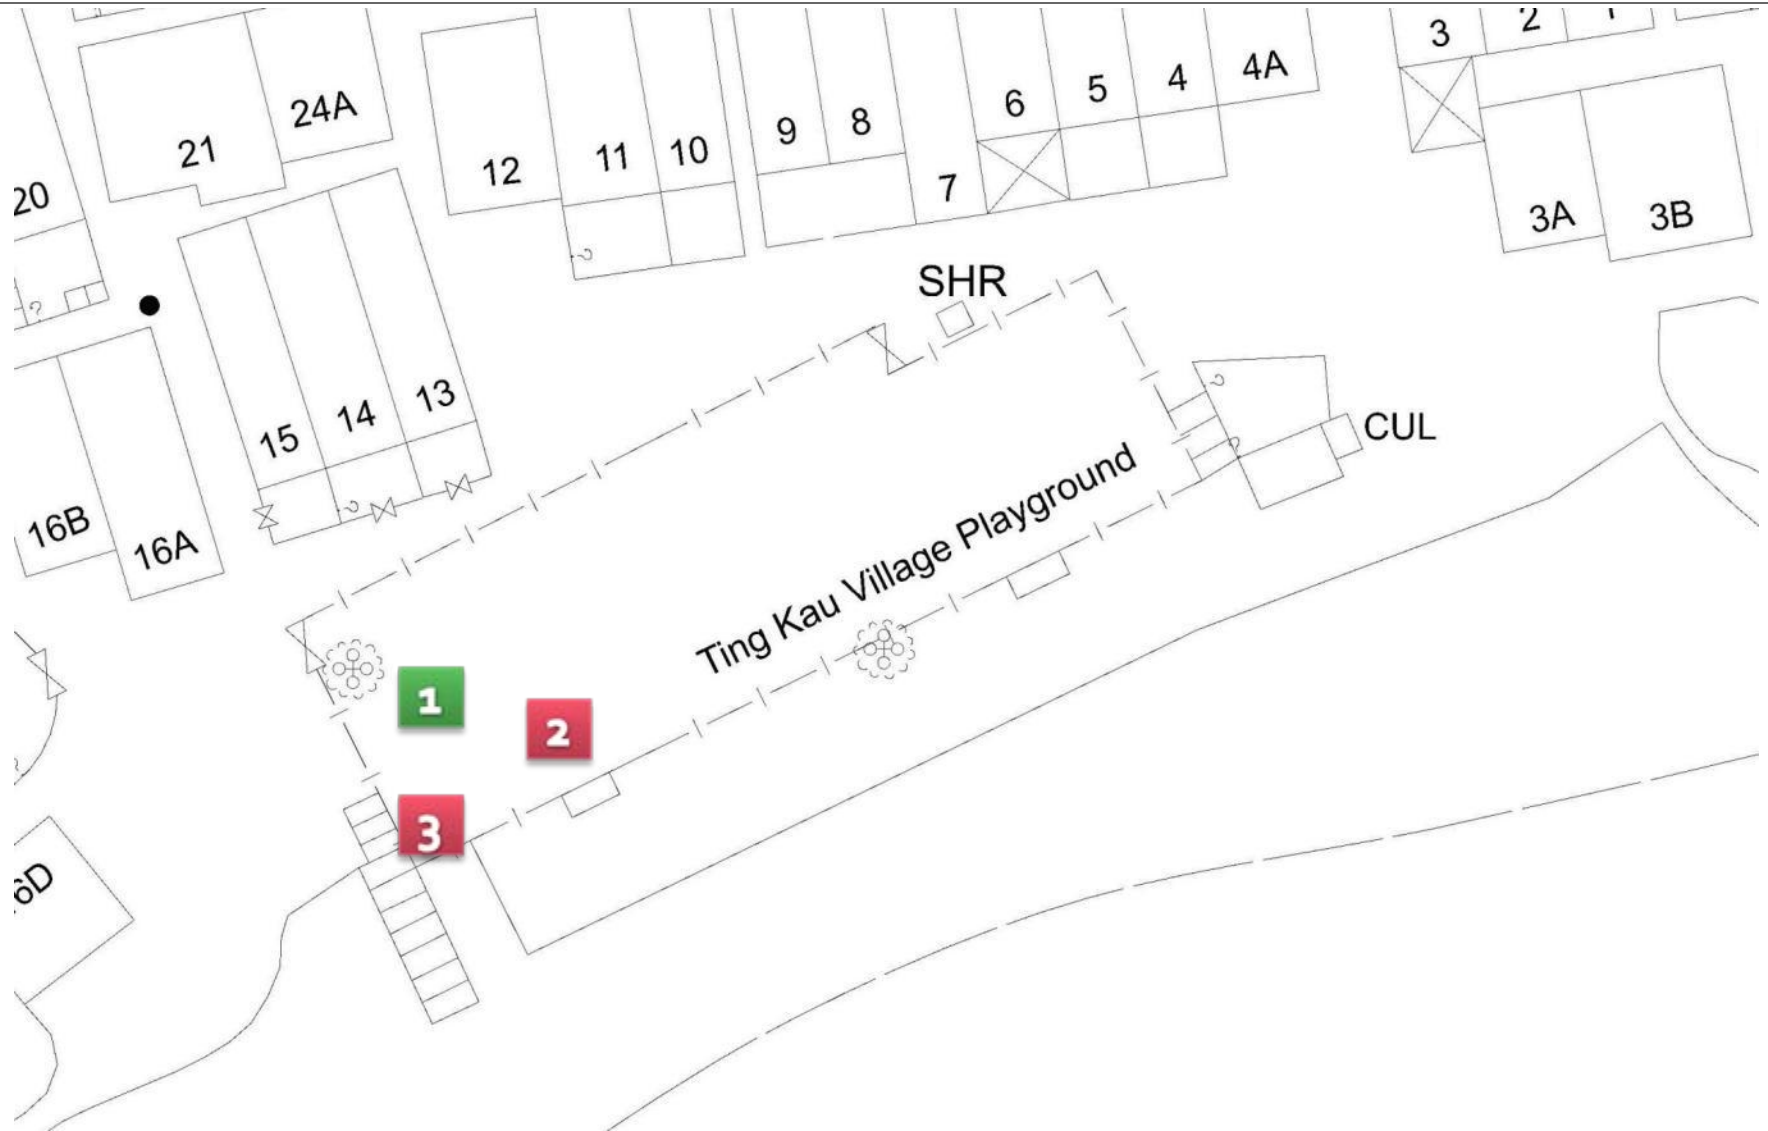

## Quality

# Open building roof for seating

- The roof of the building would provide a shaded place to sit and enjoy the view
- Open the stairs and provide seating on the roof

# 31 - Ting Kau Village Playground

## Quality

## Historic Tree

- The historic tree located in the playground provides shade.

