Subject: Central Traffic Suggestion
 Urgent Return Receipt

In response to your call for public suggestions on traffic management in Central, Wanchai and Causeway Bay, let me offer the following suggestion for discussion

Ban all commercial vehicles except franchised buses and trams from the area between the Western and Central tunnels and above Connaught Rd./Gloucester Rd. from 8AM to midnight daily. All deliveries (including security vans) must be made at night in this area. Pick up and dropoff zones for taxis, minibuses, school buses and residents' buses could be established along the waterfront north of Connaught Rd./Gloucester Rd. Passengers would have to transfer to franchised buses there, or walk. To supplement this, the escalator network should be expanded to the 7 routes originally proposed.

I hope this suggestion will help prevent your consultation from degenerating into a forum for the developers and construction interests.