## Design/Maintenance

# Replace playground equipment

- Playground equipment is old, some is broken.
- Upgrade entire playground with more equipment.

## Design/Maintenance

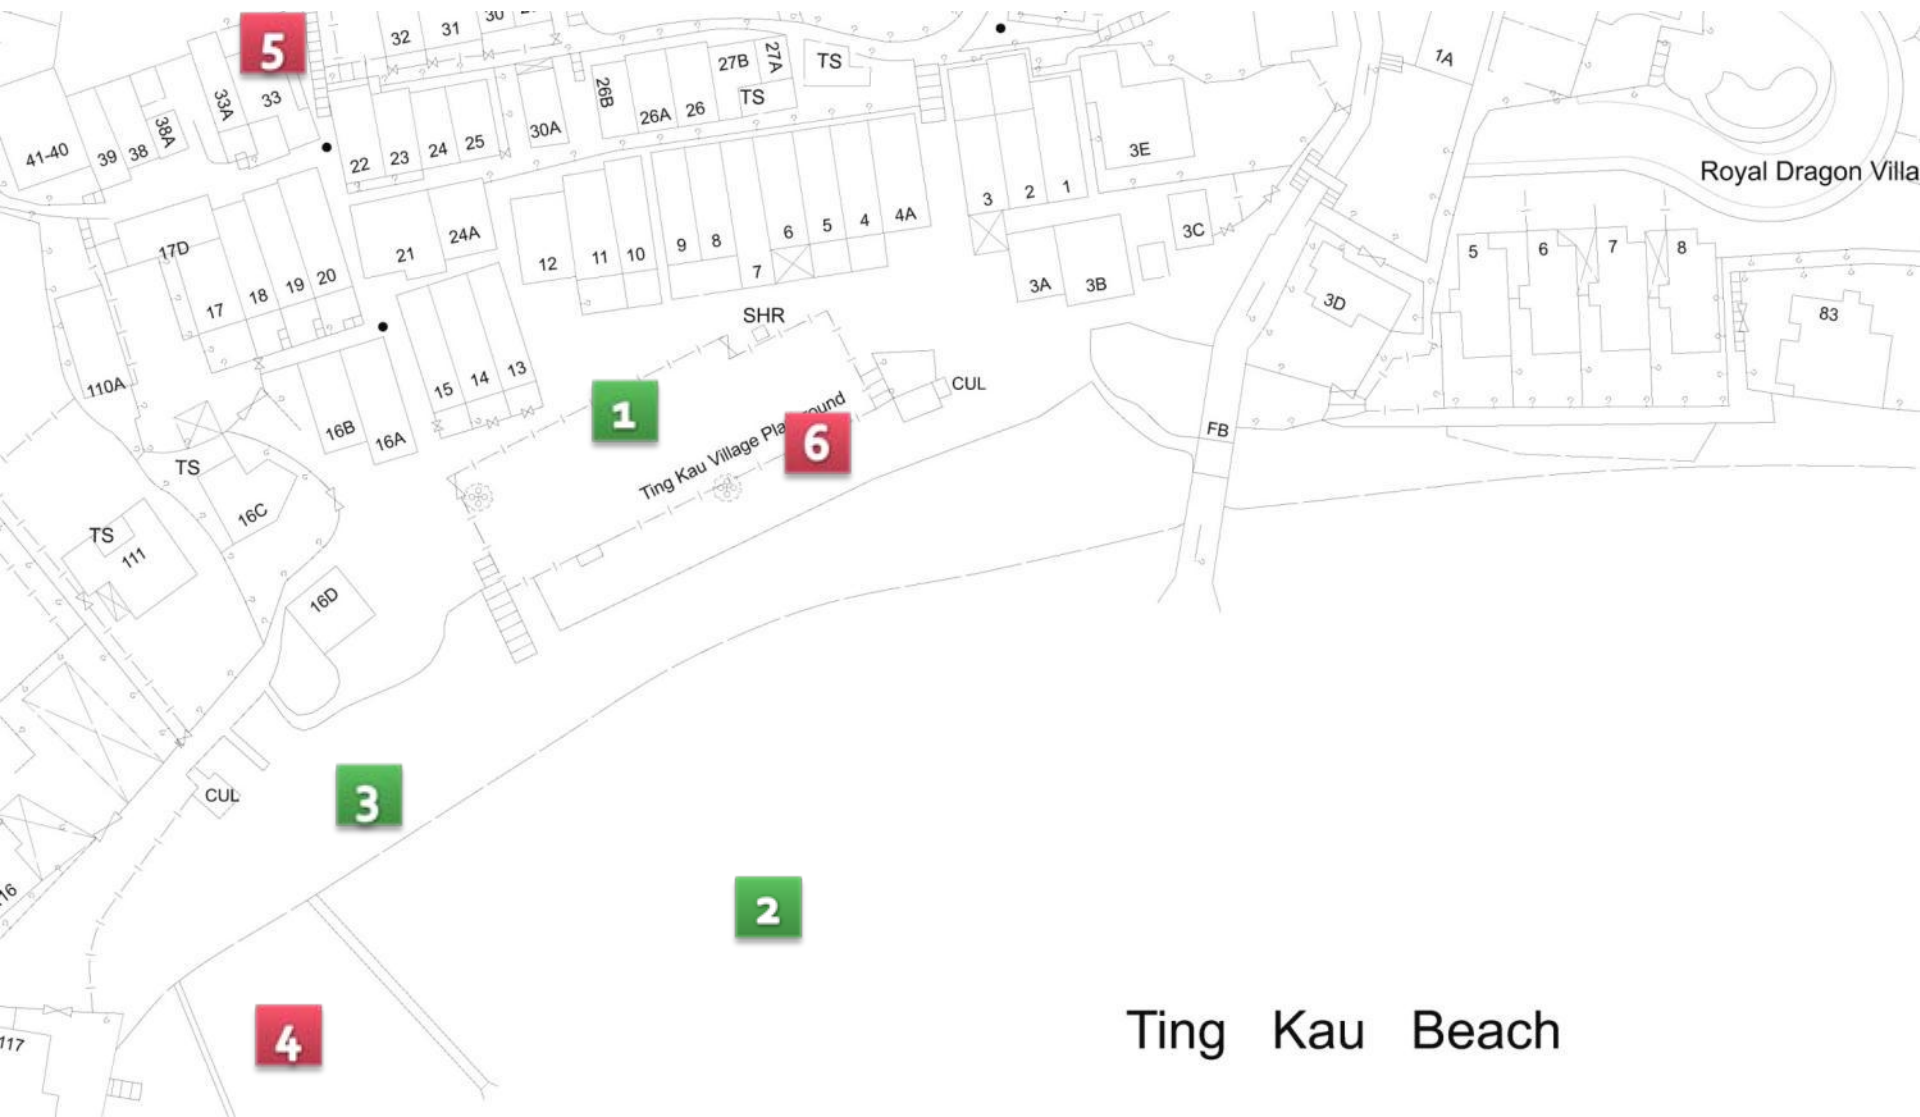

# Remove chain link fence

- Chain link fence surrounds playground.
- Replace with barrier plants.

# 32 - Ting Kau Beach

## Connectivity

# Playground

- Ting Kau Village Playground is connected.

## Quality

- Has an unobstructed view of the water and of the Ting Kau Bridge

# Harbour View

## Boats

## Connectivity

- Locals are able to use the site to launch and land boats.

## Connectivity

# Ting Kau Sitting-out Area

- Ting Kau Sitting-out Area is located under bridge, but not connected.
- Create a promenade that connects the two sites.

# Signage

## Accessibility

- There is a lack of signage from transportation at the street entrances and through Ting Kau Village.
- Add signage to and from the beach.

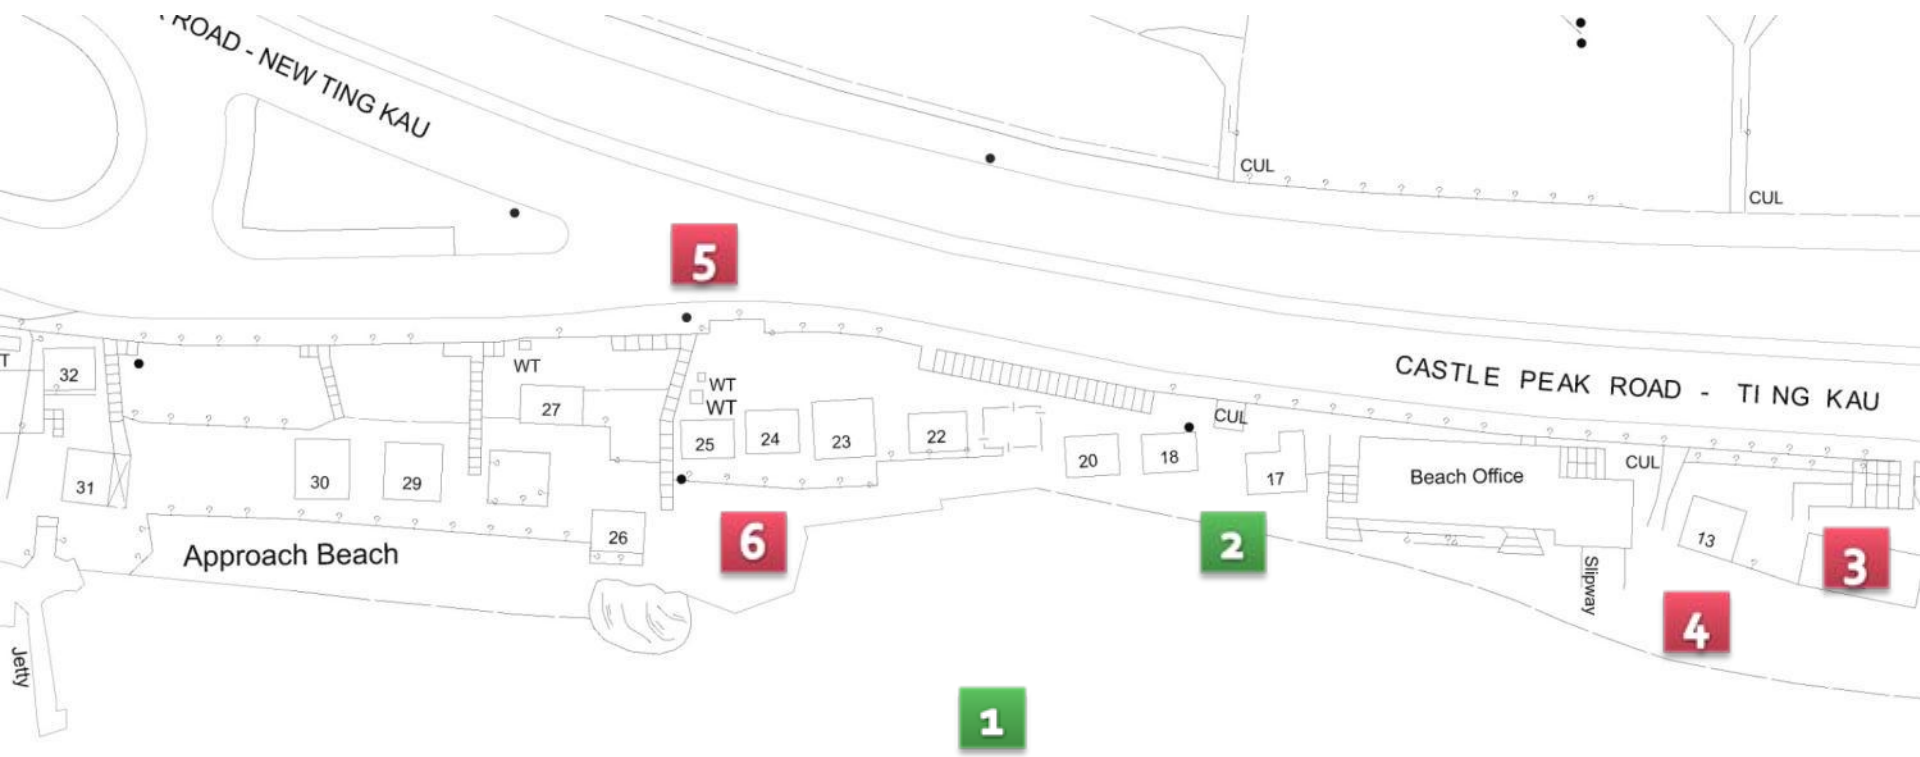

## Quality

## Seating

- There are only two benches at the beach.
- Add more shaded benches to accommodate more users.

# 33 - Approach Beach

## Quality

- The beach has an unobstructed view of the harbour.

## Harbour View

## Beach

## Connectivity

- The beach is long and one can continue walking for a long way beyond the end of the site to the east.

## Quality

# Renovate buildings

- There are several dilapidated structures that are in need of repair.
- Renovate the buildings and open for public use or rent to businesses.

## Design/Maintenance

# Clean Beach

- There are rocks and debris in some areas of the beach.
- Clean up the beach to make it more usable.

# Signage

## Accessibility

- There is a lack of signage at the street entrance and from the edge of the city nearby.
- Add signage to and from the beach.

# Seating

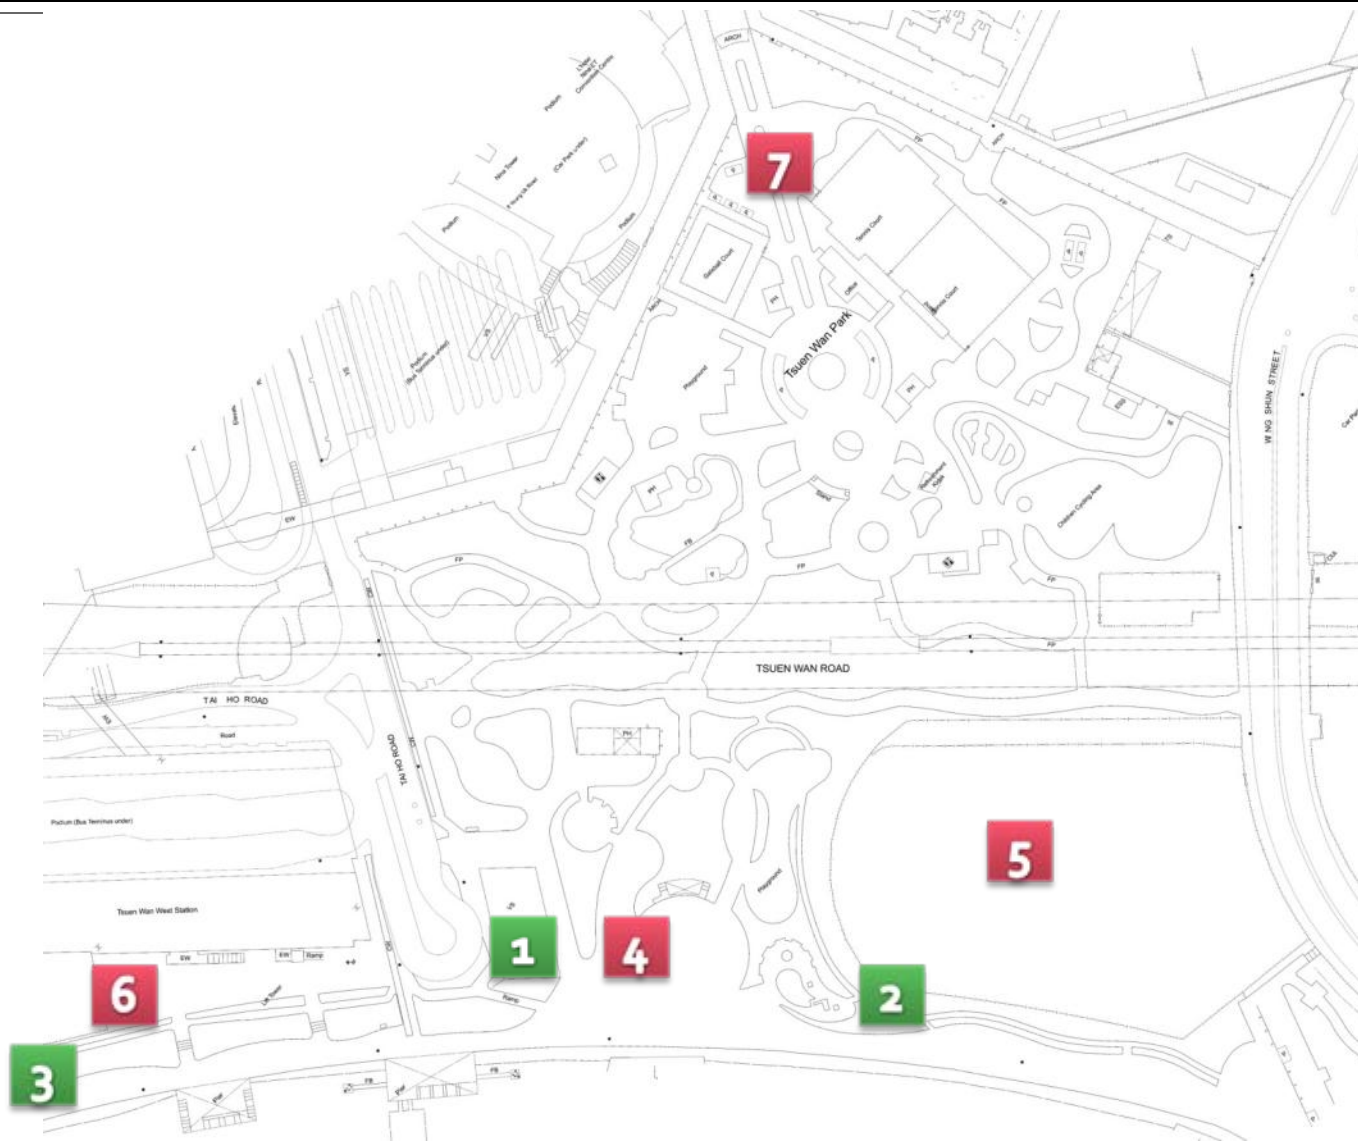

## Quality

- There is little seating available at the beach.
- Add benches with shade on the back side of the beach, away from waters edge.

# 34 - Tsuen Wan Park

## Design/Maintenance

# Art/Theme

- The park contains lots of art and decorations.
- The entire park is done with an aquatic theme.

## Quality

# Jogging Trail

- The park has a well marked and painted jogging track that runs along much of the promenade.

## Connectivity

# Adjacent Promenades

- The northern end of the promenade is connected to an adjacent non-LCSD venue.
- This helps create a continuous waterfront promenade.

## Quality

## Shaded Seating

- Cover the existing benches.

## Quality

## Expand Park/Eateries

- There is a large vacant lot that borders the park on 3 sides.
- Expand the park into this land.
- Allow food and eatery pavilion.

## Design/Maintenance

# Barbed-Wire Fence

- Barbed-wire fence along the border of the MTR station.
- Replace fence.

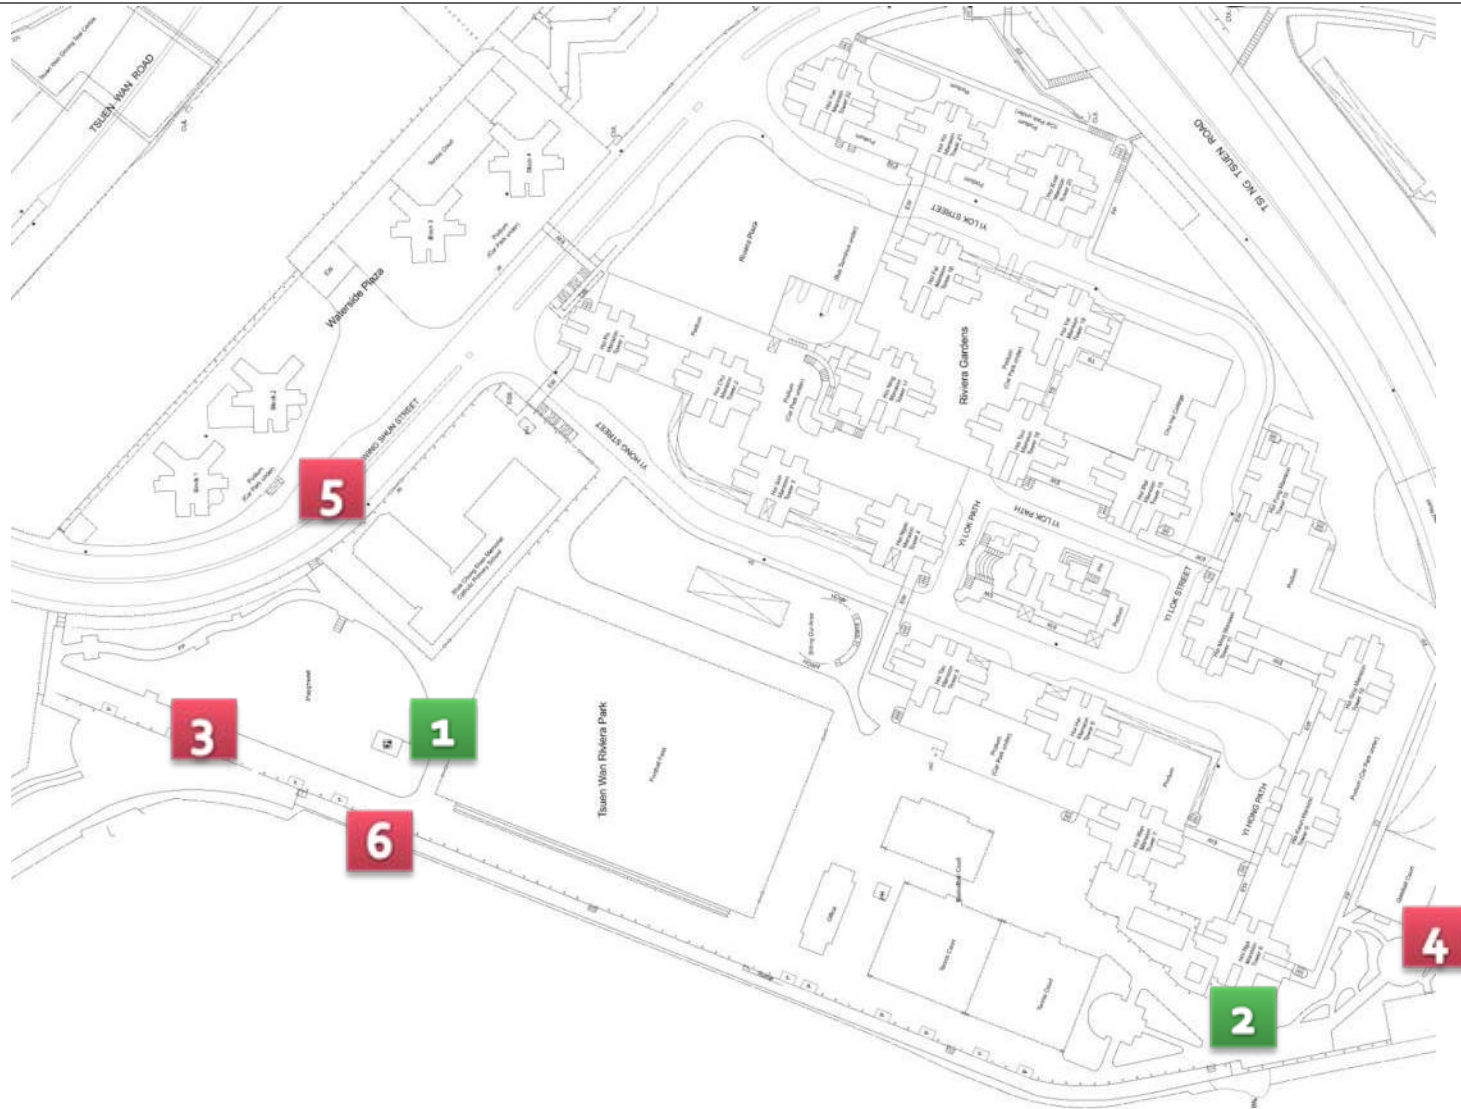

# Fountains

## Design/Maintenance

- The fountains in the park are not functioning and are in need of repair.

# 35 - Tsuen Wan Riviera Park

## Quality

## Sports Facilities

- The park provides facilities for several sports and there is a booking station in the park.

## Design/Maintenance

# Well-Maintained

- The park is very well maintained, the walkways are clean and the greenery is well cared for.

## Connectivity

- Wall between Tsuen Wan Park and Tsuen Wan Riviera park.
- This wall is unnecessary.
- Remove wall.

# Fences

## Design/Maintenance

- Chain-link fences at northern and southern ends of park.
- Plant trees in front of fences.

## Connectivity

## Signage

- Area around the park has malls and restaurants.
- Add signage both to and from these attractions and park.

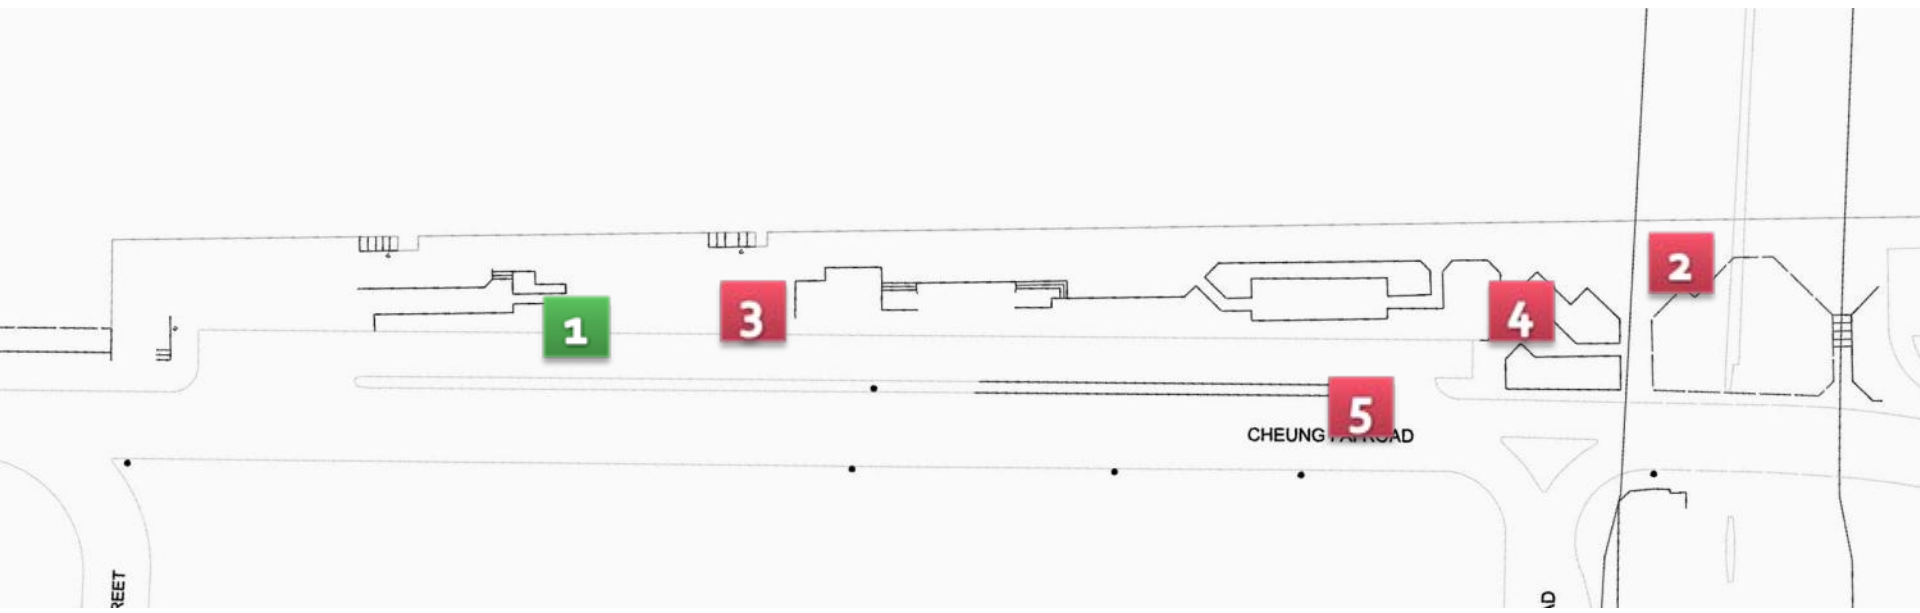

## Design/Maintenance

# Blocked Promenade

- Promenade along the water's edge is closed and not maintained.
- Clean, repave, add seating.
- Open area for public use.

# 26 - Cheung Fai Road Promenade

## Design/Maintenance

- Walls along the street side of the park provide noise barrier from industrial area.
- Decorated with a fish theme.

## Design/Maintenance

# Utilities Area

- Fenced utilities area with barbed wire fence at south end of park.
- Plant trees and add shrubbery to block view of equipment.

## Quality

## Facilities

- No facilities at promenade.
- Add elderly fitness stations, game tables, foot massage path or playgrounds.

## Quality

## Food/Beverage

- Area surrounding the park is industrial.
- Add food and beverage kiosks or rent space to a restaurant or café.

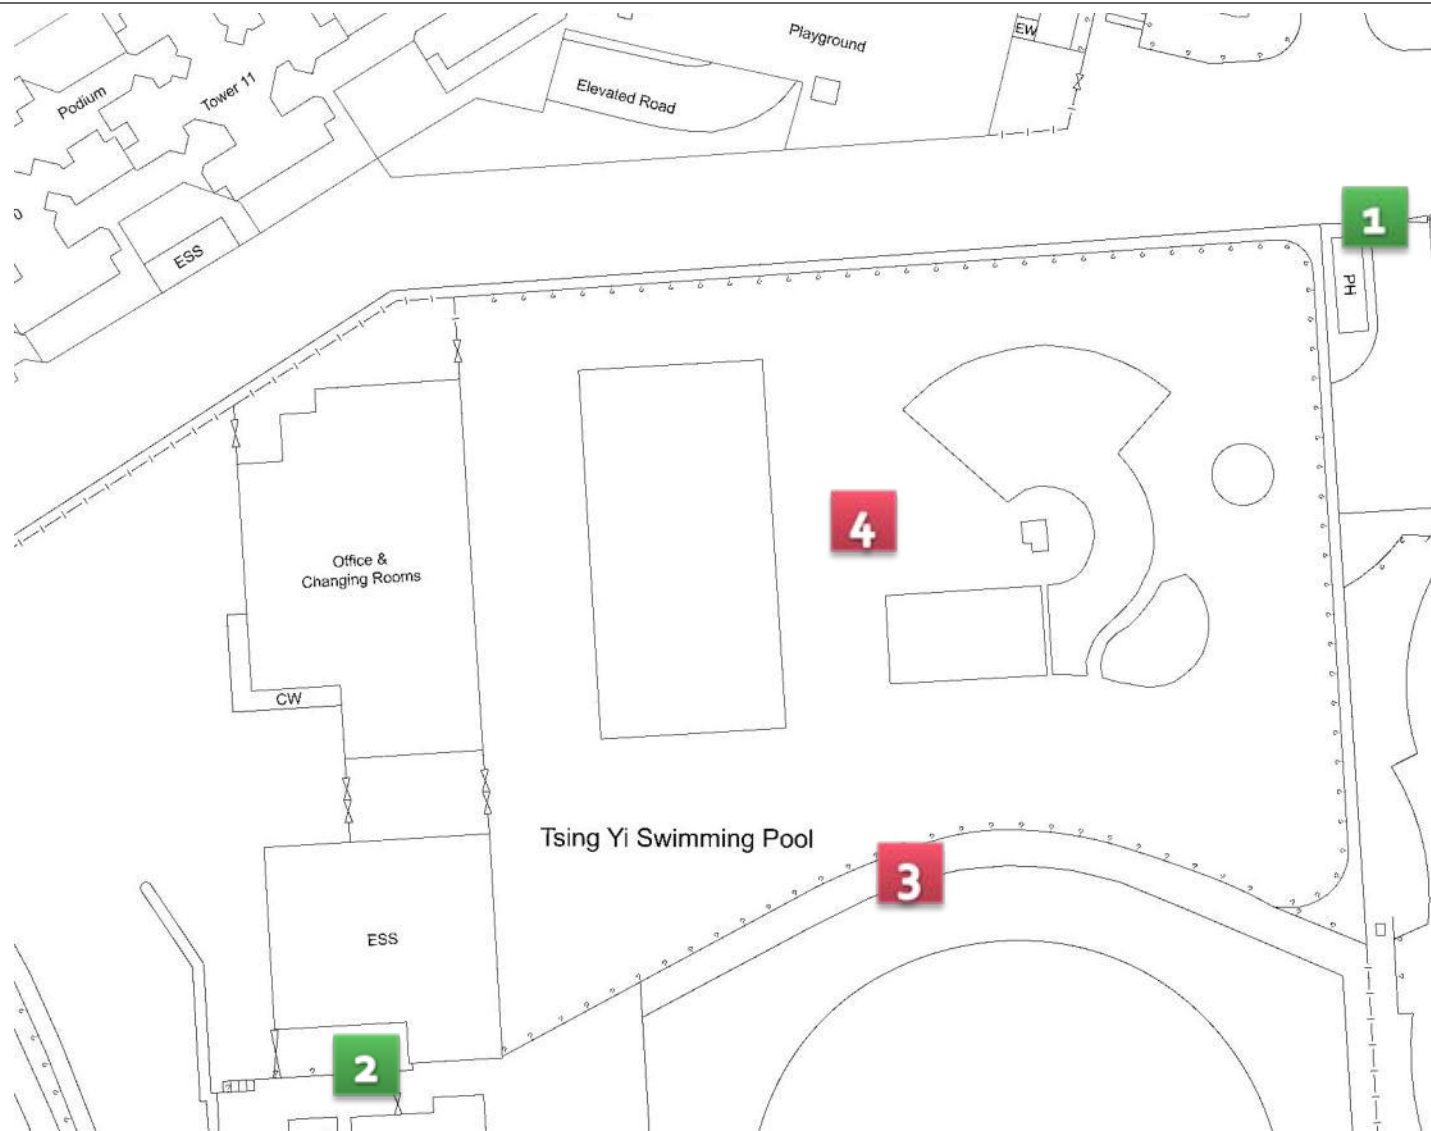

## Connectivity

# Signage

- Add signage in the surrounding area to the park.
- Add signage to and from Tsing Yi Promenade.

# 27 - Tsing Yi Swimming Pool

## Connectivity

- Swimming pool is connected well with adjacent sports ground and promenade.

## Adjacent Sites

## Quality

# Restaurant

- Small restaurant located next to the swimming pool.
- Provides food so people don't leave the area to get something to eat

## Connectivity

- No direct route from restaurant to promenade.
- Open with connectivity through pool area.

# Connecting Restaurant

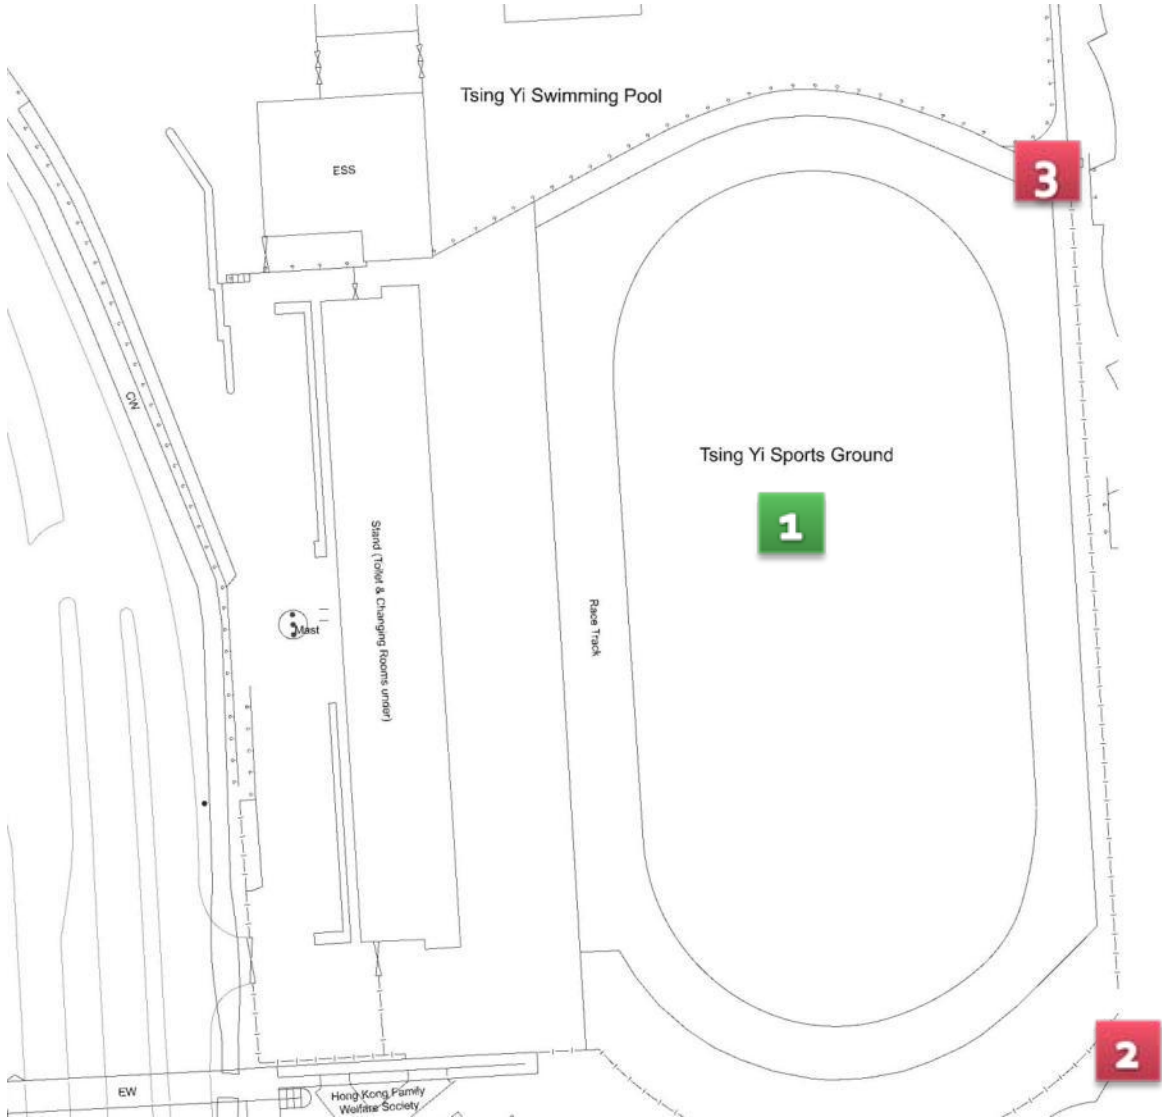

## Quality

# Seating

- Add seating around the pool area.
- Add picnic tables.

# 28 - Tsing Yi Sports Ground

## Design/Maintenance

# Well-Maintained

- Facility is very well maintained and clean.

## Connectivity

# Signage

- Add signage marking entrance to sports ground from the promenade.

## Connectivity

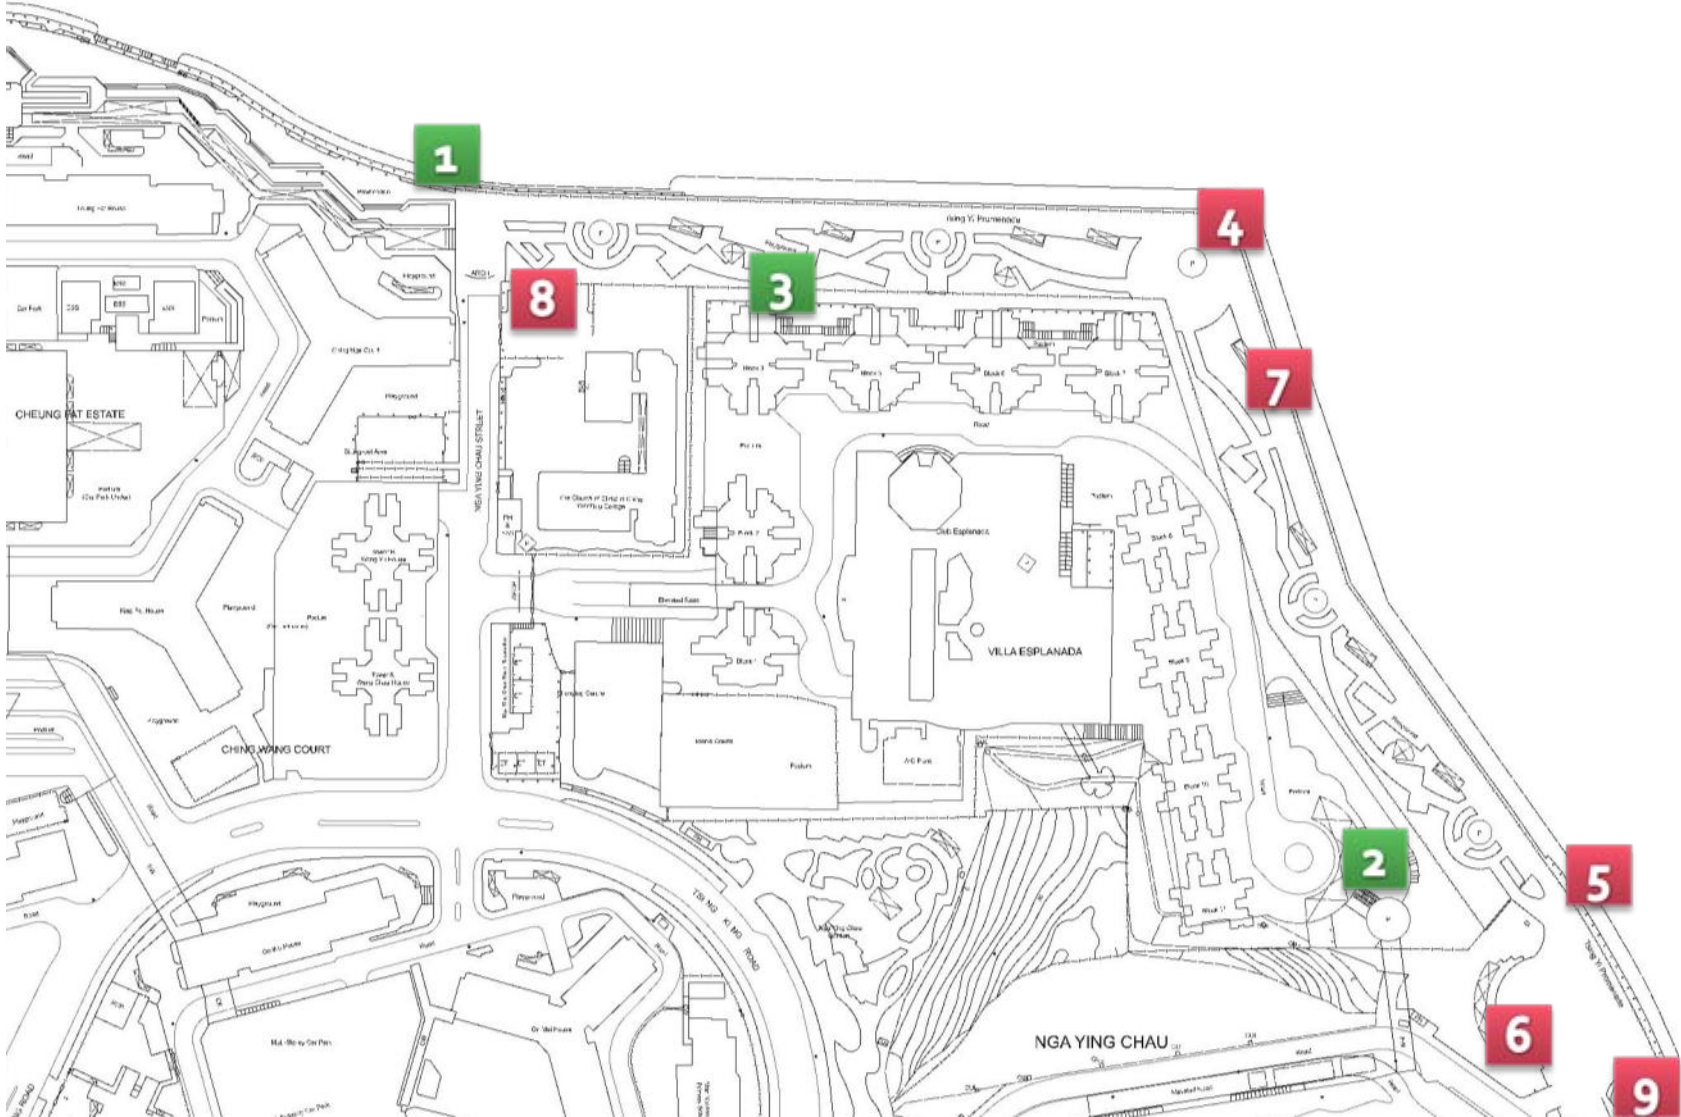

# Entrances

- Add entrance on the north side of the fence that borders the promenade.

# 29 - Tsing Yi Promenade

## Connectivity

## Adjacent Promenades

- Both ends of promenade are connected to non-LCSD promenades.

## Connectivity

# Maritime Square

- Promenade is directly connected to Maritime Square Mall at the Tsing Yi MTR station.
- Mall provides places to eat and shop.

## Connectivity

## Residential Buildings

- Private access to promenade from residential buildings.

## Quality

## Viewing Tower

- Large viewing tower.
- Add seating or binoculars at top of tower.

## Quality

# Ferry Landing

- Ferry landing is no longer in use.
- Use the structure to provide bathrooms, game tables, or rent to business.

## Quality

## Outdoor Dining

- One restaurant along the promenade.
- Allow buildings to use their ground floors for commercial use.
- Allow restaurants outdoor seating.

## Design/Maintenance

# Bench Shelters

- Some bench shelters provide neither shade nor shelter.
- Replace covers with more functional ones, or grow plants on top.

## Quality

## Site Sign

- Remove fence blocking site sign.

## Quality

## Add playground

- Site has some playgrounds, an interviewed user suggested a bigger one.
- Add large playground to the unused space in the middle of the promenade.
